

CHAPTER 4: SECURED TRANSACTIONS

4.1 INTRODUCTION

- There are 3 types of secured transaction recognized by NLC. They are Charge, Statutory Lien and Jual Janji (which is developed by courts).
- Charge is a transaction enter between a registered proprietor of land (**Section 43** be it an individual or corporation) and financier where the registered proprietor provides his interest in the land as security for the loan, where the interest in land could be freehold title or lessee.
- Difference between charge and mortgage:

Charge	Mortgage
1. Created by NLC <ul style="list-style-type: none">• Owner of the land who charged his land is the charger, and the financier is the chargee.	1. Created by contract - land is used as security to pledge against borrowings. <ul style="list-style-type: none">• Borrower is mortgagor, lender is mortgagee.
2. Chargee does not own land. Ownership still remains with the registered proprietor. Chargee only has the right to enforce the sale of the land with a court order or to take possession thereof, in the event of a default in the repayment of the loan.	2. Ownership is vested in the mortgagee. Mortgagor only has the right in equity to redeem the land from mortgagee upon repayment of loan. (Case: Malayan Union Finance v Tan Lay Soon)
Charge is created using statutory form - Form 16A	3. No prescribed form only deeds of conveyance

4.2 EFFECT OF A CHARGE

- **Section 241(1) NLC** states the type of land that can be charged:
 - The whole but not part of the alienated land (as seen in the case of **J Raju v Kwong Yik Bank**)
 - The whole but not part of an undivided share in land
 - Lease of alienated land
- **S.5 NLC** defines charge, which means registered charge.
- **S.243 NLC** stated that charge can only be enforceable if registered. So, a chargee without a registered charge would have to be enforced by way of contractual remedies, as provided in **Mahadevan Mahalingam v Manilai & Sons**.
- The case of **Yee Sin Cheong v UMBC** stated that a charge can only be created to secure a debt. There can be no charge of land where there is no loan, as it would defeat the purpose of the charge.
- Upon default of payment by the chargor, the remedy of chargee is not against the person but against the property, which is remedy of possession and sale (**Co-operative Central Bank v Y&W Development**)
- Registered charge constitutes an indefeasible interest in land as security that can be enforced by way of sale. This can be seen in the cases of **Ho Giak Chay v Nik Aishah** and **T Bariam Singh v Pegawai Pentadbir Tanah Pesaka Malaysia**
- A charge shall be subjected to the provisions of **S.241(3) & (4) NLC**

Secured Transactions Law Reform Louise Gullifer, Orkun Akseli, 2016-10-20 Secured transactions law has been subjected to a close scrutiny over the last two decades One of the main reasons for this is the importance of availability of credit and the consequent need to reform collateral laws in order to improve access to finance The ability to give security effectively influences not only the cost of credit but also in some cases whether credit will be available at all This requires rules that are transparent and readily accessible to non lawyers as well as rules that recognise the needs of small and medium sized enterprises This book critically engages with the challenges posed by inefficient secured credit laws It offers a comparative analysis of the reasons and the needs for a secured transactions law reform as well as discussion of the steps taken in many common law civil law and mixed law jurisdictions The book written

under the auspices of the Secured Transactions Law Reform Project informs the debate about reform and advances novel arguments written by world renowned experts that will build upon the existing literature and as such will be of interest to academics legal practitioners and the judiciary involved in secured transactions law around the world The text considers reform initiatives that have taken place up to the end of April 2016 It has not been possible to incorporate events since then into the discussion However notable developments include the banks decree passed by the Italian Government on 29th June 2016 and the adoption of the Model Law on Secured Transactions by UNCITRAL on 1st July 2016

The Making of China's Artificial Intelligence and Cyber Security Policy Suisheng Zhao, 2025-08-08 The rise of digital technology particularly artificial intelligence AI has transformed societies and international politics China has responded to the transformation and strived to become one of the global leaders What is China's approach toward the objective Who are the major players and stakeholders in the making of digital policy How has the Chinese state worked with various stakeholders To what extent has digital technology influenced China's authoritarian governance How has Chinese society responded to digital authoritarianism Can China prevail in shaping global digital rulemaking This edited volume seeks answers to these important questions Divided into three parts Part I examines how the central state has become a leading player and coordinated with various stakeholders such as academic institutions corporations and local governments in making digital technology policy Part II analyses how the Chinese party state used digital technology to strengthen authoritarian governance and how society has responded to digital authoritarianism Part III explores China's attempt to shape global digital rulemaking in competition with the US and other Western countries This book is aimed at scholars researchers policymakers and students with an interest in digital technology international relations Chinese politics and authoritarian governance It will also appeal to those studying AI digital governance and global power dynamics The chapters in this book were originally published in the Journal of Contemporary China and come with a new introduction

Critical Infrastructure Protection in Homeland Security Ted G. Lewis, 2019-11-25 Covers critical infrastructure protection providing a rigorous treatment of risk resilience complex adaptive systems and sector dependence Wide in scope this classroom tested book is the only one to emphasize a scientific approach to protecting the key infrastructures components of a nation It analyzes the complex network of entities that make up a nation's infrastructure and identifies vulnerabilities and risks in various sectors by combining network science complexity theory risk analysis and modeling and simulation This approach reduces the complex problem of protecting water supplies energy pipelines telecommunication stations power grid and Internet and Web networks to a much simpler problem of protecting a few critical nodes The new third edition of Critical Infrastructure Protection in Homeland Security Defending a Networked Nation incorporates a broader selection of ideas and sectors than the previous book Divided into three sections the first part looks at the historical origins of homeland security and critical infrastructure and emphasizes current policy The second examines theory and foundations highlighting risk and resilience in

the context of complexity theory network science and the prevailing theories of catastrophe The last part covers the individual sectors including communications internet cyber threats information technology social networks SCADA water and water treatment energy and more Covers theories of catastrophes details of how sectors work and how to deal with the problem of critical infrastructure protection s enormity and complexity Places great emphasis on computer security and whole community response Includes PowerPoint slides for use by lecturers as well as an instructor s guide with answers to exercises Offers five robust appendices that augment the non mathematical chapters with more rigorous explanations and mathematics Critical Infrastructure Protection in Homeland Security Third Edition is an important book for upper division undergraduates and first year graduate students in political science history public administration and computer technology It will also be of great interest to professional security experts and policymakers [The Internet Encyclopedia](#) Hossein

Bidgoli,2004 The Internet Encyclopedia in a 3 volume reference work on the internet as a business tool IT platform and communications and commerce medium **Mobile Commerce: Concepts, Methodologies, Tools, and Applications**
