Marlborough Mystery:

The Marlborough Mystery Mike Kalaugher, 2001 When Ben Smart and Olivia Hope disappeared on the morning of 1 January 1998 New Zealand was alerted to try to identify the ketch to which the two young people had reportedly been delivered Many members of New Zealand's yachting community were subsequently surprised when despite a number of possible sightings the police shifted their investigation to Scott Watson whose boat bore no resemblance to the original description Mike Kalaugher however remained unconvinced and continued his own detailed investigation of this horrendous tragedy This thorough investigation throws into question many aspects of the police enquiry and maintains convincingly that moving the focus of the investigation to Scott Watson distracted them from the pursuit of the mystery ketch and that there is no evidence to suggest that Scott Watson is guilty This is a sensational and worrying investigation which concludes that the mystery of Ben and Olivia has not been solved The book is well worth a critical read This case is another that will not go obediently away and for uncomfortably good reasons The Dominion

Author Mike Kalaugher an experienced yachting enthusiast takes an interesting tack opting to focus on the yachting related evidence The key to this evidence is the mystery ketch seen by key witness Guy Wallace and several other witnesses but which was eventually discounted by police Kalaugher asserts quite convincingly that the sightings have never been adequately explained casting doubt on whether it was Watson's boat that Ben and Olivia were dropped off at after the New Year's Eve party at Furneaux Lodge The Nelson Mail

About the Author Mike Kalaugher is a dedicated yachting enthusiast who has an accounting practice on Waiheke Island He comes from a yachting family and sailing has been his lifelong passion He competed in the 1996 two handed Round the North Island race and survived the extreme conditions of the Sydney to Hobart race of 1998 in a 30 foot yacht

Mysteries and Sea Monsters Graham Faiella, 2021-04-01 The sea realm has ever been mysterious strange happenings upon it an unfathomable abyss of The Great Unknown below Before the scrutiny of scientific Enlightenment and Age of Reason in the eighteenth century ghost ships and oceanic monsters were the stuff of superstition myth and legend to explain the inexplicable to enthral the imagination and enliven the unimaginable Narratives of phantom ships manned by ghostly sometimes skeletal crews or damned like the Flying Dutchman to roam the seas forever of sinister sinuous sea serpents and the lore of the terrible multi tentacled kraken Accounts inspired spirited controversy amongst believers and sceptics in the awe-struck thrill of such frightful enigmas

Marlborough's America Stephen Saunders Webb, 2013-01-01 Scholars of British America generally conclude that the early eighteenth century Anglo American empire was commercial in economics liberal in politics and parochial in policy somnambulant in an era of salutary neglect but Stephen Saunders Webb here demonstrates that the American provinces under the spur of war became capitalist coercive and aggressive owing to the vigorous leadership of career army officers trained and nominated to American government by the captain general of the allied armies the first duke of Marlborough and that his influence and that of his legates prevailed through the entire century

in America Webb's work follows the duke whom an eloquent enemy described as the greatest statesman and the greatest general that this country or any other country has produced his staff and soldiers through the ten campaigns which by defanging France made the union with Scotland possible and made Great Britain preeminent in the Atlantic world Then Webb demonstrates that the duke's legates transformed American colonies into provinces of empire Marlborough's America fifty years in the making is the fourth volume of *The Governors General* *Unsolved Mysteries of the Sea* Patricia Fanthorpe, 2004-03-01 Seas and oceans cover most of the Earth's surface yet we know less about what lies beneath them than we do about stars and planets millions of miles away The seas are filled with intriguing mysteries How were they formed What gave rise to stories of sirens mermaids and mermen Where did the old pirates and buccaneers hide their treasure The answers to these questions and more can be found in *Unsolved Mysteries of the Sea* [James Falkner's Guide to Marlborough's Battlefields](#) James Falkner, 1970-01-01 Three hundred years ago Queen Anne's Captain General John Churchill 1st Duke of Marlborough led the Allied armies in an epic struggle against the powerful French forces of Louis XIV in campaigns that stretched across wide areas of the Low Countries France and Germany Marlborough's victories at the Schellenberg Blenheim Ramillies Oudenarde and Malplaquet are among the most remarkable feats in all of British military history Marlborough broke France's military power for a hundred years As James Falkner demonstrates in this the first full scale guide to the subject the story of these famous campaigns makes compelling and exciting reading and the sites associated with them are evocative places that can easily be visited today His battlefield guide is essential reading for anyone who is keen to understand the military history of the era and it is an invaluable companion for visitors to the many battlefields associated with Marlborough's triumphs **Cassell's Family Magazine**, 1867 *The Cornet of Horse: A Tale of Marlborough's Wars* G. A. Henty, 2023-08-22 In G A Henty's *The Cornet of Horse: A Tale of Marlborough's Wars* readers are transported to the thrilling and tumultuous times of the War of the Spanish Succession Through vivid and detailed descriptions Henty takes us on a journey through the battlefield as seen through the eyes of the protagonist a young cornet named Ned The book is written in a captivating and immersive style perfectly capturing the essence of historical military fiction of the late 19th century Henty's meticulous attention to historical accuracy and his engaging narrative make this book a compelling read for anyone interested in military history and adventure literature of the time G A Henty a prolific writer of historical fiction for young readers drew inspiration from his own experiences as a war correspondent and foreign correspondent His firsthand knowledge of military campaigns and historical events lends a sense of authenticity to his narratives making his books both educational and entertaining *The Cornet of Horse* is a must read for history buffs and fans of action packed adventure stories alike offering a unique perspective on the events of Marlborough's Wars **White Wings: Fifty years of sail in the New Zealand trade, 1850 to 1900** Sir Henry Brett, 1924 **New York Magazine**, 1991-09-02 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made

