In the Shadow of Slavery Judith Carney, 2011-02-01 The transatlantic slave trade forced millions of Africans into bondage Until the early nineteenth century African slaves came to the Americas in greater numbers than Europeans In the Shadow of Slavery provides a startling new assessment of the Atlantic slave trade and upends conventional wisdom by shifting attention from the crops slaves were forced to produce to the foods they planted for their own nourishment Many familiar foods millet sorghum coffee okra watermelon and the Asian long bean for example are native to Africa while commercial products such as Coca Cola Worcestershire Sauce and Palmolive Soap rely on African plants that were brought to the Americas on slave ships as provisions medicines cordage and bedding In this exciting original and groundbreaking book Judith A Carney and Richard Nicholas Rosomoff draw on archaeological records oral histories and the accounts of slave ship captains to show how slaves food plots botanical gardens of the dispossessed became the incubators of African survival in the Americas and Africanized the foodways of plantation societies

Confronting Injustice David Lyons, 2013-06-13 The essays presented in this volume challenge both theorists and citizens to confront grave injustices committed in the United States David Lyons encourages us to take a fresh look at the beginnings of America including the colonists early adoption of race based slavery even though it was unlawful and why those who rebelled against English oppression were responsible for greater injustices against their Native American neighbors Confronting injustice requires us to consider how delegates to the 1787 constitutional convention readily embraced increased protections for chattel slavery why the federal government later abandoned Reconstruction and why the nation allowed former slave owners to establish a new system of racial oppression called Jim Crow It requires us to ask why America's official rejection of white supremacy is combined with an unwillingness to address continuing racial stratification Confronting injustice calls upon political theorists to test their views in the crucible of social history It challenges those who debate abstractly the idea of an obligation to obey the law to consider the implications of grievous injustices It calls upon those who assume that their society is now reasonably just to ask when that transformation occurred despite the fact that children who are black or poor are denied equal opportunity
