Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy Marxian frameworks concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism Most crucially an attention to shifting cultural conditions has lead contemporary researchers to re confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today The SAGE Handbook of Marxism showcases this cutting edge of today's Marxism It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century A rigorous and challenging collection of scholarship this book contains a

stunning range of contributions from contemporary academics writers and theorists from around the world and across disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates **The Marx Dictionary** Ian Fraser, Lawrence Wilde, 2011-11-17 A concise and accessible dictionary of the key terms and concepts in Marx's writings his major works and influences from a philosophical perspective **Marx and Hegel on the Dialectic of the Individual and the Social** Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does Karl Marx's Theory of Revolution Vol. II Hal Draper, 1978 This is the second installment of Hal Draper's incomparable treatment of Marx's political theory policy and practice In forceful and readable language Draper ranges through the development of the thought of Marx and Engels on the role of classes in society This series Karl Marx's Theory of Revolution represents an exhaustive and definitive treatment of Marx's political theory policy and practice Marx and Engels paid continuing attention to a host of problems of revolution in addition to constructing their grand theory All these political and social analyses are brought together in these volumes as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work Draper's series is a massive and immensely valuable scholarly undertaking The bibliography alone will stand as a rich resource for years to come Yet despite the scholarly treatment the writing is direct forceful and unpedantic throughout and will appeal to the beginning student as much as the advanced reader **Austro-Marxism: The Ideology of Unity** Mark E. Blum, William T. Smaldone, 2015-09-29 This volume offers the essential theoretical thought of the Austro-Marxist thinkers Otto Bauer Max Adler Karl Renner Friedrich Adler Rudolf Hilferding and Otto Neurath over the span of their Austrian Social Democratic careers from the decades before World War I until the mid 1930s Austro-Marxist theoretical perspectives were conceived as social scientific tools for the issues that faced the development of socialism in their time The relevance of their thought for the contemporary world inheres in this
