Martyrdom And Rome:

Martyrdom and Rome G. W. Bowersock, 2002-10-03 This book examines the historical context of the earliest Christian martyrs and anchors their grisly and often wilful self sacrifice to the everyday life and outlook of the cities of the Roman empire Professor Bowersock begins by investigating both the time and the region in which martyrdom as we know it came into being He also offers comparisons of the Graeco Roman background with the martyrology of Jews and Muslims A study of official protocols illuminates the bureaucratic institutions of the Roman state as they applied to the first martyrs and the martyrdoms themselves are seen within the context of urban life and public spectacle in the great imperial cities By considering martyrdom in relation to suicide the author is also able to demonstrate the peculiarly Roman character of Christian self sacrifice in relation to other forms of deadly resistance to authority Love and Martyrdom in Rome Jutta Ihlenfeld, Rudy N. Constructing Religious Martyrdom John

Soboslai, 2024-06-27 Martyrdom is a phenomenon common to many of the world's religious traditions. But why? In this study John Soboslai offers insights into the practices of self-sacrifice within specific sociopolitical contexts. Providing a new understanding of martyrdom through the lens of political theology, he analyzes discourses and performances in four religious traditions during social and political crises: beginning with second-century Christianity in Asia Minor where the term martyr first took its meaning; He also analyzes Shi'a Islam in the 1980s when suicide bombing first appeared as a strategy in West Asia; global Sikhism during World War I where martyrs stood for and against the British Raj; and twenty-first-century Tibetan Buddhism where self-immolators used their bodies in opposition to the programs of the People's Republic of China. Presenting a new theory of martyrdom linked to constructions of sovereign authority, Soboslai reveals common features of self-sacrifice and demonstrates how bodily performances buttress conceptions of authority.

The Roman Martyrs Michael Lapidge, 2017-12-08 *The Roman Martyrs* contains translations of forty Latin *passiones* of saints who were martyred in Rome or its near environs during the period before the peace of the Church c. 312. Some of the Roman martyrs are universally known: SS Agnes, Sebastian, or Laurence, for example, but others are scarcely recognized outside the ecclesiastical landscape of Rome itself. Each of the translated *passiones* is accompanied by an individual introduction and commentary; the translations are preceded by an Introduction which describes the principal features of this little-known genre of Christian literature and are followed by five Appendices which present translated texts which are essential for understanding the cult of Roman martyrs. This volume offers the first collection of the Roman *passiones martyrum* translated into a modern language. They were mostly composed during the period 425-675 by anonymous authors who were presumably clerics of the Roman churches or cemeteries which housed the martyrs' remains. It is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards, at a time when authentic records, protocols of their trials and executions had long since vanished and the authors of the *passiones* were obliged to imagine the circumstances in which martyrs were tried and executed. The *passiones* are works of fiction and because they abound in ludicrous errors of chronology they have been largely ignored by historians of the early Church. Although they cannot be used as evidence for the original martyrdoms, they nevertheless allow a fascinating glimpse of the concerns which animated Christians during the period in question, for example, the preservation of virginity or the ever-present threat posed by pagan practices. As certain aspects of Roman life will have changed little between the second century and the fifth, the *passiones* shed valuable light on many aspects of Roman society, not least the nature of a trial before an urban prefect and the horrendous tortures which were a central feature of such trials. The *passiones* are an indispensable resource for understanding the topography of late antique Rome and its environs as they characteristically contain detailed reference to the places where the martyrs were tried, executed, and buried.
