Clatterbaugh, 2018-10-08 What is social reality for men in modern society What maintains or explains this social reality What condition might we imagine that would be better for men How might we achieve this better condition These are the questions Kenneth Clatterbaugh brings to seven different visions of men in modern society considered in this newly updated edition In clear and insightful language Clatterbaugh surveys not just conservative liberal and radical views of masculinity but also the alternatives offered by the men s rights movement spiritual growth advocates and black and gay rights activists Each of these is explored both as a theoretical perspective and as a social movement and each offers distinctive responses to the questions posed The first edition of this book was the first to survey the range of responses to feminism that men have made as well as the first to put political theory at the center of men s awareness of their own masculinity This new edition adds chapters on recent highly publicized movements such as the Promise Keepers Million Man March and the evolution of gay men s rights Clatterbaugh treats all views with fairness and timeliness as he develops and defends a vision of men and masculinity consistent with feminist ideals and a just society **Contemporary Perspectives on Relational Wellness** Floriana

Irtelli, 2018-07-13 This book proposes new perspectives on relational wellness and the contemporary family combining a psychoanalytic overview with scientific research about the burgeoning popularity of divorce the increase in stepfamilies and the use of social networks as well as other technologies In this day and age psychoanalysis has become increasingly interested in hyper modern scenarios for example social networks and apps provide matching algorithms which allow users to connect with people of similar interests These networks have become one of the places where dissatisfied partners seek more satisfactory situations In the United Kingdom cohabitation lasts for up to two years on average and 40% of marriages end in divorce In the United States the percentage rises it has now reached 50% Today the value of temporariness in which everything is fragmented is exalted On the other hand is it wrong to deny the natural ebb and flow of human feeling

Africa in Contemporary Perspective Manuh, Takyiwa, Sutherland-Addy, Esi, 2014-05-08 An important feature of Ghanaian tertiary education is the foundational African Studies Programme which was initiated in the early 1960s Unfortunately hardly any readers exist which bring together a body of knowledge on the themes issues and debates which inform and animate research and teaching in African Studies particularly on the African continent This becomes even more important when we consider the need for knowledge on Africa that is not Eurocentric or sensationalised but driven from internal understandings of life and prospects in Africa Dominant representations and perceptions of Africa usually depict a continent in crisis Rather than buying into external representations of Africa with its lacks and aspirations for Western modernities we insist that African scholars in particular should be in the forefront of promoting understanding of the plural overlapping and dense reality of life and developments on the continent to produce relevant and usable knowledge Continuing and renewed interest in Africa's resources including the land mass economy minerals visual arts and performance cultures as well as bio medical knowledge and products by old and new geopolitical players obliges African scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of Africa's people *Handbook of Divorce and Relationship Dissolution* Mark A. Margaret Sanger Jean H. Baker,2011-11-08

Undoubtedly the most influential advocate for birth control even before the term existed Margaret Sanger ignited a movement that has shaped our society to this day Her views on reproductive rights have made her a frequent target of conservatives and so called family values activists Yet lately even progressives have shied away from her citing socialist leanings and a purported belief in eugenics as a blight on her accomplishments In this captivating new biography the renowned feminist historian Jean H Baker rescues Sanger from such critiques and restores her to the vaunted place in history she once held Trained as a nurse and midwife in the gritty tenements of New York s Lower East Side Sanger grew increasingly aware of the dangers of unplanned pregnancy both physical and psychological A botched abortion resulting in the death of a poor young mother catalyzed Sanger and she quickly became one of the loudest voices in favor of sex education and contraception The movement she started spread across the country eventually becoming a vast international organization with her as its spokeswoman Sanger s staunch advocacy for women s privacy and freedom extended to her personal life as well After becoming a wife and mother at a relatively early age she abandoned the trappings of home and family for a globe trotting life as a women s rights activist Notorious for the sheer number of her romantic entanglements Sanger epitomized the type of free love that would become mainstream only at the very end of her life That she lived long enough to see the creation of the birth control pill which finally made planned pregnancy a reality is only fitting

