**The Politics of Friendship** Jacques Derrida, 2000-10-13 The most influential of contemporary philosophers Jacques Derrida explores the idea of friendship and its political consequences past and future through writings by Aristotle Nietzsche Cicero and more Until relatively recently Jacques Derrida was seen by many as nothing more than the high priest of Deconstruction by turns stimulating and fascinating yet always somewhat disengaged from the central political questions of our time Or so it seemed Derrida's political turn marked especially by the appearance of *Specters of Marx* has surprised some and delighted others In *The Politics of Friendship* Derrida renews and enriches this orientation through an examination of the political history of the idea of friendship pursued down the ages Derrida's thoughts are haunted throughout the book by the strange and provocative address attributed to Aristotle my friends there is no friend and its inversions by later philosophers such as Montaigne Kant Nietzsche Schmitt and Blanchot The exploration allows Derrida to recall and restage the ways in which all the oppositional couples of Western philosophy and political thought friendship and enmity private and public life have become madly and dangerously unstable At the same time he dissects genealogy itself the familiar and male centered notion of fraternity and the virile virtue whose authority has gone unquestioned in our culture of friendship and our models of

democracy The future of the political for Derrida becomes the future of friends the invention of a radically new friendship of a deeper and more inclusive democracy This remarkable book his most profoundly important for many years offers a challenging and inspiring vision of that future Justice as Friendship Seow Hon Tan,2016-03-09 This book explores the question of justification of law It examines some perennial jurisprudential debates and suggests that law must find its justification in morality Drawing upon the Aristotelian inspiration that friends have no need for justice in ideal friendship we behave justly Seow Hon Tan develops a theory of law based on the universal phenomenon of friendship Friendships and legal relations attract rights and obligations by virtue of the manner in which parties are situated Friendship teaches us that how parties are situated gives rise to legitimate expectations it attests to the intrinsic worth of each person The methodology for deciphering norms within and moral lessons from friendship can be transposed to law resulting in an inter subjectively agreeable and rich conception of justice In determining the content of legal rights and obligations we can and should draw upon such determination in friendship Justice as Friendship aims to provide a vision for law s development and invites the practitioner to advance its central claims in their area of expertise In dealing with selected legal doctrines the book draws upon illustrative cases from the United States the United Kingdom and the Commonwealth The book traverses the fields of jurisprudence philosophy ethics political theory contract law and tort law **Themelios, Volume 36, Issue 3** D.
