Marx His Time And Ours:

Marx Rudolf Schlesinger,1950 Marx His Times and Ours Rudolf Schlesinger,2013-05-13 Published in 1998 Marx His Time and Ours is a valuable contribution to the field of Sociology and Social Policy *Marx* Rudolf Schlesinger,1998

Time, Labor, and Social Domination Moishe Postone,1996 Moishe Postone undertakes a fundamental reinterpretation of Karl Marx s mature critical theory He calls into question many of the presuppositions of traditional Marxist analyses and offers new interpretations of Marx s central arguments He does so by developing concepts aimed at grasping the essential character and historical development of modern society and also at overcoming the familiar dichotomies of structure and action meaning and material life These concepts lead him to an original analysis of the nature and problems of capitalism and provide the basis for a critique of actually existing socialism According to this new interpretation Marx identifies the core of the capitalist system with an impersonal form of social domination generated by labor and the industrial production process are characterized as expressions of domination generated by labor itself and not simply with market mechanisms and private property Proletarian labor and the industrial production process are characterized as expressions of domination rather than as means of human emancipation This reinterpretation entails the form of economic growth and the structure of social labor in modern society to the alienation and domination at the heart of capitalism This reformulation Postone argues provides the foundation for a critical social theory that is more adequate to late twentieth century capitalism **Technology and**

Oligopoly Capitalism Luis Suarez-Villa,2023-04-14 Technology and Oligopoly Capitalism is a major contribution to our understanding of how technology oligopolies are shaping America s social economic and political reality Technology oligopolies are the most powerful socioeconomic entities in America From cradle to grave the decisions they make affect the most intimate aspects of our lives how we work what we eat our health how we communicate what we know and believe whom we elect and how we relate to one another and to nature Their power over markets trade regulation and most every aspect of our governance is more intrusive and farther reaching than ever They benefit from tax breaks government guarantees and bailouts that we must pay for and have no control over Their accumulation of capital creates immense wealth for a minuscule elite deepening disparities while politics and governance become ever more subservient to their power They determine our skills and transform employment through the tools and services they create as no other organizations can They produce a vast array of goods and services with labor marketing and research that are more intrusively controlled than ever as workplace rights and job security are curtailed or disappear Our consumption of their products and their capacity to promote wants is deep and far reaching while the waste they generate raises concerns about the survival of life on our planet And their links to geopolitics and the martial domain are stronger than ever as they influence how warfare is waged and who will be vanquished Technology and Oligopoly Capitalism s critical multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena An inclusive approach spans the spectrum of technology

oligopolies and the ways in which they deploy their power Numerous previously unpublished ideas expand the repertory of established work on the topics covered advancing explanatory quality to elucidate how and why technology oligopolies operate as they do the dysfunctions that accompany their power and their effects on society and nature This book has no peers in the literature in its scope the unprecedented amount and diversity of documentation the breadth of concepts and the vast number of examples it provides Its premises deserve to be taken into account by every student researcher policymaker and author interested in the socioeconomic and political dimensions of technology in America

The Social Relations of Physics, Mysticism, and Mathematics S. Restivo, 2012-12-06 The problems I address in this book are among the least studied in the sociology of science and knowledge Part I is a critique of the claim that there are parallels between ancient mysticism and modern physics and a sociological analysis of this claim as a strategy in intellectual conflict This study must ultimately be rooted more firmly in a type of sociology of knowledge that is just now beginning to crystallize and which I discuss in Chapter 7 and a sociology of religion that is not so much unknown as underground and timid that is a non worshipful materialist sociology of religion My study of physics mysticism parallelism is a vehicle for exploring epistemic strategies I thus conclude Part I by sketching a materialist emancipatory epistemic strategy My conclusion brings together a number of ideas formulated by myself and others over the past several years but stops short of a systematic synthesis A more integrated and coherent model than what I can sketch here must wait on the results of research now in progress in the critical as opposed to apologetic or worshipful sociology of knowledge

Nationalism and Socialism Horace B. Davis, 1967 Study of historical political theory and social theory with particular reference to late 19th century and early 20th century nationalist socialist and communist ideology covers the theory of Hegel Marx Engels Bakunin Lassalle and others and refers to political party and trade union activities labour movements and other social movements national level and international aspects social leadership political leadership etc Bibliography pp 237 to 243 and references

Main Currents in Sociological Thought Raymond Aron, 2017-07-12 This is the first of Raymond Aron's magisterial two volume treatment of the sociological tradition perhaps the definitive work of its kind The second volume treating Durkheim Pareto and Weber is scheduled to appear in spring 1998 More than a work of reconstruction Aron's study is at its deepest level an engagement with the question of modernity What constitutes the essence of the new modern order that having emerged in the eighteenth century still forms the categories of our experience sweeping us along toward an unknown destination With his usual scrupulous fairness Aron looks to the major social thinkers to discern how they answered this pressing question Volume 1 explores three traditions the French liberal school of political sociology represented by Montesquieu and Tocqueville the Comtean tradition anticipating Durkheim in its deemphasis of the political and its elevation of social unity and consensus and the Marxists who posited the struggle between classes and placed their faith in historical necessity A foreword by the eminent French philosopher Pierre Manent highlights Main Currents as a unique contribution to political philosophy as well

