Modern Concepts of Security James Ohwofasa Akpeninor, 2013-02-04 I have been associated with the security operations at various levels of jurisdictions from the National security policing covert operations to the Industrial Commercial security setup to Corporations proprietary security practice and supervision over the past three decades In this stretch I have come to be conscious of the vital necessity for comprehensive documentation of security and safety archetypes for the study of this unique profession in which reference materials for developing core and universal curricula for training or self improvement of security operatives are hard to come by Mainly because most law enforcement agents or persons charged with security managements Law enforcement officers Security Directors Fire Safety Directors the police and even Contract Security firms have hardly come to terms with the professional demands of this specialized professional calling which has assumed the centre stage of global reckoning of the present day With these concerns I have designed this book to be a working companion to personnel and agencies in the security professional vocation along with students of peace and conflicts studies criminology and security studies the Armed forces personnel and other National Security Agents DSS DIA NIA NAFDAC NDLEA etc the Para military

Police ICPC EFCC Customs Excise and Immigrations departments FRSC NCDC NEMA and a host of others In essence modern security outlook incorporates the Human Security schools of thought which is all about the practice of holistic and global security that is a shift from the traditional conception of National Security a state centred approach to focus on the wellbeing of individuals which is yet to be cultivated in the African continent resulting in enduring problems of disease poverty security adversities violence and insurgences human rights abuses and civil strives The reference volumes afford abundant valuable materials on modern concepts of security meant to offer sound basic knowledge for security practitioners contract security firms as well as for individual reading to boost security consciousness of the entire public which can be adapted modified rejected or used for the reader s own purposes I therefore entrust this book to the kind consideration of security practitioners and managers in general especially the certified national and international security and law enforcement professionals I hope that the contents will be of material benefit to the entire security community because it is only when knowledge is applied specifically to the needs of a particular skill that it becomes of true value Therein lays the reader s part

Russian Views on Countering Terrorism During Eight Years of Dialogue Russian Academy of Sciences, National Research Council, Policy and Global Affairs, Development, Security, and Cooperation, Office for Central Europe and Eurasia, 2009-06-28 Few countries have endured as many attacks of terrorism during the past two decades as has Russia From bombings on the streets of a number of cities to the disruption of pipelines in Dagestan to the taking of hundreds of hostages at a cultural center in Moscow and at a school in Beslan the Russian government has responded to many political and technical challenges to protect the population The measures that have been undertaken to reduce vulnerabilities to terrorist attacks and to mitigate the consequences of attacks have been of widespread interest in many other countries as well In June 1999 the Presidents of the National Academy of Sciences and the Russian Academy of Sciences initiated an inter academy program to jointly address common interests in the field of counter terrorism Four workshops were held from 2001 to 2007 and additional consultations were undertaken prior to and after the series of workshops This report includes 35 of the Russian presentations during the workshop series Collectively they provide a broad overview of activities that have been supported by Russian institutions

Prof. Jun Yeh, Tallinn University of Technology, Estonia, 2014-07-07 amount of new knowledge every day We have to acknowledge that even the smartest people among us are incapable of familiarizing himself with all these new data Fortunately we are only required to deal with a very small amount of that vast number in our work and life As those who devote himself to the field of information technology and management engineering I sincerely believe that it is our responsibility to make efforts to accelerate the advance of science in such fields The 2014 international Conference on Information Technology and Management Engineering thanks to the hard work of its committee will be held on April 26 and 27 in Hong Kong The ITME2014 covers a wide range of topics such as network protocols information theory and coding theory network security management theory project management public

management knowledge management etc It is a great honor to us that numerous people from various countries including many famous experts and excellent researchers have shown their interest in this convention and submitted their latest studies to us as their support Among these studies we have selected about a hundred to be finally included in this proceeding after reviewing and discussing We believe that this collection of work will be of great value not only to the participants of ITME2014 but also to those who has a chance of meeting it The publication of this conference proceedings and the successful opening of ITME2014 owe its credit to a lot of people and institutions especially the ITME2014 committee the editors and DEStech Publications The committee has devoted much time to reviewing the papers submitted to ITME2014 and DEStech Publications publishing those accepted papers I would like to thank the committee and the press deeply here for their support to ITME2014 and I am eagerly looking forward to another chance for us to be a team again Finally let s wish together that the 2014 International Conference on Information Technology
