The Art of Grafted Song Yolanda Plumley, 2013-10-28 Just as our society delights in citations

quotations and allusions in myriad contexts not least in popular song late medieval poets and composers knew well that such references could greatly enrich their own works In *The Art of the Grafted Song Citation and Allusion in the Age of Machaut* author Yolanda Plumley explores the penchant for borrowing in chansons and lyrics from fourteenth century France uncovering a practice integral to the experiments in form genre and style that ushered in a new school of lyric Working across disciplinary boundaries Plumley traces creative appropriations in the burgeoning fixed forms of this new tradition to build a more intimate understanding of the shared experience of poetry and music in the generations leading up to and including Guillaume de Machaut Exploring familiar and less studied collections of songs as well as lyrics without music this book sheds valuable light on the poetic and musical knowledge of authors and their audiences and on how poets and composers devised their works and engaged their readers or listeners It presents fresh insights into when and in which milieus the classic Ars nova polyphonic chanson took root and flourished and into the artistic networks of which Machaut formed a part As Plumley reveals old songs lingered alongside the new in the collective imagination well beyond what the written sources imply reminding us of the continued importance of memory and orality in this age of increasing literacy The first detailed study of citational practice in the French fourteenth century song writing tradition *The Art of Grafted Song* will appeal to students and scholars of medieval French music and literature cultural historians and others interested in the historical and social context of music and poetry in the late Middle Ages

Armada III

Collins W., When the elderly Allan Armadale makes a terrible confession on his death bed he has little idea of the repercussions to come for the secret he reveals involves the mysterious Lydia Gwilt flamed hair temptress bigamist laudanum addict and husbandpoisoner This traditional melodrama also considers the modern theme of the role of women in society

The Genealogy of Violence Charles K. Bellinger, 2001-05-03 Bellinger draws on the thought of Soren Kierkegaard and Ren Girard in search of a Christian understanding of the roots of violence After analysing approaches to understanding violence he goes on to consider Kierkegaard as a theorist of violence

Armada Wilkie Collins, 2020 Wilkie Collins has given us in this novel one more instance of his strange capacity for weaving extra plots Armadale from beginning to end is a lurid labyrinth of improbabilities It produces upon the reader the effect of a literary nightmare Miss Gwilt Mrs Oldershaw and Doctor Le Doux of the Sanatorium are enough to make any story in which they figure disagreeably sensational and Mr Collins seizes every possible opportunity of working up the horror they inspire to the highest point If it were the object of art to make one's audience uncomfortable without letting them know why Mr Wilkie Collins would be beyond all doubt a consummate artist To the accomplishment of this object he devotes great ingenuity a curious genius for arranging and contriving mysteries and a good deal of what may be called galvanic power There is a sort of unearthly and deadly look about the heroes and heroines of his narrative and though it is necessary for the purpose of the plot that they should keep moving we feel that every one of their motions is due not to a natural process but to the sheer force and energy of the author's will

They dodge each other up and down the stage after the manner of puppets at a puppet show and after watching their twistings and turnings from first to last we come away full of admiration of the strings and the unseen fingers that are directing everything from behind the curtain An ordinary novelist would let the villains murder their intended victim at once and have done with it Not so Mr Wilkie Collins A hundred agencies are brought into play to suspend our interest through this long volume Spies detective officers lawyers and two or three virtuous and watchful amateurs counterplot day and night against the villains Each dogs the other till he is tired and when he is tired the other dogs him They overhear each other s secrets from behind trees or lurk unsuspected under windows keeping diaries sometimes of their proceedings To heighten the absorbing interest of this contest of intelligences railways telegraphy post offices presentiments and dreams are freely used and the wonders of science do duty side by side with the marvels of the supernatural world As a whole the effect is clever powerful and striking though grotesque monotonous and to use a French word bizarre There can be no mistake about the talent displayed What strikes one as wanting is that humor which is the salt of all great genius and that sense of proportion and beauty which is the soul of all real art
