Localism in the Mass Age Mark T. Mitchell, Jason Peters, 2018-04-02 In the United States the conventional left right distinction has become increasingly irrelevant if not harmful The reigning political cultural and economic visions of both the Democrats and the Republicans have reached obvious dead ends Liberalism with its hostility to

any limits is collapsing So called Conservatism has abandoned all pretense of conserving anything at all Both dominant parties seem fundamentally incapable of offering coherent solutions for the problems that beset us In light of this intellectual cultural and political stalemate there is a need for a new vision Localism in the Mass Age A Front Porch Republic Manifesto assembles thirty one essays by a variety of scholars and practitioners associated with Front Porch Republic seeking to articulate a new vision for a better future. The writers are convinced that human apprehension of the true the good and the beautiful is best realized within a dense web of meaningful family neighborhood and community relationships These writers seek to advance human flourishing through the promotion of political decentralism economic localism and cultural regionalism In short Front Porch Republic is dedicated to renewing American culture by fostering the ideals necessary for strong communities Immediacy and Reflection in Kierkegaard's Thought Paul Cruysberghs, Johan Taels, Karl Verstrynge, 2003 We live in a reflective age That is Soren Kierkegaard's overall conclusion when evaluating the time he lives in But his appraisal contains both approval and criticism On the one hand reflection is a necessary category to deal with the dynamics and the qualities of the modern age on the other hand it bears a great danger It is Kierkegaard's firm conviction that reflection should always relate to a kind of immediacy that safeguards it from becoming hollow and detached from our existential reality Throughout the voluminous and complex work of Kierkegaard the notions of immediacy and reflection play a crucial role They appear in such an early work as From the Papers of One Still Living as well as in the late Anti Climacus writings and indeed their significance or influence can be felt in all philosophical texts published in between That is not to say that the meaning of the notions is unequivocal After all Kierkegaard not only uses the terms in very divergent contexts but his own understanding of them appears to evolve guite strongly in the course of his oeuvre Moreover in spite of their clearly philosophical character the two notions play an unmistakable role in Kierkegaard's understanding of religion They appear frequently in the religious discourses indeed In short Kierkegaard's use of the notions of immediacy and reflection covers a broad array of meanings and interpretations The dialectics of immediacy and reflection of reflection killing immediacy and raising the question of the possibility of a new immediacy is the main theme of Immediacy and Reflection in Kierkegaard's Thought The book contains contributions authored by a number of well known Kierkegaard scholars Kierkegaard's theory of the existence spheres of life provides a first viewpoint on the interplay of immediacy and reflection Here the philosophical and pseudonymous writings are the main subject of research If on the other hand one pays a closer look at the significance of a second immediacy for a religious attitude to life The religious discourses come into play when the possibility of a second immediacy is taken into consideration In conclusion the theme of immediacy and reflection is connected to some important trends in the modern and contemporary era On the one hand it is linked to the philosophical influences Kierkegaard underwent e g from Hegel on the other hand Kierkegaard is confronted with later thinkers Heidegger in particular The Publishers' Trade List Annual ,1985 Thinking About Love Diane Enns, Antonio
