Segregated Sisterhood Racism And The Politics Of American Feminism:

Segregated Sisterhood Nancie Caraway,1991 **The Woman as Slave in Nineteenth-Century American Social Movements** Ana Stevenson,2020-02-03 This book is the first to develop a history of the analogy between woman and slave charting its changing meanings and enduring implications across the social movements of the long nineteenth century Looking beyond its foundations in the antislavery and women s rights movements this book examines the influence of the woman slave analogy in popular culture along with its use across the dress reform labor suffrage free love racial uplift and anti vice movements At once provocative and commonplace the woman slave analogy was used to exceptionally varied ends in the era of chattel slavery and slave emancipation Yet as this book reveals a more diverse assembly of reformers both accepted and embraced a woman as slave worldview than has previously been appreciated One of the most significant yet controversial rhetorical strategies in the history of feminism the legacy of the woman slave analogy continues to underpin the debates that shape feminist theory today American Feminism Janet Beer,Katherine Joslin,Anne Trudgill,2002-11-28 This anthology publishes key documents in the history of American feminism that are currently only available in extract form or in archives The collection also contains anti feminist writings by both men and women *Third Wave Feminism* S. Gillis,G. Howie,R. the past decade governments around the globe have introduced institutional mechanisms to promote the advancement of women including measures to increase women's political participation rates and to incorporate women's interests into policy making Why have they done so How successful have these initiatives been What are the emerging agendas facing gender equality advocates now In *The New Politics of Gender Equality* Judith Squires examines the origins evolution and key features of three strategies that have been employed across the world in pursuit of gender equality quotas policy agencies and gender mainstreaming The author critically examines each strategy to see how far they transform political institutions and agendas and to what extent they lead rather to the assimilation of women in male defined structures Squires argues that a multi pronged approach drawing on democratic rather than technocratic strategies offers the best potential for advancing gender equality She highlights too the limitations of approaches that ignore inequalities among women and the challenges of developing equality initiatives to address multiple and cross cutting inequalities between groups Judith Squires is Professor of Political Theory University of Bristol She has written researched and published widely in the field of gender politics and gender equality

International Relations Randolph B. Persaud, Alina Sajed, 2018-03-05 International relations theory has broadened out considerably since the end of the Cold War. Topics and issues once deemed irrelevant to the discipline have been systematically drawn into the debate and great strides have been made in the areas of culture, identity, race, and gender in the discipline. However, despite these major developments over the last two decades, currently there are no comprehensive textbooks that deal with race, gender, and culture in IR from a postcolonial perspective. This textbook fills this important gap. Persaud and Sajed have drawn together an outstanding lineup of scholars with each chapter illustrating the ways these specific lenses race, gender, culture condition or alter our assumptions about world politics. This book covers a wide range of topics including war, global inequality, postcolonialism, nation, nationalism, indigeneity, sexuality, celebrity, humanitarianism, and religion. It follows a clear structure with each chapter situating the topic within IR, reviewing the main approaches and debates surrounding the topic, and illustrating the subject matter through case studies. Features pedagogical tools and resources in every chapter: boxes to highlight major points, illustrative narratives, and a list of suggested readings. Drawing together prominent scholars in critical International Relations, this work shows why and how race, gender, and culture matter and will be essential reading for all students of global politics and International Relations theory. *A Time of Paradox* Glen Jeanson, David Luhrssen, 2006-03-02 In this lively and provocative synthesis, historian Glen Jeanson explores the people, events, and ideas that shaped America in the 20th century. Comprehensive in scope, *A Time of Paradox* analyzes the political, diplomatic, social, and cultural developments of the last century while focusing on the diverse and sometimes contradictory human experiences that characterized this dynamic period in American history. *Rethinking the Color Line* Charles A. Gallagher, 2022-01-20 *Rethinking the Color Line* helps make sense of how race and ethnicity influence aspects of social life in ways that are often made invisible by culture, politics, and economics. Charles A. Gallagher has assembled a collection of readings that are theoretically informed and empirically grounded to explain the dynamics of race and ethnicity in the United States. Students will be equipped to confidently navigate the issues of race and ethnicity, examine its contradictions, and gain a comprehensive understanding of how race and ethnic relations are embedded in the institutions that structure their lives. User-friendly without sacrificing intellectual or theoretical rigor, the Seventh Edition has been thoroughly updated to reflect the current debates and the state of contemporary U.S. race relations. *Women at the Polls* Cal Clark, Janet Clark, 2009-03-26 Since 1980, most elections in the United States have been marked by a gender gap in which women are more supportive of Democratic candidates than men by nearly ten percentage points. *Women at the Polls* finds that this gender gap is quite extensive as it exists in almost all demographic groups and as it is based on similar differences in the political attitudes of women and men over a wide array of issues. This suggests that women are becoming an important constituency in U.S. politics. **Beyond Eurocentrism** Peter Gran, 1996 Employing the approaches of Gramsci and Foucault, Gran proposes a reconceptualisation of world history. He challenges the convention of relying on totalitarian or democratic

functions of a particular state to explain relationships of authority and resistance in a number of national contexts *Under the Sign of Hope* Leslie Rebecca Bloom, 1998-09-03 *Under the Sign of Hope* examines the practices of life history ethnographic fieldwork and interpretation of women's narratives ultimately asserting the importance of self reflexivity for feminist methodology Bloom takes the stance that what is critical to research is an ability to analyze the complexities of researcher participant relationships and the limitations of narrative interpretation
