Security for Libraries Marvin Brand, 1984 Offers advice on the development of a plan for protecting a library's collection building users and staff and discusses the legal aspects of library security **Library Crime and Security** Alan Jay Lincoln, Carol Zall Lincoln, 2019-12-06 This book first published in 1987 focuses on the patterns of library crime and disruption in Great Britain Canada and the United States In addition to important data on these problems there is extensive information on the characteristics of the institutions and the communities in which they are found The impact of crime on the institution and the individual is examined The authors present vital insights into the design of crime control programs in libraries of varying sizes that have or anticipate problems with crime such as book theft vandalism problem patrons and attacks against staff Major issues in the measurement incidence and consequences of crime are included as well as relevant materials from the fields of library science management criminology victimology and security An extensive security checklist is included that can serve as a guide for making the library a safer and more secure setting for staff patrons and contents

Protecting Library Staff, Users, Collections, and Facilities Pamela J. Cravey, 2001 We live in an age when every library in every community must address security issues ranging from theft to the safety of staff and patrons Pamela Cravey's Protecting Library Staff Users Collections And Facilities is a pragmatic step by step instructional guide for insuring staff and patron safety securing general and special collections electronic files and systems and coping with the legal issues raised by various security measures Libraries are deftly guided through the complexities of modern security while being given practical recommendations for planning and executing a sound and responsible library security package The key is to consider security a process rather than an event Protecting Library Staff Users Collections And Facilities is a superbly presented how to manual that is very highly recommended reading for librarians and library board members for urban suburban rural public academic corporate governmental and private library systems **Security and Crime Prevention in Libraries** Michael Chaney, Alan F. MacDougall, 2019-05-23 First published in 1992 the purpose of this book is to identify and describe the most important factors that must be considered in making decisions about the optimal ways to provide access to information in short the best way to use the humans the machines and the intangible resources known as information particularly at the organizational level In recent years executives have begun to outsource computing and telecommunications functions primarily to control costs Traditional libraries and information centres have been disbanded in favour of service contracts or outright leasing of staff Both the private and public sector are examining their information service operations from the point of view of cost effectiveness Decisions about owning versus leasing of information are being made daily Decision makers are finding that they must deal differently with funding and budgeting of information systems and libraries than they have in the past New paradigms for these service functions already exist Not only have corporations and governments begun to contract out entire information service operations but libraries themselves have begun to consider

the costs effectiveness and implications of outsourcing some of their operations and services This book provides a framework for decision makers to view and review information services within their organizations Entire units components of libraries and information centres are defined and untangled so that the widest variety of organizations can analyse their own environments Although there is a minimal use of library and computing jargon a short glossary at the end explains terms for which there is no simple English language substitute Each chapter is accompanied by comments from a broad range of experts in the information field
