Reform In China And Other Socialist Economies

Jean Jinghan Chen, David Wills

Reform In China And Other Socialist Economies:

Reform in China and Other Socialist Economies Jan S. Prybyla,1990 China's Economic Dilemmas in the 1990s United States. Congress. Joint Economic Committee,1992 Costs and Benefits of Interdependence A Net Assessment *Foreign Trade and Economic Reform in China* Nicholas R. Lardy,1992 A comprehensive analysis of how China emerged as one of the most dynamic trading nations in the world first published in 1992 China's Industrial Reform Gene Tidrick,Jiyuan Chen,1987 Containing important implications for socialist and other developing countries this book uses newly acquired data to analyze China s far reaching industrial reforms looks at Hungary s reforms and compares Chinese and Soviet systems

China's Economic Dilemmas in the 1990s ,1991 *The Political Economy Of China's Financial Reforms* Paul Bowles,Gordon White,2019-07-11 THIS PATHBREAKING Work analyzes the evolution of China s financial reforms since 1979 China s reformers have stressed the construction of a more diverse flexible and competitive financial system as a crucial element of China s economic reform program The authors assess the theory and practice of financial reform in light of China s specific characteristics as a large developing country that still claims to be pursuing the goal of establishing a new form of socialist market economy The authors utilize two approaches First they place the overall design and trajectory of financial reform since 1979 within a broad comparative framework of alternative strategies of financial reform and financial systems Second they use a political economy perspective to explore the complex interactions among the political and economic actors individual group or institutional that affect reform outcomes Integrating these two approaches the authors conclude by assessing future directions for feasible and desirable financial reform in China China's Economic Dilemmas in the 1990s The Joint Economic Committee,2016-09-16 Most students of contemporary China are familiar with the Joint Economic Committee studies on China which have appeared periodically since 1967 This is the most recent study in the series released in April 1991 This volume follows the format of the previous studies offering a broad sweep of its subject matter The 50 chapters contributed by Chinese scholars in government universities and private research centres are divided into five major parts Each section begins with an overview which summarises and comments on the main points in each of the chapters The volume offers a detailed examination of China s economy and the political and social factors currently facing the leadership in Beijing China's Economic Reforms Lin Wei,Arnold Chao,1982 Essays on theoretical and empirical contradictions in China s economic policy reforms since 1976 discusses policy options and economic development trends 1949 1980 economic structure imbalances revival of private enterprises market mechanism and competition under socialism foreign investment potential price policies etc stresses the importance of communes public ownership efficient public enterprise leadership rational decentralization etc Glossary references and statistical tables **Legal Reform in the Contemporary Socialist World** Ngoc Son Bui,2024-08-12 Legal Reform in the Contemporary Socialist World explores four decades of legal reform in the socialist countries of China Vietnam Laos North Korea and Cuba from a comparative perspective Spanning the late 1970s

to the present it examines various projects methods strategies contents driving forces and limitations of legislative reform administrative reform judicial reform and reform of the legal profession Legal reform in these countries is the project of the political elite to improve the legal system while retaining its core socialist principles It is carried out through legislative enactments amendments and replacements which the political elite adopt using incremental strategies to reform the legal system sporadically or systematically Socialist legal reform is animated by the political aspiration to create the rule of law the impact of social economic change and the influence of transnational and comparative law Despite significant reforms the socialist principles of the legal systems in these countries largely remain intact This legal reform however varies considerably by country Legal Reform in the Contemporary Socialist World offers a holistic view of understudied jurisdictions in comparative law essential for anyone studying or working in these areas in law politics or policy

Private Business and Economic Reform in China Susan Young, 2015-05-11 Based on Party and state documents Chinese newspaper reports and surveys the Chinese and Western scholarly literature and the author's own fieldwork this important study examines the private sector as a case study of the mechanics of reform in China emphasizing the relationships among local officials private businesses and central policy The book traces the growth of private business in China since 1978 and focuses on the interaction between private sector policy and other reforms and examines how this has affected China's political economy

China's Foreign Trade Reforms John C. Hsu, 1989 Recent events in China have revealed a nation struggling to reconcile its new thinking with its traditional institutions and practices This book provides an assessment of one aspect of the reform process the foreign trade system The reforms in China have heralded a new openness in Chinese economic policy In this book his first full length work on the subject Dr Hsu investigates the impact of the reforms on China's foreign trade and consequently on the domestic economy In the process he examines such issues as the role of foreign trade in China's economic development the institutional changes involved in the foreign trade reforms and the efficiency of the new foreign trade incentive system He then evaluates the possibilities for further foreign trade reforms in the future In conclusion Dr Hsu suggests that Chinese enterprises have been slow to respond to changes in domestic and international market conditions and that exposure to foreign markets has exacerbated inflation problems in the Chinese economy As a result he finds that China has not enjoyed the full potential benefits of its reform program This book will be of interest to economists political scientists Asian studies specialists and others interested in the economic ramifications of China's reform process It is a timely and thorough account of this crucial aspect of reform and an important addition to the growing body of literature on the restructuring of modern communist states

China's Transition from Socialism Dorothy J. Solinger, 1993 The essays in this volume address the industrial commercial urban and regional reforms of China's planned economy during the 1980s The emphasis is on the dominating institutional and bureaucratic presence of the state even as it sought to loosen the pre 1979 vertically structured centralised command system and to introduce some market principles to stimulate economic activity

