*British Foreign Secretaries Since 1974* Kevin Theakston, 2004 This book analyses the changing role of the British Foreign Secretary and presents biographical case studies of all the individual holders of that post the policies they pursued and the issues they faced since 1974 The work of the British Foreign Secretaries from James Callaghan to Robin Cook is examined in the context of the foreign policy making machinery the changing environment of British foreign policy and the internal and external political forces with which they had to contend Using a biographical case study approach the chapters examine the careers personalities policies and influence of successive Foreign Secretaries to increase our knowledge and understanding of the work of the government and the development of British foreign policy over the last thirty years *British Foreign Secretaries Since 1974* casts light on the hitherto shadowy and understudied role of personality in international relations and on how ten very different personalities helped to shape the detail and the articulation of British foreign policy Reflecting on Things Past Peter Alexander Rupert Carington Baron Carrington, 1989 *Reflect on Things Past* Peter Alexander Rupert Carington Baron Carrington, 1988 **British Decolonisation, 1918-1984** Richard Davis, 2013-10-03 Few subjects have aroused more controversy in recent years than that of empire and that of the British Empire in particular Few other subjects are of greater importance to today's world How the British Empire was created and maintained and the impact it had on both the colonised and the colonisers have been the source of long running and heated debates amongst historians politicians and in the media For several decades it has been analysed from numerous different perspectives providing a wide range of differing interpretations Over recent years new studies have extended the scope of imperial history into previously ignored fields that have significantly added to our understanding Imperial history can therefore no longer be regarded as the exclusive realm of the political historian or the reserve of an essentially British approach The British Empire was complex Each of the far flung components that made it up had its own particularities At various times and in various places it took on different forms and had different meanings It affected people across the globe in a multitude of ways This inevitably produces a multi faceted picture The large number of actors in Britain and in the colonised world who played a part in its history adds to this impression As a consequence it is difficult to come up with one all encompassing history of the British Empire All these aspects of the British Empire are apparent in the story of how it ended What precisely decolonisation was how it came about and what it meant for the British and for those who gained their independence varied considerably from one part of the Empire to another and from one period to another How these changes came about how independence was won across the colonial world and how it was resisted are dealt with here across a selection of different case studies Understanding how the British Empire collapsed tells us a great deal about what this Empire was and about its legacy in today's world Garfield Todd: The End of the Liberal Dream in Rhodesia Susan Woodhouse, 2018-04-17 Against the backdrop of a politically approved view that Europeans did little to further the Zimbabwean nationalist freedom movements

before Independence in 1980 this book will help to nail that misconception against a wall The story of Garfield Todd and his various roles as Christian missionary liberal prime minister of southern Rhodesia high profile opponent of UDI and its architect Ian Smith from 1965 to 1980 will surely be an eye opener for many young people in central and southern Africa who may never have heard of this great man who spent his life in education and public service The role of Garfield Todd and some of the people who worked with him has been effectively airbrushed from the pages of the official Zimbabwean story Why is the question Susan Woodhouse gives us the answer by telling the story of a small but influential group of men and women who dared swim against the racial current in Africa after the Second World War Its a story told with warmth personal insight and often great humour This Edinburgh based author who Sir Garfield said knew the Todds better than anyone else has introduced a small but dedicated group of long forgotten activists to a new generation of readers *Browned Off and Bloody-minded* Alan Allport, 2015-01-01 More than three and a half million men served in the British Army during the Second World War the vast majority of them civilians who had never expected to become soldiers and had little idea what military life with all its strange rituals discomforts and dangers was going to be like Alan Allport's rich and luminous social history examines the experience of the greatest and most terrible war in history from the perspective of these ordinary extraordinary men who were plucked from their peacetime families and workplaces and sent to fight for King and Country Allport chronicles the huge diversity of their wartime trajectories tracing how soldiers responded to and were shaped by their years with the British Army and how that army however reluctantly had to accommodate itself to them Touching on issues of class sex crime trauma and national identity through a colorful multitude of fresh individual perspectives the book provides an enlightening deeply moving perspective on how a generation of very modern minded young men responded to the challenges of a brutal and disorienting conflict **Margaret Thatcher: From Grantham to the Falklands** Charles Moore, 2013-05-21 With unequalled authority and dramatic detail the first volume of Charles Moore's authorized biography of Margaret Thatcher reveals as never before the early life rise to power and initial period as prime minister of the woman who transformed Britain and the world in the late twentieth century Moore illuminates Thatcher's youth her relationship with her parents and early romantic attachments including her courtship and marriage to Denis Thatcher moving forward to the determination and boldness that marked even the very beginning of her political career His account of her political relationship with Ronald Reagan is riveting Throughout Moore explores in compelling detail the obstacles and indignities that Thatcher encountered as a woman in what was still overwhelmingly a man's world A clear eyed fair account conveying Thatcher's remarkable talents and sometimes infuriating qualities Moore's portrait enlivens the woman who was prime minister for more than a decade 1979-1990 re-creating the circumstances and experiences that shaped one of the most significant world leaders of the postwar era Governance Stories Mark Bevir, Rod Rhodes, 2006-04-19 An incisive examination of Britain today which breaks from traditional studies and takes a new approach to account for massive changes in the make up of the nation Over

the last twenty years Britain has changed from being governed as a unitary state to a country ruled by the interplay of various forces central government the market public private partnerships new local government structures eg the new Mayoral system greater regional autonomy as well as the EU and transnational businesses and organizations In their earlier book *Interpreting British Governance* Bevir and Rhodes examined changes in British government by setting out an interpretative approach to British political science which focussed on an aggregate analysis of British political traditions This new study builds on this work to provide a theoretical defence of situated agency located in the historical context of British political science compare their approach to British political science with others including post structural and institutional analysis present a general account of governance as the context for ethnographic analyses of governance in action deliver studies of the consumers of public services the National Health Service government departments and policy networks This book will be of great interest to advanced students and researchers of political theory public policy British politics and British history

