transgression emerges as Dante's essential and ultimate gesture. His work as a poet culminates in the *Paradiso* in a transcendence of language towards a purely ineffable mystical experience beyond verbal expression. Yet Dante conveys this experience nevertheless in and through language and specifically through the transgression of language violating its normally representational and referential functions. *Paradiso*'s dramatic sky scapes and unparalleled textual performances stage a deconstruction of the sign that is analyzed philosophically in the light of Blanchot, Levinas, Derrida, Barthes and Bataille as transgressing and transfiguring the very sense of sense.

This volume features theological considerations towards such topics as Virtues, Fortitude and Temperance, Graces and States of Life and other important topics that we often take for granted in our thinking in the church and in worship towards God.
