Reflections on a Disruptive Decade Eugene Davidson, 2000 Die at the Right Time! Eric v.d. Luft, 2009-09-21 Parts will make you laugh parts will make you think parts will make you angry parts will make you sick Go for it all *Adman's Dilemma* Paul Rutherford, 2018-01-01 The Adman's Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers Apparently this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth It was this moral condition and its consequences that made the adman so interesting to critics novelists and eventually filmmakers The biography tracks his saga from its origins in the exaggerated doings of P T Barnum the emergence of a new profession in the 1920s the heyday of the adman's influence during the post WW2 era the later rebranding of the adman as artist until the apparent demise of the figure symbolized by the triumph of that consummate huckster Donald Trump In The Adman's Dilemma author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity The book employs a range of fictional and nonfictional sources including memoirs novels movies TV shows websites and museum exhibits to suggest how the adman embodied some of the strange realities of modernity *The American Way of Peace* Jan S. Prybyla, 2005 Traces the development and implementation of Pax Americana the American way of peace from World War II to the war on terrorism and the Iraqi conflict Examines the extent to which modernization must incorporate values of democracy and rule of law Provided by publisher *A World of Letters* Nicholas A. Basbanes, 2008-01-01 For Yale University Press which celebrates its hundredth birthday in 2008 the century has been an eventful one punctuated with no few surprises The Press has published more than 8 000 volumes through the years scores of bestsellers and award winners among them and these books have come to fruition through the efforts of a host of colorful authors editors directors board members and others of intellectual and literary renown With an ear always cocked for an interesting tale one of today's best storytellers presents an anecdote rich chronicle of the Press's first 100 years Nicholas Basbanes whom David McCullough has called the leading authority of books about books quickly convinces us that the Press's history while bookish is also lively and fascinating Basbanes explores the saga behind the acquisition of Eugene O'Neill's blockbuster play the all time Yale bestseller *Long Day's Journey into Night* the controversy sparked in 1965 by publication of *The Vinland Map* the origins of the groundbreaking *Annals of Communism* series initiated in the wake of the Soviet Union's demise and many more highlights from Press annals Basbanes looks at the reasons behind the publisher's remarkable financial success and he completes *A World of Letters* with a glimpse at the new initiatives that will propel the Press into a second exciting century *Forthcoming Books* Rose Arny, 2000 *Chronicles*, 2001 Choice, 2000 **Program of the ... Annual Meeting** Organization of American Historians. Meeting, 2001 **The British National Bibliography** Arthur James Wells, 2000 **American Book Publishing Record**, 2001 **The Seventies**

Shelton Waldrep, 2013-11-26 *The Seventies* is must reading for anyone who wants to revisit that glam decade and the contributions it made to our culture. The contributors take you on a fascinating journey that looks at the Black Panthers, Jonestown, glam rock, black action films and gay male subcultures as well as including queer rereadings of cultural phenomena, examinations of clothing and seventies bodies and an essay on the meaning of sound in the seventies.

Memories, Thoughts, and Emotions William Kessen, Andrew Ortony, Fergus Craik, 2013-02-01 For the past forty years the ideas and findings of George Mandler and George Mandler himself have been highly influential throughout the field of experimental psychology. Not only has he helped to advance the study of cognition and emotion in many ways but he also offered assistance and encouragement to numerous young researchers who may expand on the knowledge acquired thus far. The editors of this festschrift feel that one of the greatest strengths of Mandler's work is the blend of European theorizing and American empiricism. This volume contains contributions from friends and colleagues who have been influenced in one way or another by this accomplished psychologist.

The 1960s Rebecca Jackson, 1992-12-10 The 1960s were a particularly turbulent period and the events of those years continue to interest and influence American society. This bibliography records and documents the most significant happenings of that decade. The volume spans the years between 1960 and the resignation of President Nixon in 1974. It includes citations for more than 1300 books related to that period. Some of the books were written during the 1960s and directly influenced people of that time. Others were written afterward and analyze and interpret the events of the decade. The entries are arranged in topical chapters and each citation is accompanied by a descriptive and evaluative annotation. The volume begins with an introduction that overviews and discusses the major events and trends of the time. The 17 topical chapters that follow treat virtually every aspect of life in the 1960s. The first few chapters include general works on the underlying social, political and economic conditions that served to define the decade. Other chapters discuss works on the presidencies, social protests, the impact of the Vietnam war, the cultural revolution and trends in art, music, literature and religion. The bibliography concludes with author, title and subject indexes that add to its value as a reference tool.

Progressive and Conservative Religious Ideologies Richard Lints, 2016-04-15 This book explores the surprisingly disruptive role of religion for progressive and conservative ideologies in the tumultuous decade of the 1960s. Conservative movements were far more progressive than the standard religious narrative of the decade alleges and the notoriously progressive ethos of the era was far more conservative than our collective memory has recognized. Lints explores how the themes of protest and retrieval intersect each other in ironic ways in the significant concrete controversies of the 1960s: the Civil Rights Movement, Second Feminist Movement, The Jesus Movements and the Anti War Movements and in the conceptual conflicts of ideas during the era: The Death of God Movement, the end of ideology controversy and the death of foundationalism. Lints argues that religion and religious ideologies serve both a prophetic function as well as a domesticating one and that neither conservative nor progressive movements have cornered the market in either direction. In the process

Lints helps us better understand the complex role of religion in cultural formation **Bulletin of the Atomic Scientists**, 1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *The Publishers Weekly*, 1979 *Bulletin of the Atomic Scientists*, 1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

"*Science, Technology, and Utopias* " Christine Filippone, 2017-07-05 The rise of proxy wars the Space Race and cybernetics during the Cold War marked science and technology as vital sites of social and political power Women artists historically excluded from these domains responded critically while simultaneously redeploying the products of Technological Society into works that promoted ideals of progress and alternative concepts of human community In this innovative book author Christine Filippone offers the first focused examination of the conceptual use of science and technology by women artists during and just after the women s movement She argues that artists Alice Aycock Agnes Denes Martha Rosler and Carolee Schneemann used science and technology to mount a critique on Cold War American society as they saw it conservative and constricting Motivated by the contemporary American Women s Movement these artists transformed science and technology into new modes of artmaking that transgressed modernist heroic painterly styles and subverted the traditional economic structures of the gallery the museum and the dealer At the same time the artists also embraced these domains of knowledge and practice as expressions of hope for a better future Many found inspiration in the scientific theory of open systems which investigated problems of wholeness dynamic interaction and organization enabling consideration of the porous boundaries between human bodies and their social political and nonhuman environments Filippone also establishes that the theory of open systems not only informed feminist art but also continued to influence women artists practice of reclamation and ecological art through the twenty first century **The Lost Cinema of Mexico** Olivia Cosentino, Brian Price, 2022-02-08 This volume challenges the dismissal of Mexican filmmaking during the 1960s through 1980s an era long considered a low budget departure from the nation s earlier Golden Age examining the critical implications of discovering uncovering and recovering forgotten or ignored films
