Scott Causey,2015-10-09 By the year 2126 CEO Carlton Ferguson and his immensely powerful corporation have already introduced the world to Reflection Technology a means to view any event that has happened in a previous forty eight hour window Effectively ridding the world of crime the technology is far too valuable for society to abandon but too dangerous for one person to control Still Carlton is determined that he and he alone should hold the key to this Pandoras box and finds himself in a battle to keep what is his Further he is secretly deep within the process of enhancing the technology to go far beyond a mere two day limit and does not intend to stop until he can witness the very beginning of time itself Governments covet the technology while world faiths fear it will unmask the very gods to whom they pray Though their goals may be mutually exclusive religious and political opponents conspire to force Carlton into revealing his secrets With few available options Carlton agrees to a tenuous partnership with the United States government but quickly learns that his innate reluctance to freely offer his trust is justified *Mr Woodreeve's Reflection* Robert Bluck,2017-02-02 Emma sees something impossible again a man walking unharmed out of a deep churning river Last time her parents thought she was hallucinating Now she ll keep it secret Is Emma going crazy Or does she see things the others can t see or won t admit to seeing On the surface is a family in crisis Emma is an awkward teenager in a world of her own and there is a web of secrets her family are keeping from each other which can only be untangled if they have the courage to share what they have seen There seems to be a hidden world magical or dangerous only a hair s breadth away from everyday Northumberland The family befriend the mysterious Mr Woodreeve and they begin
