**Dictionary of Food Compounds** Shmuel Yannai, 2012-10-23. The increasing world population, competition for arable land, and rich fishing grounds and environmental concerns mandate that we exploit in a sustainable way the earth's available plant and animal resources for human consumption. To that end, food chemists, technologists, and nutritionists engage in a vast number of tasks related to food availability, quality, safety, nutritional value, and sensory properties, as well as those involved in processing, storage, and distribution. To assist in these functions, it is essential they have easy access to a collection of information on the myriad compounds found in foods. This is particularly true because even compounds present in minute concentrations may exert significant desirable or negative effects on foods. Includes a foreword by Zdzislaw E. Sikorski, Gdansk University of Technology, Poland. Editor of the CRC Press Chemical Functional Properties of Food Components Series. Dictionary of Food Compounds, Second Edition, is presented in a user friendly format in both hard copy and fully searchable, downloadable resources. It contains entries describing natural components of food, raw materials, and products, as well as compounds added to foods or formed in the course of storage or processing. Each entry contains the name of the component, the chemical and physical characteristics, a description of functional properties related to food use, and nutritional and toxicological data. Ample references facilitate inquiry into more detailed information about any particular compound.

*Agatha Christie and the Guilty Pleasure of Poison* Sylvia A. Pamboukian,2022-11-12 *Agatha Christie and the Guilty Pleasure of Poison* examines Christie s female poisoners in the context of Christie s own experience in pharmacy and of detective fiction In doing so it uncovers an overlooked dynamic in which female poisoners deliver well deserved comeuppance for gendered and classed wrongdoing ordinarily accepted in everyday life While critics have long recognized male outlaws like Robin Hood who use crime to oppose a corrupt system this book contends that female outlaws witches and poisoners offer a similar heritage of empowered femininity Far from cozy and formulaic Agatha Christie s outlaw poisoners offer readers the surprising pleasures of comeuppance and they set the stage for contemporary detective fiction writers more recent films depicting poisoning as empowering and even poison gardens which are tourist destinations that offer visitors the guilty pleasure of poison

,1989-04     **The Pharmaceutical Era** ,1925     *Facing the Pancreatic Dilemma* M. Falconi,Paolo Pederzoli,Giorgio Cavallini,Claudio Bassi,2012-12-06 This volume is a compendium of the lectures presentations and workshops of the International Congress entitled Facing the Pancreatic Dilemma and of the 17th Meeting of the Italian Association for the Study of the Pancreas held in Verona on 16 19 June 1993 Pancreatology is still a relatively young science Many pathophysiological aspects of pancreatic disease are as yet obscure and a fair number of the etio pathogenetic mechanisms adduced are no more than hypothetical We have therefore chosen to compare and contrast in a single volume the various hypo theses and interpretations put forward by leading experts in the field In view of the swift evolution of this branch of medical science it is sound policy to bear in mind that yesterday s heresies have become today s orthodoxy and that today s heresies may well turn out to be accepted orthodoxy in a not too distant future The various pancreatic dilemmas are addressed systematically in these pages and we believe that the book will prove an invaluable tool for the specialist and for any physician dealing with pancreatic disease The book also represents a tribute by the Verona School of Pancreatology to the memory of Prof L A Scuro founder of the School and one of the outstanding Italian pioneers of pancreatology     Profiles of Drug Substances, Excipients and Related Methodology ,1991-01-28 Profiles of Drug Substances Excipients and Related Methodology     *Handbook of African Medicinal Plants* Maurice M.
