Multiple Marginality and Gangs James Diego Vigil, 2020-08-20 Multiple Marginality and Gangs Through a Prism Darkly unravels the youth gang problem in a multidimensional approach that encompasses the place status social control subcultural and identity facets of urban street gangs The power of place and the status of persons and groups are the major forces that generate the many situations and conditions that give rise to gangs In its simplest trajectory Multiple Marginality can be modeled as follows

place status to street socialization to street subculture to street identity It is the actions and reactions among them that we fathom As we witness detrimental or absent family influence we also observe weaker underfunded schools that limit educators reach At the same time there has been an increase in the militarization of law enforcement to deal with the youth street populations the heaviest hand is that of the police There is a causal relationship between social marginalization factors and gang membership A psychological analysis also entails how street socialization leads to a street identity In a place and status group the cascading effects of marginalization have certainly affected and mostly thwarted social control institutions

Phillips, 2024-05-31

In 2003 an FBI led task force known as Operation Fly Trap attempted to dismantle a significant drug network in two Bloods controlled African American neighborhoods in Los Angeles The operation would soon be considered an enormous success noted for the precision with which the task force targeted and removed gang members otherwise entrenched in larger communities In Operation Fly Trap Susan A Phillips questions both the success of this operation and the methods used to conduct it Based on in depth ethnographic research with Fly Trap participants Phillips s work brings together police narratives crime statistics gang cultural histories and extensive public policy analysis to examine the relationship between state persecution and the genesis of violent social systems Crucial to Phillips s contribution is the presentation of the voices and perspectives of both the people living in impoverished communities and the agents that police them Phillips positions law enforcement surveillance and suppression as a critical point of contact between citizen and state She tracks the bureaucratic workings of police and FBI agencies and the language ideologies and methods that prevail within them and shows how gangs have adapted seeking out new locations learning to operate without hierarchies and moving their activities more deeply underground Additionally she shows how the targeted efforts of task forces such as Fly Trap wreak sweeping sustained damage on family members and the community at large Balancing her roles as even handed reporter and public scholar Phillips presents multiple flaws within the US criminal justice system and builds a powerful argument that many law enforcement policies in fact nurture rather than prevent violence in American society
