Odedokun,2004-03-12 Foreign finance for private sector development PSD has become popular with the donor community and in multilateral development policy fora seen as an antidote for recipient economies aid dependency and a way of accomplishing growth poverty reduction and empowerment This book analyzes the pattern of foreign finance for PSD and examines multilateral and bilateral donors practices in PSD financing giving special attention to microfinance and microenterprises It also models and explains private capital flows from developed to developing countries and reverse flows in the form of capital flight *The Struggle for Constitutional Power* Tamir Moustafa,2007-06-11 For nearly three decades scholars and policymakers have placed considerable stock in judicial reform as a panacea for the political and economic turmoil plaguing developing countries Courts are charged with spurring economic development safeguarding human rights and even facilitating transitions to democracy How realistic are these expectations and in what political contexts can judicial reforms deliver their expected benefits This book addresses these issues through an examination of the politics of the Egyptian Supreme Constitutional Court the most important experiment in constitutionalism in the Arab world The Egyptian regime established a surprisingly independent constitutional court to address a series of economic and administrative pathologies that lie at the heart of authoritarian political systems Although the Court helped the regime to institutionalize state functions and attract investment it simultaneously opened new avenues through which rights advocates and opposition parties could challenge the regime The book challenges conventional wisdom and provides insights into perennial questions concerning the barriers to institutional development economic growth and democracy in the developing world **Historical Dictionary of the World Bank** Sarah Tenney,Anne C. in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies

Theatre of the Rule of Law Stephen Humphreys, 2010-11-11 Theatre of the Rule of Law presents a sustained critique of global rule of law promotion an expansive industry at the heart of international development post conflict reconstruction and security policy today While successful in articulating and disseminating an effective global public policy rule of law promotion has largely failed in its stated objectives of raising countries out of poverty and taming violent conflict Furthermore in its execution this work deviates sharply from the rule of law as commonly conceived To explain this Stephen Humphreys draws on the history of the rule of law as a concept examples of legal export during colonial times and a spectrum of contemporary interventions by development agencies and international organisations Rule of law promotion is shown to be a kind of theatre the staging of a morality tale about the good life intended for edification and emulation but blind to its own internal contradictions

The Dynamics of Market Integration Kenneth Kaoma Mwenda,2000 This book looks at contemporary issues facing financial markets in Eastern and Southern Africa The book addresses strategies for capital market integration and development on a region wide basis An argument is made that the establishment of a regional stock exchange and the promotion of multiple listings and cross border trade in securities would stimulate increased liquidity on national stock exchanges in Eastern and Southern Africa Lessons of experience are drawn from other regions and a case is made against transplanting models of a regional stock exchange from one region to another The book argues that African countries may however use lessons of experience from other regions as points of reference while pursuing their own discourse of self determination Each case is unique and is thus surrounded by different variables The book covers developments in regions such as the European Union francophone West Africa and Eastern and Southern Africa Indeed an international and comparative perspective is provided

Publications Update World Bank,1996 Investment Climate Reforms World Bank World Bank,2015-11-02 Private firms are at the forefront of the development process providing more than 90 percent of jobs supplying goods and services and representing a significant source of tax revenues Their ability to grow create jobs and reduce poverty depends critically on a well functioning investment climate defined as the policy legal and institutional arrangements underpinning the functioning of markets and the level of transaction costs and risks associated with starting operating and closing a business The World Bank Group has provided extensive support to investment climate reforms This evaluation by the Independent Evaluation Group IEG assesses the relevance effectiveness and social value of World Bank Group support to investment climate reforms as it relates to concerns for inclusion and shared prosperity IEG finds that the World Bank Group has

supported a comprehensive menu of investment climate reforms and has improved investment climate in countries as measured by number of laws enacted streamlining of processes and time or simple cost savings for private firms However the impact on investment jobs business formation and growth is not straightforward Regulatory reforms need to be designed and implemented with both economic and social costs and benefits in mind IEG found that in practice World Bank Group support focuses predominantly on reducing costs to businesses In supporting investment climate reforms the World Bank and the International Finance Corporation use two distinct but complementary business models Despite the fact that investment climate is the most integrated business unit in the World Bank Group coordination is mostly informal relying mainly on personal contacts IEG recommends that the World Bank Group expand its range of diagnostic tools and integrate them in the areas of the business environment not yet covered by existing tools develop an approach to identify the social effects of regulatory reforms on all groups expected to be affected by them beyond the business community and exploit synergies by ensuring that World Bank and IFC staff improve their understanding of each other s work and business models
