clearer understanding of the EU's approach towards security in the Mediterranean. After examining the EU's interests and the potential threats to security in the region, it analyzes EU security policy towards the region as a whole through the Euro-Mediterranean Partnership and towards all disputes and conflicts in the area. It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores. The book argues that this way the EU could implement its innovative comprehensive and co-operative approach to security. Rather than focusing on the military aspect alone, this approach takes into account all dimensions of security: political, socio-economic, cultural, and ecological, and is based on partnership rather than confrontation. It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy.

Human Security in the Middle East and North Africa Alaa Al-Din Arafat, 2024-12-20. This book analyzes major human security threats in the MENA region, including food, water, energy, climate, and health security. It also examines sectarian conflict, terrorism, and poverty in the region. The author highlights the relationship between human security concerns and conventional or military security threats. He demonstrates how MENA nations failed to respond to the region's human security threats and to develop a human security formula and regional security architecture that included both human and conventional security threats. Therefore, this book concludes that the MENA region's future will be determined by its governments' ability to address human security threats.

Turkey's Rise as an Emerging Power Paul Kubicek, Emel Parlar Dal, H. Tarik Oğuzlu, 2016-04-14. Turkey is emerging as an important actor in world politics, exerting growing influence both in its immediate region and beyond. This book aims to understand and explain this phenomenon, utilizing a variety of perspectives from international relations theory. One prominent issue is how Turkey, long embedded in the West via NATO and other European organizations, is growing more confident and is asserting more independent foreign policy positions. This is particularly marked in the Middle East, where some suggest Turkey is pursuing a neo-Ottomanist agenda. At times, this competes with and creates tensions with the West. However, a rising Turkey can also be a constructive phenomenon and complement the West. This book examines geopolitical, economic, and cultural dimensions of Turkey's rise, pointing to both Turkish success and the limits of Turkish power and influence. It includes consideration of Turkey's relations with NATO, the European Union, the Middle East, and BRIC countries. This book was published as a special issue of Turkish Studies.
