Reflection and the Stability of Belief Louis E. Loeb,2010 A unifying theme of Loeb s work is epistemological that Descartes and Hume advance theories of knowledge that rely on a substantial naturalistic component adopting one or another member of a cluster of psychological properties of beliefs as the goal of inquiry and the standard for assessing belief forming mechanisms Thus Loeb shows a surprising affinity between the epistemologies of the two figures surprising because they are often thought of as polar opposites in this respect Descartes and Hume are unique in that their philosophical texts are accessible beyond just a narrow audience in the history of philosophy their ideas continue to be a vital part of the field at large This volume will thus appeal to advanced students and scholars not just in the history of early modern philosophy but in epistemology and other core areas of the discipline *Painting in Pastels* Robert Brindley,2015-05-31 Pastels are an extremely versatile and immediate medium These characteristics can lead to bold exciting and impromptu paintings however

their responsive flexible nature can also be used to create subtle gentle colour with little or no texture This practical book will guide you through the full scope of painting in pastels and explain particularly how they can be used to capture light colour and texture With step by step instructions in a wide range of subject matter Painting in Pastels will be invaluable for beginners and experienced artists alike In it the techniques are demonstrated and explained advice is given on subject selection and composition emphasis is placed on light tone and colour and there are sections on painting landscapes coastal scenery interiors still life figures and portraits Superbly illustrated with 274 colour illustrations **Life and Reflections**
