**Petrarch's 'Fragmenta'** Thomas E. Peterson, 2016-01-01 Building on recent Petrarch scholarship and broader studies of medieval poetics poetic narrativity and biblical intertextuality this study argues that Petrarch's *Rerum vulgarium fragmenta* is an ordered and coherent work unified by narrative and theological structures The author begins with the premise that the multiple voices of the Petrarchan figure or subject call for a reading informed by historical and autobiographical considerations Within such a reading the internal chronology of the work coincides with a temporal framework provided by Petrarch's Latin prose and poetry Drawing on this material he argues that Petrarch's derivations from early poets in the Italian vernacular his Augustinianism and his humanism are manifest in the *Fragmenta* and contribute to its narrative and theological unity

**The Shadow Drawing** Francesca Fiorani, 2020-11-17 Insightful and beautiful A wonderful study of how Leonardo's art and science are interwoven

Walter Isaacson author of *Leonardo Da Vinci* A New York Times Book Review Editors Choice Shortly after Leonardo da Vinci's death his peers and rivals created the myth of the two Leonardos there was Leonardo the artist and then later in life Leonardo the scientist In this pathbreaking biographical interpretation the art historian Francesca Fiorani tells a very different and much more interesting story Taking a fresh look at Leonardo's celebrated but challenging notebooks and other sources Fiorani shows that Leonardo became fluent in science when he was still young man As an apprentice in a Florence studio he was especially interested in the science of optics He aspired to use this knowledge to capture as no artist before him had ever done the interior lives of his subjects to paint the human soul in its smallest tenderest motions and vicissitudes And then he hoped to take one further step to gather his scientific knowledge together in a book that would be even more important than his paintings In *The Shadow Drawing* Fiorani revises our understanding of Leonardo the artist's most renowned paintings and reconstructs the wisdom Leonardo the author hoped to impart The result is both a stirring biography and a bold reconsideration of how the Renaissance understood science and art and of what was lost when the two were sundered Fiorani's lively intellectual adventure gives us new understanding and appreciation of Leonardo's cross fertilization of art and science It is a perceptive biography of Leonardo exploring the frontiers of science but also a brilliantly informative guide to his paintings Ross King author of *Brunelleschi's Dome* *Leonardo and the Last Supper* and *Mad Enchantment*

modern counterparts Therefore this book stresses that the Renaissance is not predominantly a mirror of modernity but rather a period of stimulating difference or alterity The contributors to this collection of essays aim to create a better understanding of Renaissance biographies and portraits through the analysis and reconstruction of the traditions contexts backgrounds and circumstances of their production     Philosophical Letters Voltaire,2012-06-12 The voice of the Age of Reason remarks on English religion and politics during the early 18th century Quakers Church of England Presbyterians Anti Trinitarians Parliament government commerce plus essays on Locke Descartes and Newton     **Southern Literary Messenger** ,1861
