Marriages In Trouble The Process Of Seeking Help:

Marriages in Trouble Julia Brannen, Jean Collard, 2023-06-09 In the early 1980s it was fashionable to suggest that marriage as an institution was in trouble but there were widely differing views as to whether or not this was really so Originally published in 1982 this title started as a small scale exploratory study of clients with marital problems and how they came to seek help Using a sociological approach to marriage the authors compare the medical and non medical settings the clients attended and looks at their social networks as a way to see how people view and conduct their marital relationships It also looks at the broader concept of marriage and how it came to be seen as problematic in our society and became part of wider public discourse at the time Today reissued with a new preface it can be read in its historical context **Marriage, Domestic Life, and Social Change** David Clark, 1991 Marriage Domestic Life and Social Change brings together leading writers on marriage and the family in a tribute to the life and work of Jacqueline Burgoyne a major figure in family studies

Routledge Library Editions: Addictions Various Authors, 2021-03-11 Routledge Library Editions Addictions brings together as one set or individual volumes a small series of six previously out of print titles originally published between 1980 and 1995 The set covers a variety of perspectives and looks at a range of addictions including alcoholism drug abuse and gambling

Support Networks in a Caring Community J.A. Yoder, J.M.L. Jonker, R.A.B. Leaper, 2012-12-06 The historic Binnenhof seat of the Dutch government in The Hague provided the setting January 1985 for a conference in which participants from eleven countries met to consider the theme Support networks in a caring community research and policy fact and fiction At the outset conference leadership provided by Professors J M L Jonker The Netherlands and R A B Leaper United Kingdom urged the conferees not to allow their enthusiasm for informal support networks to combine with the pervasive awareness of the failures of welfare states into a simplistic stance of advocacy with a consequent appeal to politicians to direct state funds accordingly Legitimate criticisms of the responses of welfare states to the needs of citizens were to be seen as the context for discussion not the substance of conference deliberations More specifically if it is now apparent to many people that governmental assistance of individuals with social needs can lead to an undesirable dependency on the part of increasingly passive citizens that awareness does not lend logical support to an ideological position that governmental expenditures are pernicious per se to be replaced as rapidly as possible by a return to reliance on self family friends and associations that are developed voluntarily and financed by those who are sufficiently interested

Uncoupling Diane Vaughan, 1990-09-05 Drawing from extensive research and in depth interviews an invaluable guide for anyone who wants to understand or prevent the collapse of a relationship How do relationships end Why does one partner suddenly become discontented with the other and why is the onset of that discontentment not so sudden after all What signals do partners send each other to indicate their doubts Why do those signals so often go unnoticed And how do people who saw themselves as part of a couple come to terms not just with absence and abandonment but with a new single identity

This groundbreaking book reveals a process that begins in secret but gradually becomes public implicating not only partners but their social milieu Enlightening accessible and deeply affecting *Uncoupling* offers a startling vision of what really happens behind the surface when relationships come apart *Experiences of Counselling in Action* Dave Mearns, Windy Dryden, 1989-12-06 How hard it is to find a book to recommend to trainees which will give them an insight into what counselling and psychotherapy too for that matter is really like This book does exactly that This is a book which would be equally useful to the humanistic practitioner and the more orthodox one The breadth of sympathy is admirable in dealing with what is common to all orientations This is one of those rare books which does justice both to the human experiences involved in counselling and psychotherapy and to the theory which might explain those experiences Changes What is the experience of counselling from the perspectives of both client and counsellor What can be learned for the practice of counselling from an understanding of how it feels to be a client or a counsellor Addressing these questions central to this book are the personal accounts of individual clients and counsellors who each relate their own very different experiences of counselling They explore such issues as identity expectations trust power and boundaries in the client counsellor relationship And each examines the intense personal meanings of success or failure in the client or counsellor role An analysis of the implications for the counselling relationship concludes the volume *Family Mediation* Howard H. Irving, Michael Benjamin, 1995-07-19 Preface by Hugh McIsaac Family mediation has quickly become a significant means of legal dispute resolution recognized in most North American jurisdictions as a relief to already overburdened judicial systems Using an innovative practical approach the authors of *Family Mediation* incorporate the pivotal principles of family therapy into this new context the judicial realm of family mediation The practice model therapeutic family mediation thoroughly treats history specific issues and practice in an ecosystemic approach and responds to feminist critique of mediation In addition the authors offer important perspectives on mediating with multicultural populations and the role of the mediator in child custody disputes and child protection cases Through examination of family mediation research as well as helpful case history vignettes the authors of this volume take action to fill significant gaps between family therapy and mediation *Family Mediation* provides a new take on family mediation that will benefit not only professionals and researchers in family studies social work clinical psychology and sociology but also professional and volunteer mediators conciliation court personnel and family law specialists *Family Mediation* is an excellent blend of scholarship and practice and it is the best of the books I have read on family mediation First it is clear and well written Second it provides an in depth current review of the divorce literature The literature on divorce is large uneven and difficult to interpret The authors have done a service to the profession by skillfully reviewing and integrating this literature Stephen J Bahr Brigham Young University This book is one of the most comprehensive and well researched texts on mediation to date The authors have compiled an immense array of information regarding the history of family mediation the practice and knowledge base a review of literature regarding
