The Oxford Illustrated History of the First World War Hew Strachan, 1998 **Oxford Illustrated History British Army/Royal Navy 2-Vol Set** Hill Chandler, 1997-06-02 *Colonial Empires and Armies, 1815-1960* Victor Gordon Kiernan, 1998

Beginning with the post Napoleonic era this volume presents all the major episodes of an often dramatic story in which the military agents of European imperialism met the peoples of the rest of the world in armed conflict **The Indian**

Rebellion, 1857-1859 Kaushik Roy, 2024-12-30 The Indian Rebellion 1857-1859 A Military History in the Global Context focuses on the military dimension of this conflict in which Indian rebels waged both conventional and unconventional warfare against the British In the summer of 1857 British rule almost disintegrated in north India due to the rebellion of the Indians

in the Bengal Army The military mutiny was followed by large scale peasant uprising But by mid 1859 the Indian Rebellion collapsed with the military defeat of the rebels This book is the first one based on archival sources both from India and the United Kingdom dealing with the military history of the mid nineteenth century Indian Rebellion The volume wrestles with the questions of why and how the British won ipso facto and why and how the rebels lost The book also situates the military experience of the mid nineteenth century Indian subcontinent within a global context Besides traditional themes like strategy tactics technology command and logistics the topics introduced by new military history such as experiences of war impact on society and the construction of identities are addressed throughout The Indian Rebellion 1857 1859 is essential for students and researchers of military history modern Indian history and British Imperial history **War, Culture and Society in**

Early Modern South Asia, 1740-1849 Kaushik Roy, 2011-03-30 This book argues that the role of the British East India Company in transforming warfare in South Asia has been overestimated Although it agrees with conventional wisdom that before the British the nature of Indian society made it difficult for central authorities to establish themselves fully and develop a monopoly over armed force the book argues that changes to warfare in South Asia were more gradual and the result of more complicated socio economic forces than has been hitherto acknowledged The book covers the period from 1740 when the British first became a major power broker in south India to 1849 when the British eliminated the last substantial indigenous kingdom in the sub continent Placing South Asian military history in a global comparative context it examines military innovations armies and how they conducted themselves navies and naval warfare major Indian military powers such as the Mysore and Khalsa kingdoms the Maratha confederacy and the British explaining why they succeeded

The Politics of Provisions Professor John Bohstedt, 2013-06-28 The elemental power of food politics has not been fully appraised Food marketing and consumption were matters of politics as much as economics as England became a market society In times of dearth concatenations of food riots repression and relief created a maturing politics of provisions Over three centuries some eight hundred riots crackled in waves across England Crowds seized wagons attacked mills and granaries and lowered prices in marketplaces or farmyards Sometimes rioters parleyed with magistrates More often both acted out a well rehearsed political minuet that evolved from Tudor risings and state policies down to a complex culmination during the Napoleonic Wars Provision politics thus comprised both customary negotiations over scarcity and hunger and negotiations of the social vessel through the turbulence of dearth Occasionally troops killed rioters or judges condemned them to the gallows but increasingly riots prompted wealthy citizens to procure relief supplies In short food riots worked in a sense they were a first draft of the welfare state This pioneering analysis connects a generation of social protest studies spawned by E P Thompson's essay on the moral economy with new work on economic history and state formation The dynamics of provision politics that emerged during England's social economic and political transformations should furnish fruitful models for analyses of total war and famine as well as broader transitions elsewhere in world history The Purpose

