Imagining Postcommunism Beverly A. James, 2005-03-29 Although the 1956 Hungarian uprising failed to liberate the country from Soviet domination it became a symbol of freedom for people throughout Eastern Europe and beyond Labeling the events a counterrevolution communist authorities exacted revenge in two years of terror and intimidation Then for the next thirty years they pursued a policy of forced forgetting attempting to obliterate public memory of the events As communism unraveled in the late 1980s the 1956 revolution was resurrected as inspiration for a new political order In *Imagining Postcommunism* Beverly James demonstrates how 1956 became a foundational myth according to which the bloody events of that fall led to the ceremonial reburial of the martyred prime minister Imre Nagy in 1989 free elections in 1990 and the withdrawal of the last Soviet soldiers on June 19 1991 She shows how museums monuments and holiday rituals have aided the construction of a new Hungary through the reclamation and expression of competing memories of the critical events of 1956 Surveying the dazzling array of ceremonies exhibitions and memorials commemorating the revolution and its heroes James invites readers to consider the difference between the communist regime's master narrative of 1956 with its smug false unity and the multiple polemical stories woven by competing political forces in postcommunist Hungary A thoughtful application of communication and historical theories on the uses of memory this study offers a unique perspective on a crucial episode in the history of Eastern Europe *Bibliographic Guide to Art and Architecture* New York Public Library. Art and Architecture Division, 1975 *South West California-South East Hungary* Krisztián Kovács, 2011-05-19 In 2009 I took this series of images of Los Angeles with the aim of having a Hungarian look at it The images do not try to emphasize the difference between the two cultures in fact they do quite the opposite Our visual expressions show a lot of similarities and one could assume that the people of Los Angeles and the people of Hungary have a much synchronised mind set In my interpretation these pictures expose the unique parallels between certain parts of our lives This album uses visuality as the language for communication encourages associative thinking and uses a documentary style to reveal the political social and artistic similarities and differences of the two cultures **A Magyar Tanácsköztársaság Művelődéspolitikája** Katalin Petrák, György Milei, 1959 **Hungary**, 1974 **"Az Ötvenes évek"**, 1981 *Remembering the Cold War* David Lowe, Tony Joel, 2014-01-21 *Remembering the Cold War* examines how more than two decades since the collapse of the Soviet Union Cold War legacies continue to play crucial roles in defining national identities and shaping international relations around the globe Given the Cold War's blurred definition it has neither a widely accepted commencement date nor unanimous conclusion what is to be remembered This book illustrates that there is in fact a huge body of remembrance and that it is more pertinent to ask what should be included and what can be overlooked Over five sections this richly illustrated volume considers case studies of Cold War remembering from different parts of the world and engages with growing theorisation in the field of memory studies specifically in relation to war David Lowe and Tony Joel

afford careful consideration to agencies that identify with being victims of the Cold War In addition the concept of arenas of articulation which envelops the myriad spaces in which the remembering commemorating memorialising and even revising of Cold War history takes place is given prominence
