Koltun-Fromm,2013-12-11 Thinking Jewish Culture in America argues that Jewish thought extends our awareness and deepens the complexity of American Jewish culture This volume stretches the disciplinary boundaries of Jewish thought so that it can productively engage expanding arenas of culture by drawing Jewish thought into the orbit of cultural studies The eleven contributors to Thinking Jewish Cultures together with Chancellor Arnold Eisen s postscript position Jewish thought within the dynamics and possibilities of contemporary Jewish culture These diverse essays in Jewish thought re imagine cultural space as a public and sometimes contested performance of Jewish identity and they each seek to re enliven that space with reflective accounts of cultural meaning How do Jews imagine themselves as embodied actors in America Do cultural obligations limit or expand notions of the self How should we imagine Jewish thought as a cultural performance What notions of peoplehood might sustain a vibrant Jewish collectivity in a globalized economy How do programs in Jewish studies work within the academy These and other questions engage both Jewish thought and culture opening space for theoretical works to broaden the range of cultural studies and to deepen our understanding of Jewish cultural dynamics Thinking Jewish Culture is a work about Jewish cultural identity reflected through literature visual arts philosophy and theology But it is more than a mere reflection of cultural patterns and choices the argument pursued throughout Thinking Jewish Culture is that reflective sources help produce the very cultural meanings and performances they purport to analyze *Rorty, Buber and*

the Revival of Social Hope Akiba Jeremiah Lerner, 2007 **Writing Habits** Jaime Goodrich, 2021-10-12 An in depth examination of a significant but marginalized body of literature the texts produced in English Benedictine convents on the Continent between 1600 and 1800 **Walking with the Mud Flower Collective** Stina Busman Jost, 2014 Arguing for a retrieval of the landmark work *God's Fierce Whimsy* the author establishes the critical importance of this volume for the construction of a dialogic theological method Finally the author constructively engages various developments in feminist theologies and postcolonial theories **Redemptive Hope** Akiba J. Lerner, 2015-09-01 This is a book about the need for redemptive narratives to ward off despair and the dangers these same narratives create by raising expectations that are seldom fulfilled The quasi messianic expectations produced by the election of President Barack Obama in 2008 and their diminution were stark reminders of an ongoing struggle between ideals and political realities *Redemptive Hope* begins by tracing the tension between theistic thinkers for whom hope is transcendental and intellectuals who have striven to link hopes for redemption to our intersubjective interactions with other human beings Lerner argues that a vibrant democracy must draw on the best of both religious thought and secular liberal political philosophy By bringing Richard Rorty's pragmatism into conversation with early twentieth century Jewish thinkers including Martin Buber and Ernst Bloch Lerner begins the work of building bridges while insisting on holding crucial differences in dialectical tension Only such a dialogue he argues can prepare the foundations for modes of redemptive thought fit for the twenty first century **The A to Z of Existentialism** Stephen Michelman, 2010-04-01 Existentialism is the philosophy of human existence which flourished first in Germany in the 1920s and 1930s and then in France in the decade following the end of World War II The operative meaning of existentialism here is thus broader than it was circa 1945 when the term first gained currency in France as a label for the philosophy of Jean Paul Sartre However it is considerably less broad than the view proposed by commentators in the 1950s and 1960s who in an attempt to overcome Sartre's hegemony discovered the seeds of existentialism far and wide in Shakespeare Saint Augustine and the Old Testament prophets In this dictionary existentialism is understood as a decidedly 20th century phenomenon though with roots in the 19th century Effort has been made to understand the philosophy of existentialism as all philosophies should be understood as part of an ongoing intellectual tradition an evolving history of problems concepts and arguments The A to Z of Existentialism explains the central claims of existentialist philosophy and the contexts in which it developed into one of the most influential intellectual trends of the 20th century This is done through a chronology an introductory essay a bibliography and more than 300 cross referenced dictionary entries offering clear accessible accounts of the life and thought of major existentialists like Jean Paul Sartre Martin Heidegger Martin Buber Karl Jaspers Gabriel Marcel Simone de Beauvoir Albert Camus and Maurice Merleau Ponty as well as thinkers influential to its development such as Wilhelm Dilthey Henri Bergson Edmund Husserl and Max Scheler This book affords readers an integrated critical and historically sensitive understanding of this important philosophical movement Ibn Gabirol's

Theology of Desire Sarah Pessin, 2013-07-08 Drawing on Arabic passages from Ibn Gabirol's original Fons Vitae text and highlighting philosophical insights from his Hebrew poetry Sarah Pessin develops a theology of desire at the heart of Ibn Gabirol's eleventh century cosmo ontology She challenges centuries of received scholarship on his work including his so called Doctrine of Divine Will Pessin rejects voluntarist readings of the Fons Vitae as opposing divine emanation She also emphasizes pseudo Empedoclean notions of divine desire and grounding element alongside Ibn Gabirol's use of a particularly Neoplatonic method with apophatic and what she terms doubly apophatic implications In this way Pessin reads claims about matter and God as insights about love desire and the receptive dependent and fragile nature of human beings Pessin reenvision the entire spirit of Ibn Gabirol's philosophy moving us from a set of doctrines to a fluid inquiry into the nature of God and human being and the bond between God and human being in desire

The Communicative Relationship Between Dialogue and Care Marie Baker-Ohler, Annette Holba, 2009 This book provides insight into the nature of the relationship between dialogue and care The work is textured and mindful of the human need for authentic communication between embedded human communicative agents This is because the authors are well versed in the field having published articles books and book chapters dealing with the cultivation of human communication and human relationships through aspects of care dialogue and other philosophical preconditions This study approaches the relationship of care and dialogue through a constructive hermeneutic approach situated within the current historical moment while relying on a rich and textured historical tradition of philosophical writings that invite new discussion on the value of this relationship In a historical era of rapidly changing technologies it is often easier to text twitter and e mail in a hypertext mode that fails to acknowledge the dialogic potential in human relationships This book reminds us that even in these technologically sophisticated times we gain more in human relationships through care and dialogue than in quick instant communication It is unique from other books dealing with the relationship between dialogue and care in human relationships because it integrates literature involving communication ethics and philosophies of communication framed around the metaphor of care to provide a more textured insight related to human communication The discussion is an alternative to a social scientific approach Readers will gain a thorough and comprehensive understanding of the issues involved from different perspectives Many other books on these matters are also theoretically laden with deep philosophical concepts but they are often devoid of connections to everyday experiences which limits application of the ideas The authors address this by a text that explores those philosophical and theoretically laden

concepts related to care in an applied manner so that the practice of these ideas is situated within actual human interaction. This study provides an in depth exploration specifically dealing with care as a philosophical and ethical paradigm for living in the world. This book is distinctive as it encompasses theorists scholars from multiple perspectives that include sociological, psychological, philosophical, and from both social science and humanities approaches, all of which come together within a communication framework. The purpose of this book is to provide readers with the opportunity to consider multiple ways of enhancing human communication through discovering how the notion of care has the ability to shape and guide communicative exchanges. Care is posited as a philosophy of communication and more specifically as a communicative ethic that can be embraced in interpersonal and organizational communicative contexts. Our goal is to provide a textured understanding of care as it relates to human communication and as it is foregrounded in philosophical thought. This text will help develop philosophical understanding of this topic that is inescapably linked to human communication. This book will interest all in communication, sociology, psychology, and anthropology.
