[Pranksters](#) Kembrew McLeod, 2014-04-01 From Benjamin Franklin's newspaper hoax that faked the death of his rival to Abbie Hoffman's attempt to levitate the Pentagon pranksters hoaxers and con artists have caused confusion disorder and laughter in Western society for centuries Profiling the most notorious mischief makers from the 1600s to the present day *Pranksters* explores how pranks are part of a long tradition of speaking truth to power and social critique Invoking such historical and contemporary figures as P T Barnum Jonathan Swift

WITCH The Yes Men and Stephen Colbert Kembrew McLeod shows how staged spectacles that balance the serious and humorous can spark important public conversations In some instances tricksters have incited social change and unfortunate prank blowback by manipulating various forms of media from newspapers to YouTube For example in the 1960s self proclaimed professional hoaxer Alan Abel lampooned America s hypocritical sexual mores by using conservative rhetoric to fool the news media into covering a satirical organization that advocated clothing naked animals In the 1990s Sub Pop Records then receptionist Megan Jasper satirized the commodification of alternative music culture by pranking the New York Times into reporting on her fake lexicon of grunge speak Throughout this book McLeod shows how pranks interrupt the daily flow of approved information and news using humor to underscore larger pointed truths Written in an accessible story driven style Pranksters reveals how mischief makers have left their shocking entertaining and educational mark on modern political and social life

Jewish Space Lasers Mike Rothschild,2023-09-19 With the current rise of antisemitism this important book looks at how one Jewish family the Rothschilds became a lightning rod for the conspiracy theories of the last two centuries and how those theories are still very much alive today In 2018 Congresswoman Marjorie Taylor Greene took to social media to share her suspicions that the California wildfires were started by space solar generators which were funded by powerful mysterious backers Instantly thousands of people rallied around her blaming the fires on Jewish space lasers and ultimately the Rothschild family For more than 200 years the name Rothschild has been synonymous with two things great wealth and conspiracy theories about what they re really doing with it Almost from the moment Mayer Amschel Rothschild and his sons emerged from the Jewish ghetto of Frankfurt to revolutionize the banking world the Rothschild family has been the target of myths hoaxes bizarre accusations and constant virulent antisemitism Over the years they have been blamed for everything from the sinking of the Titanic to causing the Great Depression and even creating the COVID 19 pandemic Jewish Space Lasers The Rothschilds and 200 Years of Conspiracy Theories is a deeply researched dive into the history of the conspiracy industry around the Rothschild family from the pamphlet wars of Paris in the 1840s to the dankest pits of the internet today Journalist and conspiracy theory expert Mike Rothschild who isn t related to the family sorts out myth from reality to find the truth about these conspiracy theories and their spreaders Who were the Rothschilds Who are they today Do they really own 500 trillion and every central bank in addition to controlling the British money supply Is any of this actually true And why even as their wealth and influence have waned do they continue to drive conspiracies and hoaxes

Congressional Record United States. Congress,1971 **Soul-Less-Society** Angeline Marie,2023-11-28 In Soul Less Society Angeline Marie delivers a passionate wake up call to Americans by exploring the spiritual battle behind our nation s decline from prosperity to moral decay Drawing on biblical principles and extensive research she exposes the systematic dismantling of Christian values that once formed America s foundation From government overreach and banking corruption to media manipulation and educational indoctrination Marie traces how globalist elites have orchestrated America s spiritual

and cultural collapse not merely as political strategy but as spiritual warfare She uncovers concerning connections between international organizations technological surveillance and the push toward a new world order that threatens individual freedoms With unflinching analysis Marie examines controversial topics including abortion gender ideology the pandemic response and China's growing influence arguing that all are symptoms of a society that has rejected God Yet despite the bleak assessment the book concludes with a message of hope and spiritual empowerment providing readers with biblical strategies to reclaim their nation through faith Both a political commentary and spiritual guidebook Soul Less Society challenges readers to recognize the true nature of America's conflicts and reclaim their nation through prayer biblical principles and informed civic engagement A rallying cry for Christians to become active in preserving religious freedom and traditional values before it's too late If you enjoyed The Babylon Code The Return of the Gods and The Great Reset you'll love Soul Less Society

The Politics of Righteousness James A. Aho, 2014-04-15 From their home bases in Idaho and neighboring areas of the Northwest organizations such as the Order the Aryan Nations Church the Posse Comitatus and the Golden Mean Society have drawn national attention and spread the gospel of a constitutionally pure Christian homeland For the reader who knows these groups only from a selection of inflammatory quotes and violent deeds this compelling work presents the first disciplined exploration of the backgrounds and belief systems of the Christian patriot movement Using information gathered from interviews and direct observation of patriot gatherings Aho replaces the stereotype of solitary crazies from the fringes of society with more complex and disturbing realities

