Urban Regeneration, Community Power and the (In)Significance of 'Race' Paul J. Maginn, 2017-11-30 The concepts of community consultation and participation have come to dominate academic and policy debate about urban regeneration partnerships However there has been relatively little discussion about the nature of community power within regeneration partnerships Adopting an ethnographic approach in the study of community participation and power and the significance of race in three ethnically diverse neighbourhoods in London this book highlights that there has been a pluralistic turn in British urban regeneration policy Local communities often portrayed as the least powerful partner within partnerships are shown to use various strategies to influence decision making thus giving rise to a new typology of pluralism pragmatic hyper and paternalistic Furthermore the significance of race and racism within community forums and regeneration partnerships is challenged The playful use of the term In Significance in the title is linked to the argument that although racism exists race does not always matter

Community Resilience Katy Wright,2021-11-29 This book provides an alternative perspective on community resilience drawing on critical sociological and social policy insights about how people individually and collectively cope with different kinds of adversity Based on the idea that resilience is more than simply an invention of neoliberal governments this book explores diverse expressions of

resilience and considers what supports and undermines people's resilience in different contexts. Focusing on the United Kingdom, it examines the contradictions and limitations of neoliberal resilience policies and the role of policy in shaping how vulnerabilities are distributed and how resilience is manifested. The book explores different types of resilience including planning, response, recovery, adaptation, and transformation, which are examined in relation to different types of threat such as financial hardship, disasters, and climate change. It argues that resilience cannot act as an antidote to vulnerability and aims to demonstrate the importance of shared institutions in underpinning resilience and in preventing socially created vulnerabilities. It will be of interest to academics, students, and well-informed practitioners working with the concept of resilience within the subject areas of Sociology, Social Policy, Human Geography, Environmental Humanities, and International Development.

Although several decades of feminist social action have made significant progress to the social, economic, and political condition of many women, change has been uneven, and there remain considerable advancements to be made globally. This valuable third edition considers women's changing position in the world today, updating some of the perennial challenges that women face and examining new and emerging issues including digital exclusion, sustainable community development, and environmental justice. Published in association with the British Association of Social Workers, this book is an invaluable resource for students and practitioners of social work, community work, sociology, and social policy.

Tackling Social Exclusion John Pierson, 2003-09-02. The concept of social exclusion is a central focus of government policy and is rapidly moving to the core of practitioner activity. This textbook shows how social workers can combat the social exclusion experienced by service users and at the same time promote social inclusion. **Tackling Social Exclusion** covers the meanings of social exclusion and the common elements of practice needed to reverse it: the skills needed when working with specific groups of people including children and families, young people, and vulnerable adults; the neighbourhood dimension in social exclusion; the link between race and ethnic minorities and social exclusion; and the implications of the Macpherson Report for practice: how service agencies can change their organisation to promote inclusion; how to work with communities to effect change. Each chapter is grounded in real practice examples and explores through
