Main, 2025-09-15 *Reforming Social Services in New York City* examines efforts across six decades to respond to poverty joblessness and homelessness through the establishment and periodic restructuring of the city's Human Resources Administration HRA and related social welfare agencies As Thomas J Main shows through archival research and interviews with key figures the HRA has been the focus of several mayoralties The John Lindsay administration's creation of the HRA in 1966 was a classic liberal effort to fight poverty Rudy Giuliani brought dramatic change by implementing work oriented welfare reform and the Bill de Blasio administration attempted to install a progressive social welfare agenda within the city's social service agencies to reduce inequality *Reforming Social Services in New York City* tells the story of these efforts assessing the strategies employed and the success of their outcomes concluding that major nonincremental change in urban welfare policy is not only possible but has been effective

*An Essay on Economic Reforms and Social Change in China* Assar Lindbeck, 2006 Abstract The author applies a systems oriented holistic approach to China's radical economic reforms during the past quarter of a century He characterizes China's economic reforms in terms of a multidimensional classification of economic systems When looking at the economic consequences of China's change of economic system he deals with both the impressive growth performance and its economic costs The author also studies the consequences of the economic reforms for the previous social arrangements in the country which were tied to individual

work units agriculture communes collective firms and state owned enterprises He continues with the social development during the reform period reflecting a complex mix of social advances mainly in terms of poverty reduction and regresses for large population groups in terms of income security and human services such as education and in particular health care Next the author discusses China s future policy options in the social field whereby he draws heavily on relevant experiences in industrial countries over the years The future options are classified into three broad categories policies influencing the level and distribution of factor income income transfers including social insurance and the provision of human services

*Reinventing Human Services* Benjamin Higgins, 2017-07-05 Dissatisfaction with a human services system that is unresponsive stigmatizing and ineffective has led to a ferment of experimentation in recent years Reinventing Human Services examines the historical and economic context of current efforts to reinvent human services showing the urgency and the difficulty of the task It draws on successful examples in Britain Canada and the United States to develop a new paradigm for social work practice one that integrates individual family and community levels of practice and reconceptualizes professional community relations The interdisciplinary team of authors includes scholars researchers and practitioners from the disciplines of economics urban planning communications criminal justice psychology marriage and family therapy education and social work

**Globalizing China - Social and Governance Reforms** Ka Ho Mok, 2022-12-30 Unlike most books which consider China s transformation and globalization over the last four decades by focusing on China s economic growth this book examines how the Chinese regime has handled the increasingly complex sociopolitical and socio economic challenges generated as a result of the country s economic growth and transformation challenges arising both from within the country and also from the external political environment Based on extensive original research the book outlines how China s economic development has generated social and governance pressures discusses the government s social educational and governance reforms and highlights how China s development experiences which differ from the Western economies with democratic political regimes have drawn increasing attention from other countries in the developing world as an example to follow

**Reforming Human Services** Hans Toch, J. Douglas Grant, 1982 The authors feel that management techniques adopted from industry have created bureaucratic demands that are not suited to agencies

trying to provide responsive humane assistance They suggest an approach that draws from democratic management principles to involve front line human service workers in the decision making process They demonstrate using studies of industrial democracy including their own study of criminal justice agencies that such organizational structures encourage a more committed attitude by practitioners It provides a realistic analysis of the problems and successes that may confront researchers managers trainers and consultants in their endeavors to reform the human services The book should be

Douglas Grant,1982-11 In this book the authors try hard not to downgrade the continuum of work related problems The authors stress this continuum by surveying the highlights of recent organizational reform including as reviews must the classics that have inspired reformers This book is in part a primer or a summary recapitulation of today s trends in organizational change theory and experimentation It is also a blueprint and as such contains a prescription or model of planned change The prescription is eclectic It combines elements of what are now the mainline work reform strategies job enrichment quality of work life and action research into a package that we hope is coherent and deployable In this book the authors contend that workers work best and most contentedly that they are most apt to exercise ingenuity and decency and helpfulness when they have a voice in shaping organizational goals and defining their own jobs This ideal condition which the authors call grass roots management is neither utopian nor revolutionary nor hard to create The authors shall outline how organizational democracy can be achieved and how it has to varying degrees been attained The authors shall suggest why the strategy works why in fact it must work In this connection the authors assume that strategies vested in classic management have been tried and found wanting Reasons for the shortfall are many some have to do with changing needs or expectations some with needs we have known but ignored The reason whichever it may be is academic because manifest needs of workers whether they are new or discovered are intense and irreversible If we ignore workers needs we violate human nature And nature as the commercial points out has a way of avenging itself when it is violated Preface

Civil Service Reform in the States J. Edward Kellough,Lloyd G. Nigro,2012-02-01 Civil Service Reform in the States examines the critical importance of civil service systems in modern government and popular efforts to reform those systems The book provides an up to date analysis and assessment of public personnel reforms undertaken by various state governments since 1990 and the extent to which these reforms have been implemented or resisted With chapters written by nationally recognized experts on civil service and civil service reform this book will appeal to public policy makers
