Dolan,2019-06-07 In the seventeenth century the largely Protestant nation of England was preoccupied

with its Catholic subjects They inspired more prolific and harsher criticism and more elaborate attempts at legal regulation than did any other minority group To understand this phenomenon Frances E Dolan probes the verbal and visual representations of Catholics and Catholicism and the uses to which these were put during three crises in Protestant Catholic relations the gunpowder plot 1605 Queen Henrietta Maria s open advocacy of Catholicism in the 1630s and 1640s and the popish and meal tub plots 1678 1680 She uses each crisis as a jumping off point an opportunity for speculation as did contemporary writers Drawing on political religious and legal writings and offering fresh readings of literary texts such as Macbeth and Antony and Cleopatra Dolan shows how often Catholics and Catholicism were linked to disorderly women Dolan maintains that since Catholics were members of many English families and communities and prominent at court the threat they offered was precisely that they could not be readily isolated and assigned to a category both laws and polemic struggled to identify Catholics but never succeeded in establishing a clear line between Catholics and everyone else In seventeenth century England Dolan says the threat of Catholicism lay in the tension between the foreign and the familiar the different and the same

Reflections of Murder Margaret Holbrook, 2023-01-22 A woman s body has been found on a local common Evans and Craig are called in to investigate They embark on what seems like a straightforward murder case but is it The dead woman worked in the local library was quiet likeable and hadn t a bad word for anyone so why has she ended up dead As the case progresses Evans begins to have doubts about his own ability as he and Craig confront a web of deceit Nothing is as straightforward as it first appeared

Dumbth Steve Allen, 2009-12-04 Critics have raved about this delightful book Allen addresses the muddleheadedness or dumbth that pervades all segments of American life and work and offers 81 rules for good thinking

Film Directors Michael Singer, 2002 *Further Reflections on the Journey to the Omega Point* Tom Reidy, *Further Reflections on the Journey to the Omega Point* is a sequel to my previous book *Reflections on the Journey to the Omega Point* It is a further collection of my reflections on various subjects based on insights I have gained over 71 years of living They follow no particular pattern or sequence and at times may be repetitious but some things are worth repeating since they contain valuable lessons and wisdom that come to all of us over a lifetime of living This book is written from a Roman Catholic viewpoint but it has something for people of all Faiths One disclaimer These are strictly my observations and opinions right or wrong these are my personal conclusions on the topics discussed

But Seriously... Steve Allen, 2010-10-05 Versatile entertainer Steve Allen is the creator of *The Tonight Show* and PBS s award winning *Meeting of the Minds* In *But Seriously* he explores such topics as nuclear war interracial justice and Frank Sinatra One article titled *How to Attack a Liberal* advises conservatives how to best ethically confront his beliefs His reflections tackle weighty topics sure to be thought provoking

Foundational Reflections H.A. Durfee, 2012-12-06 The American University Publications In *From its inception* Philosophy has continued the direction stated in the sub title of the initial volume that of probing new directions in philosophy As the series has developed these probings of new directions have taken the two fold direction of

exploring the relationships between the disparate traditions of twentieth century philosophy and with developing new insights into the foundations of some enduring philosophic problems This present volume continues both of these directions The interaction between twentieth century Anglo Saxon and Continental philosophy which was an implicit theme of our first and third volumes and the explicit subject of our second volume is here continued in a series of studies on major figures and topics in each tradition In the context of these interpretative studies Professor Durfee returns again and again to the question of the relationships between the will and the reason and explores the conflicting goals of creativity and objectivity in formulating a philosophic position In so doing he raises the issue as his title suggests of the foundations of philosophy itself He seriously challenges the belief common to both pheomenology and analytic philosophy that philosophizing can be a presuppositionless activity objectively persued independent of the personal and perhaps arbitrary commitments of the philosopher This issue critical as it is to all forms of philosophy is surely a worthy one for a series such as ours
