the plastic elliptic allusive and symbolic transposition of actions and situations This book is the result of detailed investigations based on contemporary accounts and obscure or unpublished materials Through the examination of the creative pedagogical and theoretical work of the inventor of the new mime art Etienne Decroux De Marinis focuses on the different assumptions underlying the various modes of the problematic presence of mime in the theatre of the twentieth century from the utopia of a pure theatre attributed to the sole essence of the actor to its decline into a closed poetic genre often nostalgically stuck in the past from mime as a pedagogical tool for the actor to mime as an expressive and virtuosic means in the hands of the director

The Metaphysics of Night Matthew Del Nevo, 2014-04-18 The *Metaphysics of Night* acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion

rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture
