Brotherhood Economics Rusty Neal,1998 **Comrades and Critics** Candida Rifkind,2009-01-01 *Comrades and Critics* is the first full length study of Canada s 1930s literary left *Contributing Citizens* Shirley Tillotson,2009-01-01 *Contributing Citizens* tells the social cultural and political history of Community Chests the forerunners of today s United Way to provide a unique perspective on the evolution of professional fundraising private charity and the development of the welfare state Blending a national perspective with rich case studies of Halifax Ottawa and Vancouver Shirley Tillotson shows that fundraising work in the mid twentieth century involved organizing and promoting social responsibility in new ways sometimes coercively In the 1940s and 1950s fundraisers adopted the language of welfare state reform and helped to establish both the notion of universal contribution and the foundation of community organization from which major social policies grew Peopled by a host of forceful characters this is a lively account of how raising money raised the level of Canadian democracy *Jailed for Possession* Catherine Carstairs,2006-12-15 As rates of illegal drug use increase the debates over drug policy heat up While some believe penalties should be harsher others advocate complete decriminalisation Certainly debate over the war on drugs is not new In the early 1920s as the drive for Chinese Exclusion gathered steam Canadians blamed the Chinese for the growing use of opium and other drugs and parliamentarians passed extremely harsh drug laws to counter this use These laws remained in place until the 1960s In *Jailed for Possession* Catherine Carstairs examines the impact of these drug laws on users health work lives and relationships In the middle of the century drug users regularly went to jail for up to two years for possession of even the smallest amount of opium morphine heroin or cocaine often spending more time incarcerated than on the street As enforcement increased and drugs became harder to obtain drug use became an increasingly central preoccupation making it almost impossible for users to hold down steady jobs support families or maintain solid relationships *Jailed for Possession* is the first social history of drug use in Canada and provides a careful examination of drug users and their regulators including doctors social workers and police officers *Pick One Intelligent Girl* Jennifer Anne Stephen,2007-04-28 During the tumultuous formative years of the Canadian welfare state many women rose through the ranks of the federal civil service to oversee the massive recruitment of Canadian women to aid in the Second World War Ironically it became the task of these same female mandarins to encourage women to return to the household once the war was over *Pick One Intelligent Girl* reveals the elaborate psychological economic and managerial techniques that were used to recruit and train women for wartime military and civilian jobs and then at war s end to move women out of the labour force altogether Negotiating the fluid boundaries of state community industry and household and drawing on a wide range of primary sources Jennifer A Stephen illustrates how women s relationships to home work and nation were profoundly altered during this period She demonstrates how federal officials enlisted the help of a new generation of experts to entrench a two tiered training and employment system that would become an enduring feature of

the Canadian state This engaging study not only adds to the debates about the gendered origins of Canada's welfare state it also makes an important contribution to Canadian social history labour and gender studies sociology and political science

Governing Charities Paula Maurutto,2003 Maurutto details how welfare bureaucracies as they began to expand during the 1930s and 1940s did so by building stronger links with private voluntary agencies not by disabling them Far from being shunted aside voluntary organizations such as Catholic charities became increasingly entrenched within the expanding welfare state Standardized reports state inspections financial audits and social work case records to name only a few were emblematic of the social scientific impulse that permeated the operations of Catholic charities and enabled them to more systematically police discipline and regulate the lives of relief recipients and those designated as moral and social deviants Notably they allowed church authorities and the state to exercise greater control and supervision over the internal operations and procedures of charities in effect enabling these institutions to govern the daily affairs of the voluntary sector

Gatekeepers Franca Iacovetta,2006-10-01 An in depth study of European immigrants to Canada during the Cold War Gatekeepers explores the interactions among these immigrants and the gatekeepers mostly middle class individuals and institutions whose definitions of citizenship significantly shaped the immigrant experience Iacovetta's deft discussion examines how dominant bourgeois gender and Cold War ideologies of the day shaped attitudes towards new Canadians She shows how the newcomers themselves were significant actors who influenced Canadian culture and society even as their own behaviour was being modified Generously illustrated Gatekeepers explores a side of Cold War history that has been left largely untapped It offers a long overdue Canadian perspective on one of the defining eras of the last century

The Rise of the Neighbourhood in Canada, 1880s-2020s Richard Harris,2025-03-31 Neighbourhoods matter now more than ever before They sustain fewer social connections but in an era of great social inequality and high levels of immigration they have become vital as places for homeowner investment and educational opportunity for children The Rise of the Neighbourhood in Canada 1880s 2020s traces the changing character and significance of Canadian urban neighbourhoods city and suburban since the 1880s The book highlights patterns in neighbourhood life particularly noticeable in larger urban areas which are especially important for the least mobile people workers lower income households immigrants women children and the elderly It explores how the physical and social characteristics of neighbourhoods affect public health crime rates social capital and job opportunities while shaping the lifelong prospects of children Analysing long term trends the book examines the importance of communications technology in the context of rising inequality and immigration It shows how as homeownership rose neighbourhoods became vital settings for investment increasingly financialized reducing affordability Using examples from all types of neighbourhoods in cities small and large from St John's through Montreal and Winnipeg to Victoria The Rise of the Neighbourhood in Canada argues that the current prominence of neighbourhoods will persist

health in Canada from the 1920s to the 1970s Through the Health League of Canada people were urged to drink pasteurized milk immunize their children and avoid extramarital sex Health was presented as a responsibility of citizenship and doctors and dentists as expert guides Public health campaigns have reduced preventable deaths But such campaigns can also stigmatize marginalized populations by implying that poor health is due to inadequate self care despite clear links between health and external factors such as poverty and trauma This clear eyed study demonstrates that while we may well celebrate the successes of public health campaigns they are not without controversy
