You are the Messiah and I should know Justin Lewis-Anthony,2013-04-11 Is Leadership a useful sociological tool in the increasing professionalisation of the Church s ministry and mission or a dangerous threat akin to a heresy Every human endeavour from a primary school to the government needs leadership The Church believes itself to have a clear understanding of what constitutes Christian leadership but advocates of leadership have been unable to give a clear concise and universally accepted definition of the term Justin Lewis Anthony argues that our understanding of both secular managerial and religious missional leadership has been fatally compromised by the unconscious functioning of mythic leadership presented through the medium of the dominant culture of our own day popular Hollywood film We describe our

leaders as if they should be collaborative enabling saints and or expect them to show our enemies who is boss We search for the great man who will rescue us from all our problems through redemptive violence within the Church we talk about Jesus Christ but we expect John Wayne This book shows how leadership is at best a contested concept and at worst a dangerous violent and totalitarian heresy **BPM - Driving Innovation in a Digital World** Jan vom Brocke, Theresa

Schmiedel, 2015-02-21 This book shows how business process management BPM as a management discipline at the intersection of IT and Business can help organizations to master digital innovations and transformations At the same time it discusses how BPM needs to be further developed to successfully act as a driver for innovation in a digital world In recent decades BPM has proven extremely successful in managing both continuous and radical improvements in many sectors and business areas While the digital age brings tremendous new opportunities it also brings the specific challenge of correctly positioning and scoping BPM in organizations This book shows how to leverage BPM to drive business innovation in the digital age It brings together the views of the world's leading experts on BPM and also presents a number of practical cases It addresses managers as well as academics who share an interest in digital innovation and business process management The book covers topics such as BPM and big data BPM and the Internet of Things and BPM and social media While these technological and methodological aspects are key to BPM process experts are also aware that further nontechnical organizational capabilities are required for successful innovation The ideas presented in this book have helped us a lot while implementing process innovations in our global Logistics Service Center Joachim Gantner Director IT Services Swarovski AG Managing Processes everyone talks about it very few really know how to make it work in today's agile and competitive world It is good to see so many leading experts taking on the challenge in this book Cornelius Clauser Chief Process Officer SAP SE This book provides worthwhile readings on new developments in advanced process analytics and process modelling including practical applications food for thought how to succeed in the digital age Ralf Diekmann Head of Business Excellence Hilti AG This book is as an important step towards process innovation systems I very much like to congratulate the editors and authors for presenting such an impressive scope of ideas for how to address the challenging but very rewarding marriage of BPM and innovation Professor Michael Rosemann Queensland University of Technology
