threatened by the loss of Arctic ice and their images decorate fountains and the cornices of buildings across the world They sell cold drinks They feature in children s books on merry go rounds and under the arms of weary toddlers heading for bed Their pelts were once highly prized by hunters and live captures became attractions in zoos and circuses Stuffed bears still haunt museums and stately homes In this natural and cultural history of the polar bear Margery Fee explores the evolution species habitat and behavior of the animal as well as its portrayal in art literature film and advertising Illustrated throughout Polar Bear will beguile anyone who loves these outsize beautiful seemingly cuddly yet deadly carnivores Worlds of Natural History Helen Anne Curry,Nicholas Jardine,James Andrew Secord,Emma C. Spary,2018-11-22 From Aztec accounts of hibernating hummingbirds to contemporary television spectacles human encounters with nature have long sparked wonder curiosity and delight Written by leading scholars this richly illustrated volume offers a lively introduction to the history of natural history from the sixteenth century to the present day Covering an extraordinary range of topics from curiosity cabinets and travelling menageries to modern seed banks and radio tracked wildlife this volume draws together the work of historians of science of environment and of art museum curators and literary scholars The essays are framed by an introduction charting recent trends in the field and an epilogue outlining the prospects for the future Accessible to newcomers and established specialists alike Worlds of Natural History provides a much needed perspective on current discussions of biodiversity and an enticing overview of an increasingly vital aspect of human history **Chicago Television** Daniel Berger,Steve Jajkowski,2010-01-01 The history of television in Chicago begins with the birth of the medium and is defined by the city s pioneering stations WBKB now WLS TV was the principal innovator of the Chicago School of Television an improvisational production style that combined small budgets personable talent and the creative use of scenery and props WNBQ now WMAQ TV expanded the innovative concept to a wider audience via the NBC network WGN TV scored with sports and kids Strong personalities drove the success of WBBM TV A noncommercial educational station WTTW and the city s first UHF station WCIU added diversity and ethnic programming The airwaves in Chicago have been home to a wealth of talented performers and iconic programs that have made the city one of the country s greatest television towns Chicago Television featuring photographs from the archives of the Museum of Broadcast Communications MBC and the collections of local stations and historians gives readers a front row seat on a journey through the fi rst 50 years of Chicago television 1940 1990 Founded in 1982 by broadcaster Bruce DuMont the MBC Web site offers over 10 000 digital assets Wildlife Films Derek Bousé,2011-11-29 If as many argue movies and television have become Western culture s premier storytelling media so too have they become for most members of society the primary source of encounters with the natural world particularly wild animals The television fare offered nightly by national and cable networks such as PBS and the Discovery Channel provides millions of viewers with their only experience of the wilderness and its inhabitants The very films that so many viewers take as accurate portrayals of wildlife however have evolved primarily as a form of entertainment following the

established codes and conventions of narrative exposition The result has been not the representation of nature but its wholesale reconstruction and reconfiguration according to film and television conventions audience expectations and the demands of competition in the media marketplace Wildlife Films traces the genealogy of the nature film from its origins as the animal locomotion studies that mark the very beginnings of motion pictures themselves to the founding of the Animal Planet cable channel that boasts all animals all the time The narrative and thematic elements that unite wildlife films as a genre have their roots not in the documentary film tradition but in the older traditions of oral and written animal fables as reflections of human society Derek Bous contends that classic wildlife films often portray animal protagonists living in families modeled on an ideal of the human nuclear family and working in communities that resemble an ideal of bucolic human society In these stories presented as documentaries animals are motivated by human emotions and conduct relationships according to human customs This imposition of culturally satisfying narrative patterns upon the lives of animals has not only led to the misrepresentation of the natural world it has promoted the notion that our values our moral vision our models of society and family structure derive from nature rather than being cultural formations
