Knock, 2016-03-01 The first major biography of the 1972 U S presidential candidate and unsung champion of American liberalism The Rise of a Prairie Statesman is the first volume of a major biography of the 1972 Democratic presidential candidate who became America s most eloquent and prescient critic of the Vietnam War In this masterful book Thomas Knock traces George McGovern s life from his rustic boyhood in a South Dakota prairie town during the Depression to his rise to the pinnacle of politics at the 1968 Democratic National Convention in Chicago where police and antiwar demonstrators clashed in the city s streets Drawing extensively on McGovern s private papers and scores of in depth interviews Knock shows how McGovern s importance to the Democratic Party and American liberalism extended far beyond his 1972 presidential campaign and how the story of postwar American politics is about more than just the rise of the New Right He vividly describes McGovern s harrowing missions over Nazi Germany as a B 24 bomber pilot and reveals how McGovern s combat experiences motivated him to earn a PhD in history and stoked his ambition to run for Congress When President Kennedy appointed him director of

Food for Peace in 1961 McGovern engineered a vast expansion of the program's school lunch initiative that soon was feeding tens of millions of hungry children around the world As a senator he delivered his courageous and unrelenting critique of Lyndon Johnson's escalation in Vietnam a conflict that brought their party to disaster and caused a new generation of Democrats to turn to McGovern for leadership A stunning achievement The Rise of a Prairie Statesman ends in 1968 in the wake of the assassinations of Martin Luther King and Robert Kennedy when the Draft McGovern movement thrust him into the national spotlight and the contest for the presidential nomination culminating in his triumphal reelection to the Senate and his emergence as one of the most likely prospects for the Democratic nomination in 1972 *No One's World* Charles A. Kupchan, 2012-03-01 The world is on the cusp of a global turn Between 1500 and 1800 the West sprinted ahead of other centers of power in Asia and the Middle East Europe and the United States have dominated the world since But today the West's preeminence is slipping away as China India Brazil and other emerging powers rise Although most strategists recognize that the dominance of the West is on the wane they are confident that its founding ideas democracy capitalism and secular nationalism will continue to spread ensuring that the Western order will outlast its primacy In *No One's World* Charles A Kupchan boldly challenges this view arguing that the world is headed for political and ideological diversity emerging powers will neither defer to the West's lead nor converge toward the Western way The ascent of the West was the product of social and economic conditions unique to Europe and the United States As other regions now rise they are following their own paths to modernity and embracing their own conceptions of domestic and international order Kupchan contends that the Western order will not be displaced by a new great power or dominant political model The twenty first century will not belong to America China Asia or anyone else It will be no one's world For the first time in history an interdependent world will be without a center of gravity or global guardian More than simply diagnosing what lies ahead Kupchan provides a detailed strategy for striking a bargain between the West and the rising rest by fashioning a new consensus on issues of legitimacy sovereignty and governance Thoughtful provocative sweeping in scope this work is nothing less than a global guidebook for the 21st century *Dr. Strangelove's America* Margot A. Henriksen, 2023-04-28 Did America really learn to stop worrying and love the bomb as the title of Stanley Kubrick's 1964 film *Dr Strangelove* would have us believe Does that darkly satirical comedy have anything in common with Martin Luther King Jr's impassioned *I Have a Dream* speech or with Elvis Presley's throbbing *I'm All Shook Up* In Margot Henriksen's vivid depiction of the decades after World War II all three are expressions of a cultural revolution directly related to the atomic bomb Although many scientists and other Americans protested the pursuit of nuclear superiority after World War II ended they were drowned out by Cold War rhetoric that encouraged a culture of consensus Nonetheless Henriksen says a culture of dissent arose and she traces this rebellion through all forms of popular culture At first artists expressed their anger anxiety and despair in familiar terms that addressed nuclear reality only indirectly But Henriksen focuses primarily on new modes of expression that emerged

