**Ottonian Imperial Art and Portraiture** Eliza Garrison,2017-07-05

Ottonian Imperial Art and Portraiture represents the first art historical consideration of the patronage of the Ottonian Emperors Otto III 983 1002 and Henry II 1002 1024 Author Eliza Garrison analyzes liturgical artworks created for both rulers with the larger goal of addressing the ways in which individual art objects and the collections to which they belonged were perceived as elements of a material historical narrative and as portraits Since these objects and images had the capacity to stand in for the ruler in his physical absence she argues they also performed political functions that were bound to their ritualized use in the liturgy not only during the ruler s lifetime but even after his death Garrison investigates how treasury objects could relay officially sanctioned information in a manner that texts alone could not offering the first full length exploration of this central phenomenon of the Ottonian era

Montezuma's Revenge Harry Harrison,1987

Twilight of the Renaissance Daniel A. Crews,2008-10-22 Diplomat courtier and heretic Juan de Vald s c 1500 1541 was one of the most famous humanist writers in Renaissance Spain In this biography Daniel A Crews paints a lively portrait of a complex and fascinating figure by focusing on Vald s s service as an imperial courtier and how his employments in Italy after brushes with the Spanish Inquisition influenced both Spanish diplomacy and his own religious thought Twilight of the Renaissance focuses on Vald s s political activities in Charles V s Italian alliance system and negotiations with the papacy

while painting a lively portrait of an intriguing and complex Renaissance figure Crews examines how Vald s who was praised by two popes and the emperor was also branded a heretic almost immediately after his death By considering Vald s spirituality as well as egotism this incisive work reveals how the libertine atmosphere of the late Renaissance challenges the saintly Socratic image Vald s fashioned for himself in his writings

**Blood Libel** Magda Teter,2020-01-28 A landmark history of the antisemitic blood libel myth how it took root in Europe spread with the invention of the printing press and persists today Accusations that Jews ritually killed Christian children emerged in the mid twelfth century following the death of twelve year old William of Norwich England in 1144 Later continental Europeans added a destructive twist Jews murdered Christian children to use their blood While charges that Jews poisoned wells and desecrated the communion host waned over the years the blood libel survived Initially blood libel stories were confined to monastic chronicles and local lore But the development of the printing press in the mid fifteenth century expanded the audience and crystallized the vocabulary images and facts of the blood libel providing a lasting template for hate Tales of Jews killing Christians notably Simon of Trent a toddler whose body was found under a Jewish house in 1475 were widely disseminated using the new technology Following the paper trail across Europe from England to Italy to Poland Magda Teter shows how the blood libel was internalized and how Jews and Christians dealt with the repercussions The pattern established in early modern Europe still plays out today In 2014 the Anti Defamation League appealed to Facebook to take down a page titled Jewish Ritual Murder The following year white supremacists gathered in England to honor Little Hugh of Lincoln as a sacrificial victim of the Jews Based on sources in eight countries and ten languages Blood Libel captures the long shadow of a pernicious myth

**Early Modern European Diplomacy** Dorothee Goetze,Lena Oetzel,2023-12-31 New Diplomatic History has turned into one of the most dynamic and innovative areas of research especially with regard to early modern history It has shown that diplomacy was not as homogenous as previously thought On the contrary it was shaped by a multitude of actors practices and places The handbook aims to characterise these different manifestations of diplomacy and to contextualise them within ongoing scientific debates It brings together scholars from different disciplines and historiographical traditions The handbook deliberately focuses on European diplomacy although non European areas are taken into account for future research in order to limit the framework and ensure precise definitions of diplomacy and its manifestations This must be the prerequisite for potential future global historical perspectives including both the non European and the European world

**Wondrous in His Saints** Philip M. Soergel, 2024-06-28 At the close of the sixteenth century despite Protestant attempts to discourage popular devotion to saints and shrines the Roman Church in Bavaria initiated a propagandistic campaign through the publishing of pilgrimage books and pamphlets Philip Soergel s cogent exploration of this little known pilgrimage literature yields a vivid portrait of religion before during and after the Reformation and Counter Reformation These advertisements combining testimonies of miracles with fantastic legends about shrines fueled the conflict between Catholics and Protestants and helped shape a distinctive Catholic historical consciousness Soergel stresses the power of the printed word as a defense of traditional authority testing other historians assertions about the neglect of printing and literacy in the Counter Reformation This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993

**The White Mantle of Churches** Nigel Hiscock, 2003 When a monk living at the beginning of the last millennium described Europe cladding itself everywhere in a white mantle of churches he precipitated several questions for historians to answer Was there a surge in church building at the time If so what were the causes of this and what were the purposes Does it help to explain our understanding of Romanesque architecture and art Was there a connection between the white mantle of churches and the millennium Did people believe the world was coming to an end The supposition of apocalyptic expectations at the time was

until recently dismissed as romantic myth but the arrival of our new millennium has brought a revival in interest in the dawn of the second millennium and new evidence of millennial fears Yet millennial studies and architectural history largely continue to follow separate parallel paths This book therefore aims to add the architectural evidence to the millennial debate and to examine this formative period in relation to the evolution of Romanesque architecture and art As our own millennium gets under way with continuing hesitancy between European aspiration and national identity it is also of interest to compare our time with the Europe of a thousand years ago Nigel Hiscock is an architect and senior lecturer in architectural history theory and design at Oxford Brookes University His interests include medieval architectural design and practice and has published and presented papers widely on this subject

**Robert Spaemann's Philosophy of the Human Person** Holger Zaborowski,2010-02-04 The German philosopher Robert Spaemann provides an important contribution to a number of contemporary debates in philosophy and theology opening up possibilities for conversation between these disciplines He engages in a dialogue with classical and contemporary positions and often formulates important and original insights which lie beyond common alternatives In this study Holger Zaborowski provides an analysis of the most important features of Spaemann s philosophy and shows the unity of his thought The question Who is a person is of increasing significance Are all human beings persons Are there animals that can be considered persons What does it mean to speak of personal identity and of the dignity of the person Spaemann provides an answer to these questions Every human being he argues is a person and therefore has his nature in freedom In order to understand the person Spaemann explains we have to think about the relation between nature and freedom and avoid the reductive accounts of this relation prevalent in important strands of modern thought Spaemann develops a challenging critique of modernity incorporating analysis of modern anti modernisms and showing that these are also subject to a dialectical development perpetuating the problematic shortcomings of many features of modern reasoning If we do not want to abolish ourselves as persons Spaemann reasons we need to find a way of understanding ourselves that evades the dialectic of modernity Thus he reminds his readers of self evident knowledge insights that we have once already known but tend to forget
