In the final volume *The Promise of Education* universal pre kindergarten Head Start and the education of immigrant children are all explored **Cancer Research in Hispanic Populations in the United States** ,1995 **The Psychology of Women under Patriarchy** Holly F. Mathews,Adriana M. Manago,2019-11-15 In the MeToo era US women continue to struggle with whether or not to report sexual harassment while women living in parts of rural Pakistan and Mexico try to pursue educational and employment opportunities without directly refusing parental wishes for them to marry Despite rapidly changing social and economic conditions worldwide patriarchal practices remain remarkably widespread and persistent Noting the need to move beyond a dichotomy of accommodation and resistance the contributors to this volume draw upon field research and in depth qualitative data from different parts of the world to explore the reasons for women s varied psychological responses to patriarchy These feminist scholars bridge preexisting divides between bio psychological sociological and cultural perspectives to explain the ways that women s desires goals and identities interact with culturally situated systems in order to develop more complex theories about the psychological underpinnings of patriarchy and to inform more socially progressive policies to improve the lives of women and men globally **Listening to Rosita** Mary Ann Villarreal,2015-10-20 Everybody in the bar had to drop a quarter in the jukebox or be shamed by Momo Villarreal It wasn t about the money Mary Ann Villarreal s grandmother insisted It was about the music more songs for all the patrons of the Pecan Lounge in Tivoli Texas But for Mary Ann whose schoolbooks those quarters bought the money didn t hurt When as an adult Villarreal began to wonder how the few recordings of women singers made their way into that jukebox questions about the money seemed inseparable from those about the music In *Listening to Rosita* Villarreal seeks answers by pursuing the story of a small group of Tejana singers and entrepreneurs in Corpus Christi Houston and San Antonio the Texas Triangle during the mid twentieth century Ultimately she recovers a social world and cultural landscape in central south Texas where Mexican American women negotiated the shifting boundaries of race and economics to assert a public presence Drawing on oral history interviews and insights from ethnic and gender studies *Listening to Rosita* provides a counternarrative to previous research on la m sica tejana which has focused almost solely on musicians or musical genres Villarreal instead chronicles women s roles and contributions to the music industry In spotlighting the sixty year singing career of San Antonian Rosita Fern ndez the author pulls the curtain back on all the women whose names and stories have been glaringly absent from the ethnic and economic history of Tejana music and culture In this oral history of the Tejana cantantes who performed and owned businesses in the Texas Triangle *Listening to Rosita* shows how ethnic Mexican entrepreneurs developed a unique identity in striving for success in a society that demeaned and segregated them In telling their story this book supplies a critical chapter long missing from the history of the West *Latina Adolescent Childbearing in East Los Angeles* Pamela I. Erickson,2010-05-28 Preventing teen pregnancy has become a national goal but a one size fits all strategy for achieving it may never be found Because varying social and cultural factors lead to pregnancy among different ethnic

class groups understanding these factors is essential in designing pregnancy prevention programs that work This book explores the factors that lead to childbearing among Latina adolescents Pamela Erickson draws on both quantitative data and case histories to trace the pathways to motherhood for Latina teens After situating her study within current research on teen pregnancy she looks specifically at teen mothers enrolled in programs at Women s Hospital in East L A She describes the teens relationships to their babies fathers and their own families and discusses how these relationships affect whether teen mothers want to become pregnant their use of prenatal postpartum and family planning services and their ability to prevent a repeat pregnancy Erickson describes culturally appropriate intervention efforts and assesses the limitations of prevention programs in institutional settings such as schools and clinics

On the Edge of the Law Chad Richardson, Rosalva

Resendiz, 2009-01-27 The Valley of South Texas is a region of puzzling contradictions Despite a booming economy fueled by free trade and rapid population growth the Valley typically experiences high unemployment and low per capita income The region has the highest rate of drug seizures in the United States yet its violent crime rate is well below national and state averages The Valley s colonias are home to the poorest residents in the nation but their rates of home ownership and intact two parent families are among the highest in the country for low income residential areas What explains these apparently irreconcilable facts Since 1982 faculty and students associated with the Borderlife Research Project at the University of Texas Pan American have interviewed thousands of Valley residents to investigate and describe the cultural and social life along the South Texas Northern Mexico border In this book Borderlife researchers clarify why Valley culture presents so many apparent contradictions as they delve into issues that are on the edge of the law traditional health care and other cultural beliefs and practices displaced and undocumented workers immigration enforcement drug smuggling property crime criminal justice and school dropout rates The researchers findings make it plain that while these issues present major challenges for the governments of the United States and Mexico their effects and contradictions are especially acute on the border where residents must daily negotiate between two very different economies health care school and criminal justice systems and worldviews

I Don't Cry, But I Remember Joyce Lackie, 2012-11-01

When Viviana Salguero came to the United States in 1946 she spoke very little English had never learned to read or write and had no job skills besides housework or field labor She worked eighteen hour days and lived outdoors as often as not And yet she raised twelve children shielding them from her abusive husband when she dared and shared in both the tragedies and accomplishments of her family Through it all Viviana never lost her love for Mexico or her gratitude to the United States for what would eventually become a better life Though her story is unique Viviana Salguero could be the mother grandmother or great grandmother of immigrants anywhere struggling with barriers of gender education language and poverty In *I Don't Cry But I Remember* Joyce Lackie shares with us an intimate portrait of Viviana s life Based on hours of recorded conversations Lackie skillfully translates the interviews into an engaging revealing narrative that details the migrant experience from a woman s

point of view and fills a gap in our history by examining the role of women of color in the American Southwest The book presents Vivana s life not only as a chronicle of endurance but as a tale of everyday resistance What she lacks in social confidence political strength and economic stability she makes up for in dignity faith and wisdom Like all good oral history Salguero s accounts and Lackie s analyses contribute to our understanding of the past by exposing the inconsistencies and contradictions in our remembrances This book will appeal to ethnographers oral historians students and scholars of Chicana studies and women s studies as well as general readers interested in the lives of immigrant women Families in Context Gene H.