of the First World War Holger Afflerbach, 2015-07-01 Nearly fourteen million people died during the First World War But why and for what reason Already many contemporaries saw the Great War as a pointless carnage Pope Benedict XV 1917 Was there a point at least in the eyes of the political and military decision makers How did they justify the losses and why did they not try to end the war earlier In this volume twelve international specialists analyses and compares the hopes and expectations of the political and military leaders of the main belligerent countries and of their respective societies It shows that the war aims adopted during the First World War were not for the most part the cause of the conflict but a reaction to it an attempt to give the tragedy a purpose even if the consequence was to oblige the belligerents to go on fighting until victory The volume tries to explain why and for what the contemporaries thought that they had to fight the Great War **The Imjin and Kapyong Battles** S.P. MacKenzie, 2013-03-12 An excellent history of a massive Communist offensive and the brigades that resisted it H War The sacrifice of the British regiment known as the Glorious Glosters in defense of the Imjin River line and the hilltop fights of Australian and Canadian battalions in the Kapyong Valley have achieved great renown Using official and unofficial source material ranging from personal interviews to war diaries this in depth study the first of its kind seeks to disentangle the mythology surrounding both battles and explain why events unfolded as they did Based on thorough familiarity with all available sources many not previously utilized it sheds new light on fighting the forgotten war In Korea on the night of 22nd April 1951 communist forces unleashed what remains to this day their greatest offensive since Zhukov's storm on Berlin In the desperate fighting that followed the key flanks of free world forces were held by one British and one Commonwealth brigade The former took on a Chinese army the latter a Chinese division Six decades later an American historian has dismantled the barriers between Australian British Canadian and New Zealand accounts of those whirlwind days to compose the only comparative analysis of the tragedy on the Imjin and the stand at Kapyong Andrew Salmon author of *Scorched Earth Black Snow Britain and Australia in the Korean War 1950* The Victorian Soldier in Africa Edward Spiers, 2004 This book re examines the campaign experience of British soldiers in Africa during the period 1874 1902 It uses using a range of sources such as letters and diaries to allow soldiers to speak for themselves about their experience of colonial **A Companion to Nineteenth-Century Britain** Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading *NATO and Peace Support Operations, 1991-1999* Henning A. Frantzen, 2004-12-17 This new book addresses the key question of how NATO and three of its member states are configuring their policies and military doctrines in order to handle the new strategic environment This environment is increasingly dominated by new wars more precisely civil wars within states and peacekeeping as the strategy devised by outside actors for dealing with them The book seeks to explain how this new

strategic environment has been interpreted and how the new conflicts and peacekeeping have been fitted into defence and war key concepts in the field of security studies Air University Library Index to Military Periodicals ,1997 *Britain in Egypt* Jayne Gifford,2019-12-12 Egypt under the British tends to be looked at now through a post Suez lens an inevitable disaster and the last puncturing of a doomed empire But in fact Egypt for many years was the cornerstone of British success across the Middle East and North Africa This image of empire was shattered after the First World War by the development of nationalism in Egypt the foundation and growth of the nationalist Wafd party led by Saad Zaghlul and the creation of the Muslim Brotherhood in 1928 Throughout this period Britain continued to control the Nile Valley under Field Marshal Allenby and then George Lloyd through a policy of deliberate containment of nationalism and a slow relinquishing of powers culminating in the Anglo Egypt Treaty of 1936 This book will be the first to study that process in the Nile Valley in any great detail and contains previously unpublished primary sources **Motivation in War** Ilya Berkovich,2017-01-16 This book fundamentally revises our notion of why soldiers of the eighteenth century enlisted served and fought In contrast to traditional views of the brutal conditions supposedly prevailing in old regime armies Ilya Berkovich reveals that soldiers did not regard military discipline as illegitimate or unnecessarily cruel nor did they perceive themselves as submissive military automatons Instead he shows how these men embraced a unique corporate identity based on military professionalism forceful masculinity and hostility toward civilians These values fostered the notion of individual and collective soldierly honour which helped to create the bonding effect which contributed toward greater combat cohesion Utilising research on military psychology and combat theory and employing the letters diaries and memoirs of around 250 private soldiers and non commissioned officers from over a dozen different European armies *Motivation in War* transforms our understanding of life of the common soldier in early modern Europe General Lord Rawlinson Rodney Atwood,2018-08-09 In this biography Rodney Atwood details the life of General Lord Rawlinson of Trent 1864 1925 a distinguished British soldier whose career culminated in decisive victories on the Western Front in 1918 and command of the Indian Army in the early 1920s He served his soldier s apprenticeship in the Victorian colonial wars in Burma the Sudan and South Africa His career provides a lens through which to examine the British Army in the late 19th and early 20th century In the South African War 1899 1902 Rawlinson s ideas aided the defence of Ladysmith and he distinguished himself leading a mobile column in the guerrilla war In the First World War he held an important command in most of the British Expeditionary Force s battles on the Western Front He bears a heavy part responsibility for the disastrous first day of the Somme but later in the battle his successful tactics inflicted heavy losses on the enemy His Western Front career culminated in a series of victories beginning at Amiens He commanded the Indian Army between 1920 and 1925 at a time of military and political tension following the 3rd Afghan War and the Amritsar Massacre He introduced necessary reforms cut expenditure at a time of postwar retrenchment and began commissioning Indians to replace British officers He would have taken up the post of CIGS Chief of the Imperial

