PM: Program Manager (Online) November December 2001 Issue , *The Romance of Submarine Engineering* Thomas W. Corbin,1913 **International Marine Engineering** ,1915 **Sea Devils** John Swinfield,2014-02-03 Sea Devils is a compelling account of pioneer submariners and their astonishing underwater contraptions Some made perilous voyages Others sank like stones Craft were propelled by muscle power or had steam engines with chimneys Some had wheels to trundle along the seabed Others were used as underwater aircraft carriers Here John Swinfield traces the history of early submarines and the personalities who built and sailed them From a plethora of madcap inventors emerged a bizarre machine that navies of the world reluctantly acquired but viewed with distaste It matured into a weapon that would usurp the mighty battleship which had for centuries enjoyed an unchallenged command of the oceans In its long and perilous history the submarine became subject to fierce business military and political shenanigans It won eventual acceptance amidst the chaos and carnage of the First World War in which pathfinder submariners achieved an extraordinarily high tally of five Victoria Crosses Britain s highest military decoration Sea Devils brims with daring characters and their unflinching determination to make hazardous underwater voyages an immensely readable entertaining and authoritative chronicle of low cunning high politics wondrous heroism and appalling tragedy **Scientific American** ,1915 *Two Thousand Questions and Answers about the War* Julius Washington Muller,1918 **The Mathews Men** William Geroux,2016-04-19 Vividly drawn and emotionally gripping Daniel James Brown 1 New York Times bestselling author of The Boys in the Boat From the author of The Ghost Ships of Archangel one of the last unheralded heroic stories of World War II the U boat assault off the American coast against the men of the U S Merchant Marine who were supplying the European war and one community s monumental contribution to that effort Mathews County Virginia is a remote outpost on the Chesapeake Bay with little to offer except unspoiled scenery but it sent an unusually large concentration of sea captains to fight in World War II The Mathews Men tells that heroic story through the experiences of one extraordinary family whose seven sons and their neighbors U S merchant mariners all suddenly found themselves squarely in the cross hairs of the U boats bearing down on the coastal United States in 1942 From the late 1930s to 1945 virtually all the fuel food and munitions that sustained the Allies in Europe traveled not via the Navy but in merchant ships After Pearl Harbor those unprotected ships instantly became the U boats prime targets And they were easy targets the Navy lacked the inclination or resources to defend them until the beginning of 1943 Hitler was determined that his U boats should sink every American ship they could find sometimes within sight of tourist beaches

and to kill as many mariners as possible in order to frighten their shipmates into staying ashore As the war progressed men from Mathews sailed the North and South Atlantic the Caribbean the Gulf of Mexico the Mediterranean the Indian Ocean and even the icy Barents Sea in the Arctic Circle where they braved the dreaded Murmansk Run Through their experiences we have eyewitnesses to every danger zone in every kind of ship Some died horrific deaths Others fought to survive torpedo explosions flaming oil slicks storms shark attacks mine blasts and harrowing lifeboat odysseys only to ship out again on the next boat as soon as they d returned to safety The Mathews Men shows us the war far beyond traditional battlefields often the U S merchant mariners life and death struggles took place just off the U S coast but also takes us to the landing beaches at D Day and to the Pacific When final victory is ours General Dwight D Eisenhower had predicted there is no organization that will share its credit more deservedly than the Merchant Marine Here finally is the heroic story of those merchant seamen recast as the human story of the men from Mathews

