Reflections Olav Klepp, 2002-09-12 Wars hate bloodshed and savage events started in Iraq and the Middle East more than 1 400 years ago long before the discovery of America and the establishing of the United States of America The hate culture had been the real problem in the Middle East for hundreds of years Certainly it is not the USA even in the case of the Arab Israel conflict in modern history It is well known that the various American administrations tried to find a peaceful end to this conflict Unfortunately the Arab leaders always give the public an impression that they are very close to defeating Israel and they put the blame for not doing it on the USA The Arab leaders and the media ignore that the Israelis have had nuclear weapons since the 60s Only a na ve person would think that the Israeli people will follow the steps of the crusaders by boarding ships and leaving the Middle East The Israelis will not keep their nuclear weapons in boxes and leave asking the Arab leaders to dust them occasionally They will use them to defend their existence and a new map for the Middle East will emerge The Arab government officials still cannot see that Iran Syria and its associates in Iraq and Lebanon are the enemy and the real threat to them and the whole world The Iranians used thousands of twelve year old Iranian Muslim children to walk through the mine fields to clear the way for the regular Iranian military forces during the Iran Iraq war Also they used chemical weapons political assassinations and international terrorism The hate culture directed

toward Israel along with the corruption oppression and all other aspects of the hate culture cloud the judgment of the Arab officials and the public Trusting in Higher Education Paul Gibbs, Peter Maassen, 2022-02-07 This multidisciplinary book brings together scholars from Norway and the UK to discuss the notion of trust within the structures and forms of higher education located in two distinctive localities The meaning of trust is multi variant and nuanced but is omnipresent in the literature on higher education ranging from student engagement to policy exhortations A key feature of this book is the effort to integrate the term trust conceptually functionally and phenomenological more generally as well as within the context of higher education Practice from within Norway and the UK is used to illustrate and expose relevant similarities and varieties in trust and the possible lack of it within the sector The book thus faces the complexity of trust and its distinctive manifestation through a number of analytical lenses and realities **Basic, Intermediate and Advanced Grammar and Composition In English-Norwegian** Nam H Nguyen, 2018-04-12 it is an easy tool that teaches the rules of sentences noun verbs question mark adjectives and adverbs prepositions propositions and pronoun pronouncements punctuation possessives and proofreading skills for all communication Det er et enkelt verktøy som lærer regler for setninger substantiv verb spørsmål stegn adjektiver og adverb preposisjoner proposisjoner og pronomen uttalelser tegnsetting eiendomspronomen og korrekturlesing ferdigheter for all kommunikasjon **Eighteenth-Century Periodicals as Agents of Change** Ellen Krefting, Aina Nøding, Mona Ringvej, 2015-06-24 Periodicals were an essential medium during eighteenth century Enlightenment The era's growing number of newspapers and journals made possible a fast and vast dissemination of ideas and debates Journals were a particularly important means of transmitting ideas genres texts and pieces of information from country to country from centre to periphery and from press to subscribers These journals became agents of change by mediating the increasingly profound and widespread urge to write and read and to engage in political debate This volume edited by Ellen Krefting Aina Nøding and Mona Ringvej presents contributions that explore this media revolution from a Northern perspective The chapters throw new light on the reception of Enlightenment ideas and practices in Denmark Norway Sweden Finland and beyond Taken together they make a strong case for the transnational and revolutionary character of the Enlightenment as a whole *Scandinavia in the Revolutionary Era* Hildor Arnold Barton, 1986 **Elise Boulding: Autobiographical Writings and Selections from Unpublished Journals and Letters** J Russell

From Antiquities to Heritage Anne Eriksen,2014-05-01 Eighteenth century gentleman scholars collected antiquities Nineteenth century nation states built museums to preserve their historical monuments In the present world heritage is a global concern as well as an issue of identity politics What does it mean when runic stones or medieval churches are transformed from antiquities to monuments to heritage sites This book argues that the transformations concern more than words alone They reflect fundamental changes in the way we experience the past and the way historical objects are assigned meaning and value in the present This book presents a series of cases from Norwegian culture to explore how historical objects and sites have changed in meaning over time It contributes to the contemporary debates over collective memory and cultural heritage as well to our knowledge about early modern antiquarianism
