With the year 2000 and beyond upon us, emerging technologies afford tremendous opportunities for reference librarians and for improved and enhanced public access to information. In Reference Services and Media you will learn about planning for staffing, troubleshooting, fund raising, and budget developing to support the use of information technologies. You will also examine the impact new media has on academic libraries, specifically video and movie clips that are transferred over intranets and internets and their opportunities and legal implications. In Reference Services and Media you will also explore desktop conferencing and web access for reference services versus personalized contact, desktop conferencing with personal computers in remote areas for reference service assistance, positive and negative aspects of using each technology in reference use instruction, creative methods for procuring funding for an electronic information literacy instruction classroom, providing a digital library for a state library network, raising confidence levels of public service librarians in using electronic resources to answer reference questions. Reference Services and Media includes case studies, tables, and an annotated bibliography that serves as a librarian's media reference toolkit, making it essential for effective media reference work.