General Staff thus being the only British soldier to hold these two top posts He died however four days after his sixty first birthday Drawing extensively on archival material including Rawlinson s own engagingly written letters and diaries this thorough examination of his life will be of great interest to those studying British military history imperial history and the First World War *The Land Wars* John Laband,2020-07-15 Perhaps the most explosive issue in South Africa today is the question of land ownership The central theme in this country s colonial history is the dispossession of indigenous African societies by white settlers and current calls for land restitution are based on this loss Yet popular knowledge of the actual process by which Africans were deprived of their land is remarkably sketchy This book recounts an important part of this history describing how the Khoisan and Xhosa people were dispossessed and subjugated from the time that Europeans first arrived until the end of the Cape Frontier Wars 1779 1878 *The Land Wars* traces the unfolding hostilities involving Dutch and British colonial authorities trekboers and settlers and the San Khoikhoi Xhosa Mfengu and Thembu people as well as conflicts within these groups In the process it describes the loss of land by Africans to successive waves of white settlers as the colonial frontier inexorably advanced The book does not shy away from controversial issues such as war atrocities committed by both sides or the expedient decision of some of the indigenous peoples to fight alongside the colonisers rather than against them *The Land Wars* is an epic story featuring well known figures such as Ngqika Lord Charles Somerset and his son Henry Andries Stockenström Hintsa Harry Smith Sandile Maqoma Bartle Frere and Sarhili and events such as the arrival of the 1820 Settlers and the Xhosa cattle killing It is essential reading for anyone who wants to understand South Africa s past and present *The Railway that Helped Win the Crimean War* Anthony Dawson,2022-09-15 Week after week the guns of the British expeditionary force battered away at the defences of Sevastopol eight miles away from Balaklava the port through which all besiegers supplies arrived As autumn turned to winter rain and frost turned the track from Balaklava into a muddy quagmire and soon it became virtually impassable Horses were dying daily in their endeavours to pull carts up the hills to the siege lines and with few supplies reaching the front the troops suffered terribly from malnutrition and frostbite Unless a solution could be found the entire operation was doomed to humiliating disastrous failure When news of the terrible plight of the troops reached the UK a leading railway contractor and his partners undertook to build a railway at cost from Balaklava to the front line and promised that they could construct it in just three weeks after they arrived in the Crimea Though it took almost seven weeks to complete the railway in that time a double track which rose 500 feet from the port and travelled for seven miles to the siege lines had been laid With food clothing and ammunition at last able to reach the front the British along with their French allies were able to capture Sevastopol and bring the Crimean War to an end In this comprehensive and detailed account of the construction and use of what became known as the Grand Crimean Central Railway the author describes the astonishing achievement in building the first railway ever employed in warfare and the first to be used for casualty evacuation thousands of miles from the UK