*Heath, Nixon and the Rebirth of the Special Relationship* Niklas H. Roszbach, 2009-11-19 This book reveals that 1969-74 was a crucial period for the special relationship The Heath Government attempted to reverse Britain's decline as a great power by forging an American-European special relationship out of the Anglo-American relationship Simultaneously the Nixon Administration tried to recoup the global position of the United States

*From East of Suez to the Eastern Atlantic* Edward Hampshire, 2016-04-15 Exploring British naval policy during the first two governments of Harold Wilson 1964-70 this book analyses how the Navy Department of the Ministry of Defence and the Navy's professional leadership dealt with six years of defence reviews retrenchment and strategic re-orientation This period witnessed a dramatic blow to the service's self image and self confidence as a result of the cancellation of the large CVA 01 aircraft carrier and a gradual process of realignment reorientation and adaptation to the changed political environment resulting in a recovery of self confidence a new strategy and the approval in principle of a class of small aircraft carriers Taking advantage of the recently released official records the study highlights for the first time just how in practice Mountbatten managed to dominate the Chiefs of Staff machinery and how his power was undermined and diminished It also demonstrates that contrary to widespread historical opinion Denis Healey was not necessarily set against carrier air power from his arrival in office and was willing to consider the procurement of a medium carrier for the navy Furthermore the work highlights the importance of the Mediterranean in the rehabilitation and renewal of self confidence by the navy in the late 1960s Although focusing primarily on policy and strategic matters the book incorporates wider historical consideration reviewing other factors that influenced policy making such as foreign policy financial resources materiel manpower and recruitment in addition to the administrative machinery and the cultural environment of the time In so doing Dr Hampshire offers a vivid insight into the interactions of government and military at a critical juncture in the changing nature of Britain's global role

*Anglo-American Policy Toward the Persian Gulf, 1978-1985* Tore T. Petersen, 2015 Offers an analysis on how Great Britain and the United States

confronted the initial emergence of fundamentalist Islam with the occupation of the Holy Mosque in Mecca and Khomeini's revolution in Iran. Despite the loss of Iran, the United States and Britain managed to secure the Arab side of the Persian Gulf in the Western camp. Britain, France and the Battle for the Leadership of Europe, 1957-2007 Richard Davis, 2023-08-04

The book gives an account of an essential part of Britain's troubled relationship with the rest of Europe after 1945, particularly considering the rivalry of France and Britain between 1945 and 2007. The record of Britain's relations with the rest of Europe and in particular with France from 1945 onwards was seen by the politicians and diplomats in charge of foreign policy very much in terms of a diplomatic battle. This is paradoxical given that European integration was supposedly aiming to create a European community. Although Britain has usually been seen as an at best half-hearted participant in European integration, it nonetheless maintained its ambition to assume the leadership of Europe. This inevitably led to a confrontation with France which shared the same goal. This book begins by looking at the opposing ways in which these two ancient European rivals presented very different models for the sort of Europe they wished to see emerge. It goes on to consider the record of their rivalry between 1945 and 2007. After this, Britain effectively gave up the battle for the political leadership of Europe. This however should not obscure the fact that it had succeeded in imposing many of its social and economic models on Europe. This volume will be of interest to both undergraduate students and general readers interested in Britain's position in Europe. *The Politics of Race in Britain and South Africa* Elizabeth Williams, 2015-03-18. The postwar government of South Africa led by H F Verwoerd implemented wide-ranging racial segregation laws beginning the open policy of apartheid in one of Africa's most prosperous and internationally influential states. During the apartheid era, the British government faced an uneasy dilemma while repudiating apartheid laws, it maintained an ambiguous stance towards the South African government. As black South Africans were reduced to the status of non-citizens after the 1970 Citizenship Act, increasing numbers of exiles and fugitives were finding refuge in Britain, which was now home to a growing anti-apartheid protest movement. This is the first book to examine the British support for the anti-apartheid movement among its own black communities. Elizabeth Williams highlights the connection between domestic anti-racism struggles and the struggle in South Africa, showing how black Britons who were themselves fighting racism in British society identified and expressed solidarity with black South Africans during the Apartheid years. Williams further assesses the way in which Black communities in Britain viewed Margaret Thatcher's support of South Africa despite the international call for sanctions. Featuring the work of acclaimed documentary photographer and civil rights activist Vanley Burke, this will be an essential book for students and scholars of race, British history, international relations, post-colonial studies and South African history.