discussing the disturbing themes of film noir with extended attention to Alfred Hitchcock and science fiction films Beat poetry rock n roll and Pop Art Black humor became a primary weapon in the cultural revolution while literature movies and music gave free rein to every possible expression of the generation gap Cultural upheavals from flower power to the civil rights movement accentuated the failure of old values Filled with fascinating examples of cultural responses to the Atomic Age Henriksen s book is a must read for anyone interested in the United States at mid twentieth century Did America really learn to stop worrying and love the bomb as the title of Stanley Kubrick s 1964 film Dr Strangelove would have us believe Does that darkly satirical comedy have anything in common with Martin Luther King Jr s impassioned Globalization, Multipolarity and Great Power Competition Hanna Samir Kassab,2022-07-15 In his new book Hanna Samir Kassab examines changes and trends in international politics and the competition between great powers for control of the international system He argues that the increase in geopolitical economic nationalist and resource competition between three great powers the United States China and Russia points to the changing structure of the international system This competition is a systemic one focusing more on the rules and norms that defined the system since the end of the Cold War This American led unipolar order is translating into a multipolar one Kassab begins by tracing the decline of the United States after the Iraq War 2003 and the Great Recession 2008 as well as the rise of China and the resurgence of Russia He describes major foreign policy changes from George H W Bush to Donald J Trump and how the various administrations approached the international system Russia and China will increase their international influence as the United States pulls back from the international system Written using simple jargon Globalization Multipolarity and Great Power Competition is equally accessible to academics and casual readers and laypeople interested in international politics Empire and Revolution Peter L. Hahn,Mary Ann Heiss,2001 The ten essays in this volume represent state of the art surveys of ten singular episodes in U S interaction with the Third World since 1945 Each author seeks to present a unique approach to a specific topic within U S Third World relations The essays cover the globe and include studies of the Middle East Latin America Africa and Asia They make use of a variety of source material and employ a wide range of analytical devices such as the national security paradigm the idea of economic development and culture The essays present a multihued portrait of the different ways policy makers in the United States dealt with Third World problems The essays make clear the multitude of considerations that affected policy making the many different actors both official and nonofficial who came to influence the policy making process and the possibilities for future research into U S relations with the nations of the Third World They are designed not only to present the current state of the literature but also to suggest some avenues for future research **The Human Person and Society** Dasheng Zhu,Xiping Jin,George F. McLean,1997 **Globalization and America Since 1945** Deward Clayton Brown,2003 Annotation We ve all heard the term but what exactly is globalization In his new book Globalization and America since 1945 D Clayton Brown provides a brief jargon free and easy to understand overview of this important issue This volume examines

how the United States has become the world's most powerful state has appeared increasingly unstable. The US invasions of Afghanistan and Iraq, non-traditional security threats, global economic instability, the apparent spread of authoritarianism and illiberal politics, together with the rise of emerging powers from the Global South, have led many to predict the end of Western dominance on the global stage. This book brings together scholars from international relations, economics, history, sociology, and area studies to debate the future of US leadership in the international system. The book analyses the past, present, and future of US hegemony in key regions in the Asia Pacific, Latin America, Middle East, Europe, and Africa, while also examining the dynamic interactions of US hegemony with other established, rising, and re-emerging powers such as Russia, China, Japan, India, Turkey, and South Africa. American Hegemony and the Rise of Emerging Powers explores how changes in the patterns of cooperation and conflict among states, regional actors, and transnational, non-state actors have affected the rise of emerging global powers and the suggested decline of US leadership. Scholars, students, and policy practitioners who are interested in the future of the US-led international system, the rise of emerging powers from the Global South, and related global policy challenges will find this multidisciplinary volume an invaluable guide to the shifting position of American hegemony. Empires at War Francis Pike, 2011-02-28. Asia, with four billion people, almost two thirds of the world's population, a huge landmass, and the fastest growing economies, has in the past decade transformed the geopolitical global balance. Empires at War gives a dramatic narrative account of how this Modern Asia came into being. Taking the bombing of Hiroshima on 6th August 1945 as its starting point, Francis Pike chronicles the modern fortunes of fourteen Asian countries. The iconic figures of post-World War II Asia—Mao, Gandhi, Nehru, Ho Chi Minh, Kim Il Sung, General MacArthur, and Lord Mountbatten—figure prominently, but so also do a great many lesser-known but pivotal figures. Francis Pike weaves the dramatic events and episodes of the region, the great battles between American and Soviet-backed forces in Korea and Vietnam, but also episodes such as Indian Partition, Japan's Lost Decade, Indonesia's Year of Living Dangerously, and Cambodia's Killing Fields into a coherent whole which forms the essential guide to the history of modern Asia.

American Empire Joshua Freeman, 2013-08-06 A landmark history of postwar America and the second volume in the Penguin History of the United States series edited by Eric Foner In this momentous work acclaimed labor historian Joshua B Freeman presents an epic portrait of the United States in the latter half of the twentieth century revealing a nation galvanized by change even as conflict seethed within its borders Beginning in 1945 he charts the astounding rise of the labor movement and its pitched struggle with the bastions of American capitalism in the 1940s and 50s untangling the complicated threads between the workers agenda and that of the civil rights and women s movements Through the lens of civil rights the Cold War struggle and the labor movement American Empire teaches us something profound about our past while illuminating the issues that continue to animate American political discourse today