as the history of sociological thought while Daniel J Mahoney and Brian C Anderson provide an introduction situating Main Currents within the corpus of Aron's work as a whole This work is essential reading for philosophers historians sociologists and political scientists *The Making of Marx's Capital Volume 1* Roman Rosdolsky,1992-01-01 A major work of interpretation and criticism written over fifteen years by one of the foremost representatives of the European Marxist tradition Rosdolsky investigates the relationship between various versions of Capital and explains the reasons for Marx's successive reworkings he provides a textual exegesis of Marx's Grundrisse now widely available and reveals its methodological riches He presents a critique of later work in the Marxist tradition on the basis of Marx's fundamental distinction between capital in general and capital in concrete reality The Making of Marx's Capital was first published in 1968 as *Zur Entstehungsgeschichte des Marx'schen Kapital* **Main Currents in Sociological Thought: Volume One** Raymond Aron,2025-05-06 The first volume of the landmark study tracing the emergence and formation of sociological thought from the French liberal school to the Marxists Main Currents in Sociological Thought remains a foundational synthesis in the field In this first part of his magisterial two volume survey Raymond Aron embraces an expansive definition of sociology that merges empirical inquiry with historical and social analysis At its core Aron's work is an engagement with the very question of modernity How did the intellectual currents that emerged in the eighteenth century shape the modern political and philosophical order With scrupulous fairness Aron examines the thoughts and arguments of the discipline's major social thinkers to discern how they answered this question Volume 1 explores three traditions the French liberal school of political sociology represented by Montesquieu and Tocqueville the Comtean tradition anticipating Durkheim in its elevation of social unity and consensus and the Marxists who posited the struggle between classes and placed their faith in historical necessity Written with his customary lucid elegance of thought and style Aron's work is essential reading for students across the social sciences **Studies in the Labor Theory of Value** Ronald L. Meek,1956 This pioneering survey of the development of the labor theory of value advances Marxian economic categories for contemporary conditions

Uncommon Sense Craig Leonard,2022-09-27 An examination of Herbert Marcuse's political claim for the aesthetic dimension focusing on defamiliarization as a means of developing radical sensibility In Uncommon Sense Craig Leonard argues for the contemporary relevance of the aesthetic theory of Herbert Marcuse an original member of the Frankfurt School and icon of the New Left while also acknowledging his philosophical limits His account reinvigorates Marcuse for contemporary readers putting his aesthetic theory into dialogue with antiracist and anti capitalist activism Leonard emphasizes several key terms not previously analyzed within Marcuse's aesthetics including defamiliarization anti art and habit In particular he focuses on the centrality of defamiliarization a subversion of common sense that can be a means to the development of what Marcuse refers to as radical sensibility Leonard brings forward Marcuse's claim that the aesthetic dimension is political because of its refusal to operate according to the repressive common sense that establishes and

maintains relationships dictated by advanced capitalism For Marcuse defamiliarization is at the center of the aesthetic dimension offering the direct means of stimulating its political potential Leonard expands upon Marcuse s aesthetics by drawing on the work of Sylvia Wynter going beyond Marcuse s predominantly European and patrilineal intellectual framework while still retaining his aesthetic theory s fundamental characteristics toward a human dimension requiring decolonial feminist antiracist and counterpoetic perspectives The Cambridge Companion to Marx Terrell

Carver,1991-10-25 In the wake of political collapse in Eastern Europe the intellectual influence of Marx s thought requires re appraisal Backed by current debate and new perspectives this volume provides comprehensive coverage of his significant contributions *Contemporary Soviet Government* L.G. Churchward,2024-04-12 Contemporary Soviet Government 1975 is a leading study of the practice of Soviet government examined against a background of Soviet Marxism It presents an analysis of the Soviet political system since the death of Stalin and places considerable emphasis on the role of state as distinct from Party organisations as the author contends that these are more important than commonly realised in the West

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1951 Includes Part 1A Books and Part 1B Pamphlets Serials and Contributions to Periodicals **Aesthetic Marx** Samir Gandesha,Johan F. Hartle,2017-10-19 The whole of Marx s project confronts the narrow concerns of political philosophy by embedding it in social philosophy and a certain understanding of the aesthetic From those of aesthetic production to the poetry of the future as Marx writes in the Eighteenth Brumaire from the radical modernism of bourgeois development to the very idea of association which defined one of the main lines of tradition in the history of aesthetics steady references to Dante Shakespeare and Goethe and the idea that bourgeois politics is nothing but a theatrical stage the aesthetic has a prominent place in the constellation of Marx s thought This book offers an original and challenging study of both Marx in the aesthetic and the aesthetic in Marx It differs from previous discussions of Marxist aesthetic theory as it understands the works of Marx themselves as contributions to thinking the aesthetic This is an engagement with Marx s aesthetic that takes into account Marx s broader sense of the aesthetic as identified by Eagleton and Buck Morss as a question of sense perception and the body It explores this through questions of style and substance in Marx and extends it into contemporary questions of how this legacy can be perceived or directed analytically in the present By situating Marx in contemporary art debates this volume speaks directly to lively interest today in the function of the aesthetic in accounts of emancipatory politics and is essential reading for researchers and academics across the fields of political philosophy art theory and Marxist scholarship **Technical Abstract Bulletin** Defense Documentation Center (U.S.),1964 Aspects of History and Class Consciousness Istvan Meszaros,2016-03-31 The various contributions in this book originally published in 1971 discuss many aspects of the complex subject of history and class consciousness and the themes that are dealt with are all inter related The papers range from history and sociology through political theory and philosophy to art criticism and literary criticism Georg Luk cs classic work History and Class

Consciousness is discussed in several of the essays and the volume is prefaced by a letter from Georg Lukács to István Mészáros. Marxism, an Historical and Critical Study George Lichtheim, 1965 Marxism presents an authoritative analytic survey of the course of Marxism from its origins in the late eighteenth century through the post World War II period A classic of political history this work is the culminating achievement of one of the leading historians of socialism.
