Pound, 2015-11-19 In the summer of 1936 Ezra Pound agreed to take on the role of European Correspondent for a newly launched travel journal entitled *Globe* The International Magazine Ezra Pound and *Globe* Magazine The Complete

Correspondence collects for the first time Pound's writings for the journal and his extensive correspondence with one of its editors James Taylor Dunn and the leading writers who Pound himself attempted to recruit for the magazine. Numbering almost forty letters and twenty published and unpublished articles, these writings represent a darkly significant time in Pound's thought as his infatuation with the rise of fascism took root. Annotated throughout and supported by substantial explorations of the historical and cultural contexts of the writings, the book also includes a substantial bibliography of related writings and a biographical glossary of the major figures discussed in the correspondence and writing. Together, these texts represent an important resource for anyone interested in an important phase of 20th Century literary modernism.

Thomas Merton and James Laughlin Thomas Merton, James Laughlin, 1997. Cloistered in a remote Kentucky monastery, Thomas Merton struggled as a young man to reconcile his preferred contemplative life and his public passion for writing. Here is the remarkable development of Thomas Merton, monk, poet, and social critic, as documented in nearly 30 years of correspondence with his mentor and publisher James Laughlin.

William Carlos Williams Review, 1994

The Presence of Pessoa George Monteiro, 2014-10-17. Fernando Pessoa (1888-1935) is perhaps the most engaging of the great Western modernists of this century. Born in Portugal but raised and educated in southern Africa, Pessoa wrote poetry, fiction, and nonfiction. George Monteiro provides refreshingly new interpretations of Pessoa's *Mensagem* (Message) and the modernist novella *O Banqueiro Anarquista* (The Anarchist Banker). But he is primarily interested in tracing Pessoa's influence on a wide range of contemporary writers. Among those Monteiro finds putting Pessoa's work to their own surprising and sometimes comic uses are Joyce, Carol Oates, Allen Ginsberg, John Wain, Lawrence Ferlinghetti, and earlier poets including Thomas Merton, Edouard Roditi, and Roy Campbell. In addition, the complete text of Campbell's pioneering biocritical study of Pessoa is published here for the first time.

American Culture Between the Wars Walter B. Kalaidjian, 1993. This study examines the feminist, African American, and populist avant-garde that flourished in the era of American modernism.

American Literature and the Destruction of Knowledge Ronald E. Martin, 1991. This challenging study of a number of American writers belongs in the tradition of the history of ideas approach to literary history. It offers an analysis of American literary developments and the relationship between writers and the philosophical and social thought of their times. Martin examines the works of Emerson, Whitman, Dickinson, Crane, Frost, Pound, Hemingway, Dos Passos, Stevens, Williams, and several others with a sharp eye for the artistic consequences of changing epistemological assumptions and for the connection of ideas and form. ISBN 0 8223 1125 9 29 95.

Dictionary Poetics Craig Dworkin, 2020-05-05. The new ways of writing pioneered by the literary avant-garde invite new ways of reading commensurate with their modes of composition. *Dictionary Poetics* examines one of those modes: book-length poems from Louis Zukofsky to Harryette Mullen, all structured by particular editions of specific dictionaries. By reading these poems in tandem with their source texts, Dworkin puts paid to the notion that even the most abstract and fragmentary avant-garde literature is nonsensical, meaningless, or impenetrable. When read

from the right perspective passages that at first appear to be discontinuous irrational or hopelessly cryptic suddenly appear logically consistent rationally structured and thematically coherent Following a methodology of critical description Dictionary Poetics maps the material surfaces of poems tracing the networks of signifiers that undergird the more familiar representational schemes with which conventional readings have been traditionally concerned In the process this book demonstrates that new ways of reading can yield significant interpretive payoffs open otherwise unavailable critical insights into the formal and semantic structures of a composition and transform our understanding of literary texts at their most fundamental levels