The essays fall into four categories theoretical and policy discussions and debates at the central leadership level reform of the urban economy and of inter regional relations industrial and commercial reforms and the rise and position of the new entrepreneurial class Many of the essays draw on interviews with Chinese economic officials in the Central China city of Wuhan and therefore this is the only study that uses local data on actual operations of reforms from a Chinese city the other sources are the Chinese press and Chinese official and scholarly journals In each of the categories there are pieces from different points in the chronological process of reform This study begins with the first theoretical discussions among China's economists and top political leaders in the late 1970s and concludes with experiments with bankruptcy and stock markets in the late 1980s The countervailing heavy presence of the state at both the policy and the practical levels throughout the reform decade is its unifying theme

Socialist Economies and the Transition to the Market Ian Jeffries, 1993-05-27 First published in 1993 Routledge is an imprint of Taylor Francis an informal company

The Impact of China's Economic Reforms Upon Land, Property and Construction Jean Jinghan Chen, David Wills, 2019-04-12 First published in 1999 this volume aims to explore the impact of China's recent economic reforms and dynamic economic progress on land use the property market and construction activity under the leadership of Deng Xiaoping until his death in 1997 Following the famine and bloody mayhem of Mao Zedong's Great Leap Forward and Cultural Revolution Deng Xiaoping took on the task of piecing the country back together to once more become a leading world economy Here Jean Jinghan Chen and David Wills concentrate on his reforms and progress examining at what point power can be said to have passed from Deng Xiaoping to Jiang Zemin to what extent Deng's political philosophy remained in place under the new government and what this means for China's economic reforms on land property and construction The authors provide a view on how management of the physical environment needs to be considered in the context of economic progress to achieve sustainable development

Economic Reforms and Political Attempts in China 1979-1989 Barna Talas, 2012-12-06 In our quickly changing world authors who are analyzing the social economic and political processes going on in different countries often find themselves in a situation where the development of processes they have already described take a turn in another direction before their work is in final form or appears in print As a consequence some of their statements are no longer valid More rarely it occurs that after the writing of a book presenting a reform process covering 10 years the writing itself taking one and a half years exceptional events take place in the given country within 1 or 2 months of the delivery of the manuscript that indicate a sharp break in this process one that makes it doubtful whether the process can continue along the same channel This is what has happened to this text and to its author at the beginning of June 1989 when in Beijing after the brutal suppression of student demonstrations and of protests lasting several weeks the General Secretary of the Communist Party of China Zhao Ziyang was relieved of his office and arrested along with several other prominent representatives of reform policy and reform endeavors of the past decade The manuscript of this book was handed over to the publisher on May 4 1989 for editing

Immediately thereafter I left for nearly 2 months in the United States consequently I did not receive the manuscript again until in early July Economic Reforms in the Socialist World Stanislaw, etc, Gomulka, 2016-07-22 First Published in 1990 Socialist countries now account for about a quarter of the world economy about a third of the world population and about half the world military power What happens in those countries is therefore par excellence of importance to all of us This book is an outcome of a Conference on Economic Systems and Reforms in a Changing World held in Seoul in September 1987 The Conference was significant in several respects Foremost was the fact that this was probably the first such meeting of scholars from both socialist and non socialist countries held to discuss socialist economic reforms worldwide *China's Economic Reform* Gao Shangquan, 2016-07-27 Friends of China can help her best by maintaining broad but not uncritical support and striving for a deeper understanding of this ancient culture and the political and economic structure of the nation Professor Gao's book is a major contribution to this process Sir Edward Heath What are the reasons behind China's new move to reform What has been experienced and what lessons can now be drawn Is China facing new problems in its reform road What of its future Professor Gao one of China's leading reformers examines and authoritatively assesses China's reform over the last fourteen years Incorporating a broad range of theoretical applied and policy materials this book features many current topics and up to date tables graphs and statistics **Unstately Power: Local causes of China's economic reforms** Lynn T. White, 1998 China's dramatic reforms are usually said to have been caused by the policies of state leaders under Deng Xiaoping This fascinating new study by one of the West's leading authorities on contemporary China shows however that reforms began and are maintained by local networks They emerged first in the economy partly as unintended results of previous policies Agricultural extension in Mao Zedong's time freed so much labor from the land in rich areas such as the Shanghai delta that peasant leaders set up rural industries to employ clients Many of these leaders were avowed state cadres but they acted for local constituencies more than for Beijing Their initiatives can be documented in the early 1970s long before the 1978 proclamation of new enterprises which the central bureaucracy could not monitor taking materials and markets away from state industries This caused socialist control of input prices and commodity flows to collapse by the mid 1980s As a result shortages and inflation bedeviled the economy the state ran deficits management decentralized local banks proliferated and immigration to cities soared **The Chinese State in the Era of Economic Reform : the Road to Crisis** Jay D White, 2016-09-16 Presents ten tales featuring Lord Bao a wise judge who was a champion of righteousness and protector of the weak against the powerful State-Market Interactions in China's Reform Era Junmin Wang, 2014-06-23 China today has the largest communist political regime and one of the most dynamic fastest growing and largest economies in the world Using a case study of China's tobacco industry this book analyses how the Chinese government was able to cultivate big state owned firms that have successfully embraced the global market The success of the Chinese economy and the many state owned firms within it have given rise to a Beijing Consensus challenging almost every principle enshrined in

the so called Washington Consensus that espouses private ownership free markets and democracy By examining two important political processes in contemporary China local state competition and global market building the book argues that the first process serves as a crucial basis for the second It illustrates how the local governments involved themselves in building and shaping the tobacco market throughout the 1980s and 1990s and how these domestic market dynamics created conditions for China s recent embrace of the international market Offering an in depth exploration of the political economic processes in a key Chinese state industry the book emphasizes that the key to understanding China s political transition is to look at how the state has been shaped by its market building projects both domestically and globally It presents an important contribution to studies on Chinese Business and International Political Economy
