Lee,2020-08-31 An expanded edition of the leading text on military history and the role of culture on the battlefield Ideas matter in warfare Guns may kill but ideas determine when where and how they are used Traditionally military historians attempted to explain the ideas behind warfare in strictly rational terms but over the past few decades a stronger focus has been placed on how societies conceptualize war weapons violence and military service to determine how culture informs the battlefield Warfare and Culture in World History Second Edition is a collection of some of the most compelling recent efforts to analyze warfare through a cultural lens These curated essays draw on and aggressively expand traditional scholarship on war and society through sophisticated cultural analysis Chapters range from an organizational analysis of American Civil War field armies to an exploration of military culture in late Republican Rome to debates within Ming Chinese officialdom over extermination versus pacification In addition to a revised and expanded introduction the second edition of Warfare and Culture in World History now adds new chapters on the role of herding in shaping Mongol strategies Spanish military culture and its effects on the conquest of the New World and the blending of German and East African military cultures among the Africans who served in the German colonial army This volume provides a full range of case studies of how culture whether societal strategic organizational or military could shape not only military institutions but also actual battlefield choices **Dark Journey** Glyn Harper,2013-09-01 this significant volume will see the completion of over seven years writing and research by esteemed military historian Glyn Harper the book will include the revision and reissuing of his two earlier detailed histories of the New Zealand Divisions major Western Front battles of World War One Massacre at Passchendaele 2000 Spring offensive 2003 combined with an unpublished account of the third major battle of the Somme at Bapaume during which several VCs were awarded to New Zealand troops Dark Journey presents the first comprehensive overview of New Zealand s involvement in World War One by one of our most highly regarded historians It also provides indepth analysis of the NZ war contribution with startling revelations about the true scale of casualties consistently under reported in the past this will be

Glyn Harper's master work bringing together research and resources from his previous books presenting the full story of New Zealand's Western Front experiences on a deservedly grand scale *1918 Year of Victory* Ashley Ekins, 2010-04 The First World War was a turning point in history. It marked the birth of the modern era and established the pattern for large scale violence, devastation and genocide throughout the wars of the 20th century. Old empires disintegrated and new nations emerged in the maelstrom of the war and its aftermath. The peace settlements reshaped national boundaries leaving tensions and rivalries between nation states and people that resonate to the present day. Historians continue to explore and challenge many assumptions and perceptions surrounding the conflict from its origins and causes to the responsibility for its conduct, the reasons for Allied victory over the Central Powers and the consequences and long term outcomes of that victory. This book is a collection of the latest research findings by scholars from a number of nations, many of them renowned specialists in their field. They gathered for an international conference 1918 YEAR OF VICTORY convened by the Australian War Memorial in Canberra in November 2008 to mark the 90th anniversary of the end of the war and to share their insights into issues surrounding the ending of the war, its memory and continuing impact. Lively, authoritative and wide ranging, the chapters span the themes of war strategy and planning, the problems of raising, training and maintaining armies in the field, developments in technology and weapons systems, the role of command, the evolution of tactics and the use of combined arms, the development of war economies and the exploitation of human and material resources in war on the home front, on land, at sea and in the air.
