Reflections Along A Political Journey:

Political Journeys Fred Halliday, 2012-08-14 One of the great contrarians of international relations scholarship Fred Halliday was able to combine his understanding of the broad sweep of modern history with a profound knowledge of modern revolutions the Middle East and national movements This collection of Halliday's political essays written for the online journal openDemocracy between 2004 and 2009 is proof of a subtle worldview that continues to generate questions What is the relation between religion nationalism and progress Is a new international order possible When is intervention a force for progress From the big headline topics such as the Iraq War to the unexpected comparisons of Tibet and Palestine or Afghanistan and the Falklands Halliday's writings provide a perennially surprising and enlightened guide to the major issues of international politics

Reflections on Political Theory N. Wood, 2001-12-18 In this thought provoking study Neal Wood challenges the conception of political theory as a lofty discipline remote from the world of real politics Drawing on the examples of thinkers from Plato to those of the nineteenth century he attempts to define political theory by examining the nature of the state and politics by identifying the major characteristics that their theories share and by analyzing the conditions that have favoured their creation Wood critically explores the two principle approaches to studying the work of past theorists the philosophical and historical and evaluates the relevance of Marxism The various theories are not treated as blueprints but collectively as a voice of reason from the past which can inspire and guide present and future theorizing

The Doctoral Journey as an Emotional, Embodied, Political Experience Rebecca Twinley, Gayle Letherby, 2021-12-28 The Doctoral Journey as an Emotional Embodied Political Experience is the first text of its kind to capture stories of involvement in doctoral journeys from students supervisors and examiners Drawing from experiences across a variety of disciplines in the social sciences medical sciences education and the humanities these stories share a keenness to demonstrate the ways in which this journey is emotional rather than detached embodied rather than separated and political rather than having no relationship to politics The journey metaphor is often adopted to describe and explore the PhD process However this journey is usually only seen from the perspective of the doctoral candidate This implies that it is only the student that learns develops and reflects This is clearly not always maybe never the case The suggestion that the candidate learns whilst the supervisors teach harks back to traditional masculinist educational approaches and neglects the reciprocal knowledge sharing process between student and supervisor Similarly the prescription that relationships between all concerned remain professional and removed rather than in any way intimate suggest an unrealistic acceptance of an scientific detached objective agenda rather than an emotional embodied political and holistic approach to research The contributions to this book extend the journey metaphor to additionally consider the experiences of supervisors and examiners including the joint collaborative journey of the team the candidate their supervisors and their examiners This provides a challenge to traditional understandings of the doctoral process and offers implications for future reflection and practice This book is therefore an invaluable resource for

doctoral students supervisors examiners and readers interested in pedagogy and educational practice **Reflections on Commercial Life** Patrick Murray, 2014-06-11 *Reflections on Commercial Life* an anthology of writings from the ancient Greeks to contemporary thinkers provides students scholars and general readers an opportunity to develop a more self-conscious and critical relationship to commercial life Selections are drawn from seminal works of high intellectual and literary quality Through an inquiry into history nature and outcomes this volume offers the opportunity to explore as never before alternatives to modern commercial life *The Works of the Right Honorable Edmund Burke ...: Political miscellanies.
