antiquities excavated How and where were they traded How were laws about the ownership of ancient finds made followed and evaded

Hellenomania Katherine Harloe, Nicoletta Momigliano, Alexandre Farnoux, 2018-01-29 Hellenomania the second volume in the MANIA series presents a wide ranging multi disciplinary exploration of the modern reception of ancient Greek material culture in cultural practices ranging from literature to architecture stage and costume design painting sculpture cinema and the performing arts It examines both canonical and less familiar responses to both real and imagined Greek antiquities from the seventeenth century to the present across various national contexts Encompassing examples from Inigo Jones to the contemporary art exhibition documenta 14 and from Thessaloniki and Delphi to Nashville the contributions examine attempted reconstructions of an authentic ancient Greece alongside imaginative and utopian efforts to revive the Greek spirit using modern technologies new media and experimental practices of the body Also explored are the political resonances of Hellenomaniac fascinations and tensions within them between the ideal and the real the past present and future Part I examines the sources and derivations of Hellenomania from the Baroque and pre Romantic periods to the early twentieth century While covering more canonical material than the following sections it also casts spotlights on less familiar figures and sets the scene for the illustrations of successive waves of Hellenomania explored in subsequent chapters Part II focuses on responses uses and appropriations of ancient Greek material culture in the built environment mostly architecture but also extends to painting and even gymnastics it examines in particular how a certain idealisation of ancient Greek architecture affected its modern applications Part III explores challenges to the idealisation of ancient Greece through the transformative power of colour movement and of reliving the past in the present human body especially female Part IV looks at how the fascination with the material culture of ancient Greece can move beyond the obsession with Greece and Greekness

*Classics in Russia 1700-1855* Marinus Antony Wes, 1992 What role did classical Graeco Roman culture play in eighteenth and nineteenth century Russian society on the institutional level as well as in the lives of individual Russian intellectuals Through a series of case studies of classics in action the book illustrates the tension between aims and results expectations and achievements

Classics in Russia 1700-1855 Marinus A. Wes, 1992-09-01 The author shows how the history of the classical tradition in Russia cannot be separated from the history of Russia's orientation to Western Europe in general His book based on many little known and previously unexplored Russian materials is the result of the first comprehensive research on the study of the Greek and Roman classics in Russia and its sociocultural utopian as well as ideological function within the framework of Russian cultural and intellectual history and Russian educational policy from the accession of Peter the Great to the death of Nicholas I A tradition does not exist apart from the people who adhere to it and the networks they create in order to ensure some kind of growth and continuity Therefore the author has ordered his material into an interpretive framework based on a prosopographical approach towards the subject Among specific writers and poets discussed are Pushkin Gogol Goncharov and Turgenev

**History of Technology Volume 31** Ian

Inkster,2012-12-05 New work on early modern Europe has now opened up the hidden avenues that link changes of technologies with a complex of cognitive institutional spatial and cultural elements It is true that all divisions of history wish to incorporate all other divisions unto themselves but in the essays of our first collection there are specific cases and analyses clearly delineated to show how technologies and systems for the production reproduction and representation of technological changes emerged out of fundamental aspects of European society and mentality The question must be How far were such fundamental aspects unique in their entirety and configuration to Europe The second collection on patent agency takes the modern industrialization of Europe as its focus and illustrates the manner in which systems of intellectual property rights generated manifold agencies that acted to both spread and control the use of knowledge in advanced sites Patent agency has been generally neglected by historians one reason for this being the difficulty of defining effective agency beyond the obvious confines of those who were actually trained and remunerated as agents of invention Informal networks or sites may have been crucial in converting general patent systems into local environs of technical advance Making Pagans John Kuhn,2024-12-10 How early modern theatrical practice helped construct the category of pagan as a tool of European self definition and colonial ambition In Making Pagans John Kuhn argues that drama played a powerful role in the articulation of religious difference in the seventeenth century Tracing connections between the history of stagecraft and ethnological disciplines such as ethnography antiquarianism and early comparative religious writing Kuhn shows how early modern repertory systems that leaned heavily on thrift and reuse produced an enduring theatrical vocabulary for understanding religious difference through the representation of paganism a key term in the new taxonomy of world religions emerging at this time and a frequent subject and motif in English drama of the era Combining properties such as triumphal chariots trick altars and moving statues with music special effects and other elements the spectacular set pieces that were mostly developed for plays set in antiquity depicting England's pre Christian past were frequently repurposed in new plays in representations of Native Americans and Africans in colonial contact zones Kuhn argues that the recycling of these set pieces encouraged audiences to process new cultural sites through the lens of old performance tropes and helped produce fictitious quasi ethnographic knowledge for spectators generating the idea of a homogeneous trans historical trans geographical paganism Examining the common scenes of pagan ritual that filled England's seventeenth century stages magical conjurations oracular prophecies barbaric triumphal parades and group suicides Kuhn traces these tropes across dozens of plays from a range of authors including Ben Jonson Christopher Marlowe John Dryden and Philip Massinger Drawing together theater history Atlantic studies and the history of comparative religion Making Pagans reconceptualizes the material and iterative practices of the theater as central to the construction of radical religious difference in early modernity and of the category of paganism as a tool of European self definition and colonial ambition Proceedings, American Philosophical Society (vol. 92, no. 4) , Pompeii in the Public Imagination from Its Rediscovery to Today Shelley Hales,Joanna

Paul,2011-11-17 A collection of essays exploring the different ways in which the ruined city of Pompeii has been a major source of inspiration to Western imaginations Creative and popular as well as scholarly approaches are covered including an interview with the novelist Robert Harris and the volume is fully illustrated with several images in full colour **The World of Pompeii** Pedar Foss,John J. Dobbins,2009-06-02 This well illustrated volume written by experts is an all embracing survey of The World of Pompeii the town of Herculaneum and the many urban and rural villas *The Renaissance Rediscovery of Intimacy* Kathy Eden,2017-11-06 In 1345 when Petrarch recovered a lost collection of letters from Cicero to his best friend Atticus he discovered an intimate Cicero a man very different from either the well known orator of the Roman forum or the measured spokesman for the ancient schools of philosophy It was Petrarch s encounter with this previously unknown Cicero and his letters that Kathy Eden argues fundamentally changed the way Europeans from the fourteenth through the sixteenth centuries were expected to read and write The Renaissance Rediscovery of Intimacy explores the way ancient epistolary theory and practice were understood and imitated in the European Renaissance Eden draws chiefly upon Aristotle Cicero and Seneca but also upon Plato Demetrius Quintilian and many others to show how the classical genre of the familiar letter emerged centuries later in the intimate styles of Petrarch Erasmus and Montaigne Along the way she reveals how the complex concept of intimacy in the Renaissance leveraging the legal affective and stylistic dimensions of its prehistory in antiquity pervades the literary production and reception of the period and sets the course for much that is modern in the literature of subsequent centuries Eden s important study will interest students and scholars in a number of areas including classical Renaissance and early modern studies comparative literature and the history of reading rhetoric and writing