Anti-Submarine Warfare David Owen,2007-11-15 A deep dive into the tactics and technology used to defend against submarines from the opening of the First World War through World War II and beyond The submarine was undoubtedly the most potent purely naval weapon of the twentieth century In two world wars enemy underwater campaigns were very nearly successful in thwarting Allied hopes of victory indeed annihilation of Japanese shipping by US Navy submarines is an indicator of what might have been That the submarine was usually defeated is a hugely important story in naval history yet this is the first book to treat the subject as a whole in a readable and accessible manner It concerns individual heroism and devotion to duty but also ingenuity technical advances and originality of tactical thought What developed was an endless battle between forces above and below the surface where a successful innovation by one side eventually produces a countermeasure by the other in a lethal struggle for supremacy Development was not a straight line wrong ideas and assumptions led to defeat and disaster Iconography with dozens of photographs and often large format diagrams a vast bibliography and a complete and documented general approach make this volume a work of great quality and of great interest for all enthusiasts and scholars of this very interesting subject Storia Militare The modeller will not only find the text engaging but there is a superb collection of photographs and illustrations which of course include submarines corvettes and destroyers Subjects which the modeller increasingly appreciates Highly recommended Model Boats

Submarine Diary Corwin Mendenhall,2013-07-31 A vividly detailed account of life aboard U S submarines in the Pacific during World War II

The Royal Navy, China Station: 1864 - 1941 Jonathan Parkinson,2018-02-20 A definitive history of the Royal Navy s China Station In the The Navy List for April 1864 the China Station was first shown as a separate Royal Navy Station It remained as such until the outbreak of the Pacific War in December 1941 which was to signal the end of that era In addition to a precis of the lives and naval careers of each of the Commanders in Chief of the China Station this volume also gives relevant information outlining something of the concurrent internal affairs of China and Japan Both are very different but sad tales the former in decline towards the end of the Manchu

Ching dynasty and then into the chaotic 1920s and 1930s and the latter increasingly adopting a militaristic attitude which was to result in their disaster of the Pacific War of 1941-1945. As a reminder of these days long gone are interwoven brief references to the British Consular Service. This is especially relevant for China and for a shorter period for Japan during that era of extraterritoriality. Mention is also made of the British Colonial Service with whom necessarily the Navy worked very closely. In addition being one important reason for it all frequent references are made to a few British shipping and trading interests together with those of some other nations. All of these areas are linked together to give a definitive history of this very important Royal Navy Station. *The Times History of the War*, 1918 **Scattered Far and Wide** Justin

Laborde, 2025-09-02 *Scattered Far and Wide* follows the U.S. Naval Academy Class of 1938 as they rise from junior officers to combat leaders in World War II's most pivotal battles. Through firsthand accounts and deep research, Justin Laborde brings their stories of courage, sacrifice, and survival vividly to life. *Scattered Far and Wide* tells the war stories of U.S. Naval Academy midshipmen from the Class of 1938. Commissioned on the eve of World War II, they faced the trials of combat as new officers from the early days of American involvement and as ships' captains, pilots in leadership positions, and submariners in charge by VJ Day. Tested as young leaders, they bore the new burden of command while at the fore of the Pacific War's largest and most pivotal campaigns. They felt the wind and spray in their faces and the percussion of ships' guns and depth charges at the pivotal moment in their lives and careers, making their experiences unusually compelling, heartbreaking, and most assuredly instructive. From Pearl Harbor through the end of the war, these men fought and struggled for survival as part of the U.S. Navy's Asiatic Fleet. In the early months of the conflict, they tried to stem the onslaught of the Imperial Japanese Navy. Some were captured and sent to brutal prisoner-of-war camps. Others took to the air from aircraft carriers as members of torpedo bomber and fighter squadrons during the Battles of the Coral Sea and Midway. Later in the war, a number served aboard submarines, experiencing some of the most legendary patrols in the history of the Silent Service. Author Justin Laborde's grandfather, Alden Laborde, was a member of the Class of 1938. Upon his death, Justin obtained a 1938 edition of *The Lucky Bag*, the Naval Academy's yearbook. Reading the memoirs of Alden's classmates, Justin realized he was well-placed to tell the fascinating and unreported story of this class's experiences in World War II. He spent five years gathering primary materials and researching the histories and wartime tales. The young men who graduated from the Naval Academy in 1938 left Annapolis on the eve of war and faced its perils around the world. In the process, these junior officers earned medals and fame, left legacies of heroism and loss, and sparked tales of renown and bravery that reverberate today.
