**The General Theory of Law and Marxism** Evgeny Pashukanis, 2017-09-04

E. B. Pashukanis was the most significant contemporary to develop a fresh new Marxist perspective in post revolutionary Russia. In 1924 he wrote what is probably his most influential work *The General Theory of Law and Marxism*. In the second edition 1926 he stated that this work was not to be seen as a final product but more for self clarification in hopes of adding stimulus and material for further discussion. A third edition was printed in 1927. Pashukanis's commodity exchange theory of law spearheaded a perspective that traced the form of law not to class interests but to capital logic itself. Until his death he continued to argue for the ideal of the withering away of the state law and the juridic subject. He eventually arrived at a position contrary to Stalin's who at that time was attempting to consolidate and strengthen the state apparatus under the name of the dictatorship of the proletariat. Inevitably Pashukanis was branded an enemy of the revolution in January 1937. His

works were subsequently removed from soviet libraries In 1954 Pashukanis was rehabilitated by the Soviets and restored to an acceptable position in the historical development of marxist law In Europe and North America a number of legal theorists only rediscovered Pashukanis s work in the late 1970s They subjected it to careful critical analysis and realized that he offered an alternative to the traditional Marxist interpretations which saw law simply and purely as tied to class interests of domination By the mid 1980s the instrumental Marxist perspective in vogue in Marxist sociology criminology politics and economics gave way to a significant extent due to Pashukanis s insights to a more structural Marxist accounting of the relationship of law to economics and other social spheres In his new introduction Dragan Milovanovic discusses the life of Pashukanis Marx and the commodity exchange theory of law and the historical lessons of Pashukanis s work This bo

*Marxism, Christianity, and Islam* Julian Roche,2024-02-20 Roger Garaudy was for many years at the centre of the French Communist Party but was eventually expelled for his liberal views In the Seventies he strove to bring Marxism and Christianity together to include all humanity in a project to set all people free What emerges from Garaudy s project is a very modern Marxism with its emphasis on the individual its ecological politics and in its insistence on religion as central to human emancipation Although Garaudy himself became frustrated by the failure of Marxism and converted to Islam eventually resulting in his work being discredited in the West it is certainly possible that Garaudy s project represents a good perhaps even the best starting point for Marxism in today s world
