In particular it reveals Mao's views on such questions as the relationship between writers or works of literature and their audience or the nature and value of different kinds of literary products. In this translation and commentary Bonnie S McDougall finds that Mao was in fact ahead of many of his critics in the West and his Chinese contemporaries in his discussion of literary issues. Unlike the majority of modern Chinese writers deeply influenced by Western theories of literature and society including Marxism, Mao remained close to traditional patterns of thought and avoided the often mechanical or narrowly literal interpretations that were the hallmark of Western schools current in China in the early twentieth century. Many of the detailed discussions on the Talks in the West have been concerned with their political and historical significance. However, since Mao is a literary figure of some importance in twentieth century China, McDougall finds it worthwhile to follow up his published remarks on the nature and source of literature and the means of its evaluation. By better understanding the complex and revolutionary ideas contained in the Talks, McDougall suggests we may acquire the necessary analytical tools for a more fruitful investigation into contemporary Chinese literature.

Marxism and Modernism Eugene Lunn, 2023-04-28. Tillie Olsen and the Dialectical Philosophy of Proletarian Literature Anthony Dawahare, 2018-10-19. Contrary to previous studies of Tillie Olsen's writing, *Tillie Olsen and the Dialectical Philosophy of Proletarian Literature* analyzes the impact of one of the most important philosophies of the last century, dialectical materialism, on the form and content of Olsen's fiction. By revealing the unconceptualized dialectics of Olsen's work and its appreciation by scholars and casual readers, this study achieves a dialectical synthesis that incorporates and extends the insights of and about Olsen in terms of dialectical materialism. By foregrounding Olsen's dialectical approach, it explains and largely resolves apparent contradictions between her Marxism and feminism, her depictions of class, race, and gender, the literature of her earlier and later periods, and her use of realist and modernist literary forms and techniques. Consequently, this project makes a case for the importance of Olsen's Marxist education during the Red Decade of the 1930s and within the U.S. proletarian literary movement.