a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Cornet of Horse: A Tale of Marlborough's Wars** George Alfred Henty, 2020-09-28 One two three four one two three four turn to your lady one two three four now deep reverence Now you take her hand no not her whole hand the tips of her fingers now you lead her to her seat now a deep bow so That will do You are improving but you must be more light more graceful more courtly in your air still you will do Now run away Mignon to the garden you have madam s permission to gather fruit Now Monsieur Rupert we will take our lesson in fencing The above speech was in the French language and the speaker was a tall slightly built man of about fifty years of age The scene was a long low room in a mansion situated some two miles from Derby The month was January 1702 and King William the Third sat upon the throne In the room in addition to the dancing master were the lad he was teaching an active healthy looking boy between fifteen and sixteen his partner a bright faced French girl of some twelve years of age and an old man nearer eighty than seventy but still erect and active who sat in a large armchair looking on By the alacrity with which the lad went to an armoire and took out the foils and steel caps with visors which served as fencing masks it was clear that he preferred the fencing lesson to the dancing He threw off his coat buttoned a padded guard across his chest and handing a foil to his instructor took his place before him Now let us practise that thrust in tierce after the feint and disengage You were not quite so close as you might have been yesterday Ha ha that is better I think that monsieur your grandfather has been giving you a lesson and poaching on my manor Is it not so Yes said the old man I gave him ten minutes yesterday evening but I must give it up My sword begins to fail me and your pupil gets more skillful and stronger in the wrist every day In the days when I was at Saint Germain with the king when the cropheads lorded it here I could hold my own with the best of your young blades But even allowing fully for the stiffness of age I think I can still gauge the strength of an opponent and I think the boy promises to be of premiere force It is as you say monsieur le colonel My pupil is born to be a fencer he learns it with all his heart he has had two good teachers for three years he has worked with all his energy at it and he has one of those supple strong wrists that seem made for the sword He presses me hard Now Monsieur Rupert open play and do your best Then began a struggle which would have done credit to any fencing school in Europe Rupert Holliday was as active as a cat and was ever on the move constantly shifting his ground advancing and retreating with astonishing lightness and activity At first he was too eager and his instructor touched him twice over his guard Then rendered cautious he fought more carefully although with no less quickness than before and for some minutes there was no advantage on either side the master s longer reach and calm steady play baffling every effort of his assailant At last with a quick turn of the wrist he sent Rupert s foil flying across the room Rupert gave an exclamation of disgust followed by a merry laugh You always have me so Monsieur Dessin Do what I will sooner or later comes that twist

which I cannot stop You must learn how sir Your sword is so as you lunge I guard and run my foil along yours so as to get power near my hilt Now if I press your sword must go but you must not let me press you must disengage quickly Thus you see Now let us try again We will practise nothing else today or tomorrow or till you are perfect It is your one weak point Then you must practise to disarm your opponent till you are perfect in that also Then as far as I can teach you you will be a master of fencing You know all my coups and all those of monsieur le colonel These face guards too have worked wonders in enabling you to play with quickness and freedom We are both fine blades I tell you young sir you need not put up with an insult in any public place in Europe I tell you so who ought to know In the year 1702 fencing was far from having attained that perfection which it reached later Masks had not yet been invented and in consequence play was necessarily stiff and slow as the danger of the loss of sight or even of death from a chance thrust was very great When Rupert first began his lessons he was so rash and hasty that his grandfather greatly feared an accident and it struck him that by having visors affixed to a couple of light steel caps not only would all possibility of an accident be obviated upon the part of either himself or his pupil but the latter would attain a freedom and confidence of style which could otherwise be only gained from a long practice in actual war The result had more than equalled his expectations and Monsieur Dessin had when he assumed the post of instructor been delighted with the invention and astonished at the freedom and boldness of the lad s play It was then thanks to these masks as well as to his teachers skill and his own aptitude that Rupert had obtained a certainty a rapidity and a freedom of style absolutely impossible in the case of a person whatever his age who had been accustomed to fence with the face unguarded and with the caution and stiffness necessary to prevent the occurrence of terrible accident For another half hour the lesson went on Then just as the final salute was given the door opened at the end of the room and a lady entered in the stiff dress with large hoops then in fashion Colonel Holliday advanced with a courtly air and offered her his hand The French gentleman with an air to the full as courtly as that of the colonel brought forward a chair for her and when she had seated herself Rupert advanced to kiss her hand
