Counterpoints Stephanie Tara Schwartz, May Telmissany, 2010-03-08 Revolving around the theme of counterpoint extensively used by Edward Said as the interplay of diverse ideas and discrepant experiences this book aims to explore Said s contribution to the fields of comparative literature literary criticism postcolonial theory exilic and transnational studies and socio political thought among many others Overshadowed by his legitimate political positions in support to the Palestinian cause and at odds with Islamophobic hostilities Said s intellectual achievements in the fields of humanities and philosophical thinking should equally be acknowledged and celebrated Said articulates his notion of counterpoints through a vivid description of the composition of Western classical music In the counterpoint of Western classical music various themes play off one another with only a provisional privilege being given to any particular one yet in the resulting polyphony there is concert and order an organized interplay that derives from the themes not from a rigorous melodic or formal principle outside the work This book pays tribute to Said s contrapuntal methodology as well as to his academic and humanistic legacy

Reflections on Exile Edward W. Said, **Postcolonial Theory and Autobiography** David Huddart, 2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies Its concepts and ideas are implicitly applicable to everyone ironing over any individuality or cultural difference Postcolonial theory has challenged these limitations of cultural theory and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn Despite the fact that autobiography is frequently dismissed for its Western masculine bias David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity Focusing on the influence of post structuralist theory on postcolonial theory and vice versa this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories Offering a fresh perspective on familiar critical figures like Edward W Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida Gilles Deleuze and Alain Badiou this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience investigation and knowledge

Critical Theory Amirhosein Khandizaji, Wolfgang Sohst, 2025-07-01 Critical Theory The Last Stand for Emancipation gathers leading voices in contemporary critical thought to reassert the enduring relevance of a tradition forged in resistance From the early insights of the Frankfurt School to its intersections with decolonial queer ecological and postcolonial critiques this volume maps the evolving terrain of a radical project devoted to unveiling domination and envisioning emancipation At a time when neoliberal orthodoxy undermines critical scholarship and authoritarian populism distorts public discourse this book refuses resignation It offers instead a lucid and urgent intervention one that confronts the alienations of digital life the legacies of colonial violence and the manufactured chaos of late capitalism With essays ranging from genealogy to praxis from epistemology to affect this collection insists that critical theory is not an academic relic but a living practice of resistance Whether reckoning with the failures of progress or reclaiming hope as a political act Critical Theory The Last Stand for Emancipation is a call to think deeply act ethically and remember that critique remains a vital tool in the struggle for a more just world

The Re-Emergence of the Single State Solution in Palestine/Israel Cherine Hussein, 2015-02-11 Providing the first in depth intellectual and organizational mapping of the single state idea s recent resurgence in Palestine Israel this book enquires into its nature as a phenomenon of resistance as well as into its potential as a counterhegemonic force in the making against the processes of Zionism Reconstructing this moment of re emergence through primary material and interviews with diverse influential intellectuals its analysis highlights their self understandings worldviews strategies and perceptions of the phenomenon in which they are involved while questioning whether the single state idea has the potential to become a Gramscian inspired movement of resistance against Zionism In presenting this rare insight into a resistance movement in the making this book resurrects an empowering image of Antonio Gramsci infused with the writings of Edward Said This it does in an effort to both problematize the dominant interpretations

of Gramsci's writings in International Relations and to decolonise the abstract way in which resistance and counter hegemony are often studied in the discipline. Contributing a mapping of a silenced alternative and hopeful way forward in the context of escalating violence, this book is essential reading for those studying the Arab Israeli conflict, Middle East Politics and International Relations.

Cartographies of Exile Karen Elizabeth Bishop, 2016-04-20. This book proposes a fundamental relationship between exile and mapping. It seeks to understand the cartographic imperative inherent in the exilic condition, the exilic impulses fundamental to mapping, and the varied forms of description proper to both. The vital intimacy of the relationship between exile and mapping compels a new spatial literacy that requires the cultivation of localized, dynamic reading practices attuned to the complexities of understanding space as text and texts as spatial artifacts. The collection asks what kinds of maps do exiles make? How are they conceived, drawn, read? Are they private maps or can they be shaped collectively? What is their relationship to memory and history? How do maps provide for new ways of imagining the fractured experience of exile and offer up both new strategies for reading displacement and new displaced reading strategies? Where does exilic mapping fit into a history of cartography, particularly within the twentieth-century spatial turn? The original work that makes up this interdisciplinary collection presents a varied look at cartographic strategies employed in writing, art, and film, from the pre-Contact Americas to the Renaissance to late postmodernism, the effects of exile in its many manifestations on cartographic textual systems, ways of seeing and forms of reading, the challenges of traversing and mapping unstable landscapes and restrictive social and political networks, and the felicities and difficulties of both giving into the map and attempting to escape the map that provides for exile in the first place. *Cartographies of Exile* will be of interest to students and scholars working in literary and cultural studies, gender, sexuality, and race studies, anthropology, art history, and architecture, film performance, visual studies, and the fine arts.