West to East: A New Global Economy in the Making? Arno

J. van Niekerk, 2025-09-19 This book covers new trends in the global economy as a result of geopolitical shifts. Given the rise of the East, especially China and India, and strong Arab economies in the Middle East, clear signs are emerging that the axis of power may be shifting from the West (America and Europe) to the East. This shift, including any intentions towards de-dollarization, plus its implications, need to be thoroughly investigated. In addition, the influence of the digital revolution in finance, cryptocurrencies, CBDCs, FinTech, etc., are changing the global landscape. What also cannot be overlooked are the disruptive effects caused by the new Trump administration in the United States on the global economy. A key question is: what are the implications of these significant global developments for economic sustainability? Are researchers and policymakers seeing a new form of capitalism emerging, or is it new socialism? Achieving the Sustainable Development Goals (SDGs) remains a high priority to most countries around the world, but the progress of many has been derailed by the COVID-19 pandemic. If economic inclusion as part of the SDGs remains a central objective, these latest developments will have a significant impact on it going forward, especially in view of growing geopolitical tension. The role of global economic institutions will be crucial in furthering globalization or preventing de-globalization. A higher level of international collaboration, especially from an inclusive economic perspective, will be needed to steer the global economy in a direction that will result in genuine economic progress for all. Addressing all these aspects, the book specifically includes the following special features: comparative trends, graphs and tables of the geopolitical and geoeconomic shifts over the past few decades, illustrations of changes in the financial system, new analyses of traditional economic theories (e.g., capitalism and socialism), criteria for an inclusive economy, and how they help to attain the SDGs. New dissections of the digital revolution in the context of the geopolitical shifts and proposals on how to deal with the challenges from a global economic governance perspective. Sustainable economic progress is paramount, but the challenge of balancing global priorities, geopolitical forces, and inclusive innovation requires comprehensive investigation. In a world where power is fluctuating, technologies are transforming the economy, and global norms are being rewritten, this book offers timely insights into how inclusive and sustainable economic futures can still be imagined and realized. Information Service, 1928 Prosperous Society, The: From Economics Of Scarcity To Economics Of Abundance Yoram Kirsh, 2023-11-17 The classical economic theory fails to truly describe the economies of prosperous societies. This is because traditional economics deals with the allocation of resources in conditions of shortage, while the urgent economic problems of a prosperous society are mainly associated with conditions of abundance. This book presents the hallmarks of a prosperous society and analyzes the special problems that it faces. It differentiates between the two types of economies: the traditional one which is based on scarcity, and the prosperous economy which is able to fulfill almost everyone's needs. The book analyzes what motivates these two types of economies, what challenges them, and what features or manifestations of success and failures characterize their current statuses and their futures. This book is an original and pioneering work. It analyzes the economy of the prosperous society from the perspective of the third decade of the 21st

century It is an interesting engaging text on a theme that we seldom see and read about *Corporate Strategies in Recession and Recovery (Routledge Revivals)* Richard Whittington, 2014-06-03 First published in 1989 this book is based on detailed comparative case studies of eight firms responses to the recession of the early 1980s the worst crisis for British manufacturing in the post war period Following these companies progress from 1979 to 1985 Whittington examines the various recession strategies they adopted and the consequences of these for management change and financial performance in the recovery Drawing on the Realist social theory of Roy Bhaskar Whittington argues that the class gender generation and ethnicity of the decision makers involved in the eight case studies collectively made an impact on their strategic choices This is a timely and practical reissue which will be of value to students managers and academics concerned with strategic management developments in organizational theory and the current economic climate **Territories of Poverty** Ananya Roy, Emma Shaw Crane, 2015-11-15 Territories of Poverty challenges the conventional North South geographies through which poverty scholarship is organized Staging theoretical interventions that traverse social histories of the American welfare state and critical ethnographies of international development regimes these essays confront how poverty is constituted as a problem In the process the book analyzes bureaucracies of poverty poor people s movements and global networks of poverty expertise as well as more intimate modes of poverty action such as volunteerism From post Katrina New Orleans to Korean church missions in Africa this book is fundamentally concerned with how poverty is territorialized In contrast to studies concerned with locations of poverty Territories of Poverty engages with spatial technologies of power be they community development and counterinsurgency during the American 1960s or the unceasing anticipation of war in Beirut Within this territorial matrix contributors uncover dissent rupture and mobilization This book helps us understand the regulation of poverty whether by globally circulating models of fast policy or vast webs of mobile money or philanthrocapitalist foundations as multiple terrains of struggle for justice and social transformation The Authentic Constitution Arthur E. Palumbo, 2009 In 2008 Alan Keyes a Republican presidential candidate in 1996 and 2000 described the relationship between the Declaration of Independence and the Constitution of the United States in the following way The doctrine of unalienable rights is to the Constitution what the laws of physics are to architecture or engineering Those laws are not repeated in every plan or architect s drawing but they are assumed and must be respected or the results will be defective and dangerous It is clear that the founding principles of the Declaration are intimately connected with the Constitution and it
