shows why focusing too narrowly on the daily ebb and flow of the markets minimizes a trader's chances for the big returns. He explains why maximum results are achieved by identifying the big market trends and riding them for all their worth. Headley explores the major market indicators including the popular CBOE Volatility Index, Nasdaq 100, Rydex Mutual Fund Flows, and Equity Put/Call Ratio and shows readers how to use them to identify the stocks that are about to take off. Emphasizing the aggressive use of options, he also empowers investors with stock selection techniques and options strategies that work in virtually every type of market.