Sanctuary Nicole A. Waligora-Davis, 2011-03-01. In 2005, hurricane Katrina and its aftermath starkly revealed the continued racial polarization of America. Disproportionately impacted by the ravages of the storm, displaced black victims were often characterized by the media as refugees. The characterization was wrong-headed and yet deeply revealing. *Sanctuary: African Americans and Empire* traces the long history of this and related terms like alien and foreign, a rhetorical shorthand that has shortchanged black America for over 250 years. In tracing the language and politics that have informed debates about African American citizenship, *Sanctuary* in effect illustrates the historical paradox of African American subjecthood: while frequently the target of legislation (slave law, the Black Codes, and Jim Crow), blacks seldom benefited from the actions of the state. Blackness helped to define social, cultural, and legal aspects of American citizenship in a manner that excluded black people themselves. They have been treated rather as foreigners in their home country. African American civil rights efforts worked to change this. Activists and intellectuals demanded equality, but they were often fighting for something even more fundamental: the recognition that blacks were in fact human beings. As citizenship forced acknowledgement of the humanity of African Americans, it thus became a gateway to

both civil and human rights Waligora Davis shows how artists like Langston Hughes underscored the power of language to define political realities how critics like W E B Du Bois imagined democratic political strategies and how they and other public figures have used their writing as a forum to challenge the bankruptcy of a social economy in which the value of human life is predicated on race and civil identity **In the Light of Medieval Spain** S. Doubleday, D. Coleman, 2008-08-04 This volume brings together a team of leading scholars in Spanish studies to interrogate the contemporary significance of the medieval past offering a counterbalance to intellectual withdrawal from urgent public debates Postcolonial Encounters in International Relations Alina Sajed, 2013-07-18 Postcolonial Encounters in International Relations examines the social and cultural aspects of the political violence that underpinned the French colonial project in the Maghreb and the multi layered postcolonial realities that ensued This book explores the reality of the lives of North African migrants in postcolonial France with a particular focus on their access to political entitlements such as citizenship and rights This reality is complicated even further by complex practices of memory undertaken by Franco Maghrebian intellectuals who negotiate in their writings between the violent memory of the French colonial project in the Maghreb and the contemporary conundrums of postcolonial migration The book pursues thus the politics of post colonial memory by tracing its representations in literary political and visual narratives belonging to various Franco Maghrebian intellectuals who see themselves as living and writing between France and the Maghreb By adopting a postcolonial perspective a perspective quite marginal in International Relations the book investigates a different international relations which emerges via narratives of migration A postcolonial standpoint is instrumental in understanding the relations between class gender and race which interrogate and reflect more generally on the shared post colonial violence between North Africa and France and on the politics of mediating violence through complex practices of memory **T.S. Eliot, Poetry, and Earth** Etienne Terblanche, 2016-05-12 T S Eliot enjoyed a profound relationship with Earth Criticism of his work does not suggest that this exists in his poetic oeuvre Writing into this gap Etienne Terblanche demonstrates that Eliot presents Earth as a process in which humans immerse themselves The Waste Land and Four Quartets in particular re locate the modern reader towards mindfulness of Earth s continuation and one s radical becoming within that process But what are the potential implications for ecocriticism Based on its careful reading of the poems from a new material perspective this book shows how vital it has become for ecocriticism to be skeptical about the extent of its skepticism to follow instead the twentieth century s most important poet who at the end of searing skepticism finds affirmation of Earth art and real presence Shakespeare and the Cultural Colonization of Ireland Robin Bates, 2008-01-11 Focusing on plays Richard II Henry V and Hamlet which appear prominently in the writing of the Irish nationalist movement of the early twentieth century this study explores how Irish writers such as Sean O Casey Samuel Beckett W B Yeats G B Shaw James Joyce and Seamus Heaney resisted English cultural colonization through a combination of reappropriation and critique of Shakespeare s work Paradoxical Citizenship Silvia Nagy-Zekmi, 2008-01-01 In a collection

of intriguing essays on the work of Edward Said internationally recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre including his breakthrough *Orientalism* the role of the intellectual the Question of Palestine and finally his dramatic memoir *Out of Place* This volume is a useful contribution for classroom use as well as recreational reading for those interested in the work of this controversial thinker

Democratic Multiplicity James Tully, Keith Cherry, Fonna Forman, Jeanne Morefield, Joshua Nichols, Pablo Ouziel, David Owen, Oliver Schmidtke, 2022-08-04 Discloses the radical diversity of the field of democracy that is overlooked by mainstream political science

The New Yoder Peter Dula, Chris K. Huebner, 2010-01-01 The work of John Howard Yoder has become increasingly influential in recent years Moreover it is gaining influence in some surprising places No longer restricted to the world of theological ethicists and Mennonites Yoder has been discovered as a refreshing voice by scholars working in many other fields For thirty five years Yoder was known primarily as an articulate defender of Christian pacifism against a theological ethics guild dominated by the Troeltschian assumptions reflected in the work of Walter Rauschenbusch and Reinhold and Richard Niebuhr But in the last decade there has been a clearly identifiable shift in direction A new generation of scholars has begun reading Yoder alongside figures most often associated with post structuralism neo Nietzscheanism and post colonialism resulting in original and productive new readings of his work At the same time scholars from outside of theology and ethics departments indeed outside of Christianity itself like Romand Coles and Daniel Boyarin have discovered in Yoder a significant conversation partner for their own work This volume collects some of the best of those essays in hope of encouraging more such work from readers of Yoder and in hopes of attracting others to his important work

Edward Said and the Authority of Literary Criticism Nicolas Vandeviver, 2019-09-26 This book examines the earliest writings of Edward Said and the foundations of what came to be known as postcolonial criticism in order to reveal how the groundbreaking author of *Orientalism* turned literary criticism into a form of political intervention Tracing Said s shifting conceptions of literature and agency in relation to the history of American literary studies in the thirty years or so between the end of World War II and the last quarter of the twentieth century this book offers a rich and novel understanding of the critical practice of this indispensable figure and the institutional context from which it emerged By combining broad scale literary history with granular attention to the vocabulary of criticism Nicolas Vandeviver brings to light the harmonizing of methodological conflicts that informs Said s approach to literature and argues that Said s enduring political significance is grounded in his practice as a literary critic