Sex and the Single Savior Dale B. Martin,2006-01-01

Probing into numerous questions about gender and sexuality Dale Martin delves into the biblical texts anew and unearths surprising findings Avoiding preconceptions about ancient sexuality he explores the ethics of desire and marriage and pays careful attention to the original meanings of words especially those used as evidence of Paul s opposition to homosexuality For example after a remarkably faithful reading of the scriptural texts Martin concludes that our contemporary obsession with marriage and the whole search for the right sexual relationships is antithetical to the message of the gospel In all of these essays however Martin argues for engaging Scripture in a way that goes beyond the standard historical critical questions and

Ann Black,Hossein Esmaeili,Nadirayah Hosen,2013-01-01 This book presents an invaluable contribution to the debate on the compatibility of Islam and modernity It is full of arguments and examples showing how Islam can be understood in line with modern life human rights democracy the rule of law civil society and pluralism The three authors come from different countries represent different gender perspectives and have a Shia a Sunni and a non Muslim background respectively which makes the book a unique source of information and inspiration Irmgard Marboe University of Vienna Austria This well informed book explains reflects on and analyses Islamic law not only in the classical legal tradition of Sharia but also its modern contemporary context The book explores the role of Islamic law in secular Western nations and reflects on the legal system of Islam in its classical context as applied in its traditional homeland of the Middle East and also in South East Asia Written by three leading scholars from three different backgrounds a Muslim in the Sunni tradition a Muslim in the Shia tradition and a non Muslim woman the book is not only unique but also enriched by differing insights into Islamic law Sir William Blair provides the foreword to a book which acknowledges that Islam continues to play a vital role not just in the Middle East but across the wider world the discussion on which the authors embark is a crucial one The book starts with an analysis of the nature of Islamic law its concepts meaning and sources as well as its development in different stages of Islamic history This is followed by accounts of how Islamic law is being practised today Key modern institutions are discussed such as the parliament judiciary dar al ifta political parties and other important organizations It continues by analysing some key concepts in our modern times nation state citizenship ummah dhimmah recognition of the status of certain non Muslims in Islamic states and the rule of law The book investigates how in recent times more and more fatwas are issued collectively rather than emanating from an individual scholar The authors then evaluate how Islamic law deals with family matters economics crime property and alternative dispute resolution Lastly the book revisits certain contemporary issues of debate in Islamic law such as the burqa halal food riba interest and apostasy *Modern Perspectives on Islamic Law* will become a standard scholarly text on Islamic law Its wide ranging coverage will appeal to researchers and students of Islamic law or Islamic studies in general Legal practitioners will also be interested in the comparative aspects of Islamic law presented in this book Contractualisation of Family Law - Global Perspectives Frederik Swennen,2015-07-06 This volume presents

global and comparative perspectives on the perpetual pendular movement of family law between status and contract It contributes to the topical academic debate on family law exceptionalism by exploring the blurred lines between public law private law and family law and sheds light on the many shades of grey that exist The contributions focus on both substantive and procedural family law on parents and children and on life partners with particular attention for contractual arrangements of family formations and of conflict resolution The hypothesis underlying all contributions was the trend towards contractualisation of family law A convergent research outcome resulting from the comparison of national reports was the ambivalent position of family law in legal systems worldwide That comparison shows that whereas family law is clearly moving towards contract with regard to old family formations the contrary is true for new family formations The movement towards contract is rarely considered to be contractualisation pur sang with civil effect The movement towards status finally does not necessarily witness family law exceptionalism vis vis private law in view of the increasing State interventionism in private law relations in general In sum as the volume shows the high permeability of the demarcations between the State the family and the market impedes a categorial approach This volume is based on the general and selected national reports on the topic Contractualisation of Family Law that were presented at the XIXth International Congress of Comparative Law in Vienna in July 2014
